GIGANTIC UNDERTAKING JOHN WANAMAKER.

dertake to Feed and House All Unfortunates Who May Apply for It.

PHILADELPHIA, May 16.—Ex-Postmas-ter-General John Wanamaker proposes to build a hotel in this city, at which any to build a hotel in this city, at which any one will be fed and housed free of any cost whatever. The primary object of Wanamaker was to establish an institution for the reformation of inebriates, and in connection with this build an inn where unfortunates could find a home. He has been giving the matter considerable attention of late, and is now determined to carry his plans out.

mined to carry his plans out.

Since the matter first occurred to him he has been broadening the scheme, and now intends not only to establish a stopping-place for unfortunate drunkards who may desire to reform, but to provide a semocrary home for any unfortunate and the stopping of th ping-place for unfortunate drunarras wan may desire to reform, but to provide a temporary home for any unfortunate so-journer who may be without funds, but possessed of a healthy appetite and a desire to sleep elsewhere than in a warm corner or in a cheerless freight car. As there will be no income whatever from the hotel, it will require thousands of dollars every year to maintain the establishment, but the founder expects help to come from outside. It will be a friendly inn in every sense, and be so conducted that no needy person will be turned away. The place will be in charge of a superintendent, who has already been selected, and is now engaged in organizing his staff. Everything will be plain, but substantial and comfortable. Wanamaker declines to talk on the project at present, but has already proceeded so far that it is an assured fact, and he will hardly permit it already proceeded so far that it is an assured fact, and he will hardly permit it

Thurston is Said to Have Turned Tail,

He Intimates That There is no Safety Except in the Throning of

The Ex-Minister Fresh from Wash ington Gives Warning to Dole— Col. Ashford and Others Predict Its Downfall.

SAN FRANCISCO, May 16.—An evening paper prints a statement to the effect that private letters received from Honolulu by the steamer Australia declare that a change is advocated by no less an important personage than ex-Minister Thurston.

The information comes from a most reliable source, and cannot be questioned.

According to the letters received here all that is preserving the present government is the fact that it possesses the arms necessary to quell another outbreak, and is exerting itself in its efforts to prevent the landing of contraband arms. It is well known that the government forces numerically are greatly in the minority, and no one has been made to realize this fact more than Minister Thurston.

At a recent conference between ex-Minister Thurston and President Dole and other members of the Cabinet, the former declared that the only hope of permanent peace on the islands will be realized by placing Princess Kalulani in the position in which the former monarchy proposed

peace on the islands will be realized by placing Princess Kalulani in the position in which the former monarchy proposed that the should be some day. Thurston is reported to hat advocated this step so strongly that President Dole and his Cabinet became alarmed and have since given the matter many hours of consid-eration.

"Truly viewed," says an eminent author, "martial law can only change the administration of laws, give them a rapid force and make their penalties certain and effectual; not shoogate what was the justice of the community before. The dvil courts are in part or fully suspended; but in reason the new summary tribunals should govern themselves in their proceedings, as far as circumstances admit, by the established principles of justice, the same which had before been recognized in the courts." (Blahop's Criminal Law, sec. 45.) In view of what has been stated, your course in protesting against the position assumed by the Attorney-General of Hawaii is approved. I am, sir, your obedient servant, (Signed) W. Q. GRESHAM.

The second letter relates to the Bowler case, and is as follows:

DEPARTMENT OF STATE,

WASHINGTON (D. C., April 15, 1885.

To Albert S. Willis, Ecq., Honolulu—Sir: it appears from your No. 83 of February 23 that on the 22d of that month J. F. Bowler was convicted by a military commission sitting at Honolulu for participation or implication in the disturbances or uprising in Hawaii early in January, and sentenced to imprisonment at hard labor for five years and to pay a fine of \$5000; that he now claims protection as an American citizen, and that the Hawaiian Islands and bear true allegiance to the King, without expressly renouncing or giving up his allegiance to the United States. Sec. 453 prescribing this oath (Compiled Laws of Hawaii, 1884), provides that every foreigner so naturalized shall be deemed for all purposes a native of the islands, subject only to their laws and entitled to their protection and no longer amenable to his native country for protection or intervention; that for every such resort he shall be subject to the penaltics and entitled to the protection and not longer amenable to his native country for protection or intervention; that for every such resort to his native country, but naturalization is to place the adopted citizen his proper country, intention before his network of the Passengers on the Australia have confided the fact that the republic is on its last legs. Various big organizations are breaking away from President Dole, and the opposing forces, which were somewhat subdued after the recent uprising by the show of arms made by the government, are now becoming bolder.

"An alarm is likely to be sounded any night," remarked one passenger, "and if it is, you can expect to hear of the downfall of the republic. There is no escape for it. The people are insatisfied, and asciousity the Americans, who, it aroused, will find at their sides all the assistance they need to effect a complete change in the government. Minister Thurston's uncessiness has become so apparent to the opposing forces that the latter have gained more courage. The fact that Mr. Thurston favors a change is no longer a secret, and when we left Honolulu it was common talk that he was then planning to carry out to a successful end the conversion of the republic back to a monarchy." THE NATURALIZATION QUESTION.

THE NATURALIZATION QUESTION.

SAN FRANCISCO, May 16.—Additional advices brought from Honolulu by yesterday's steamer under date of May 8 have an important bearing upon the question of the treatment to be accorded prisoners convicted by court-martial of treason, or misprison of treason and of persons deported for the same oftense, who have appealed to the government of the United States for protection, claiming to be citizens of that country. The most notable were the cases of J. Cranstoun, deported to Vancouver, and J. F. Bowler, sentenced to five years' imprisonment and \$5000 fine. In each of these cases appeals were made to the United States government for protection.

ment for protection.

The action of the Department of State in behalf of the cases has been made known to the friends of the men here, and the formal letters of Secretary Gresham are now published as indicating the attitude which the State Department at Washington has assumed toward the whole question of citizenship of Americans who have become at any time attached to Hawaii, and particularly as showing an essential difference in the showing an essential difference in the view of this subject taken by the govern-ments of the United States and Great Britain, as revealed in the attitude of the latter in the case of Walker and Rickard, alleged to be British subjects. The corre-spondence is made up of two letters, the first, touching the Cranstoun case, being

alleged to be British subjects. The correspondence is made up of two letters, the first, touching the Cranstoun case, being as follows:

DEPARTMENT OF STATE,
WASHINGTON (D. C..) Feb. 25, 1895.
To A. S. Willis, Esq., Honolulu-Sir: I have to acknowledge the receipt of your No. 96 of the 8th inst., in relation to affairs in Hawali, and particularly in relation to the forcible deportation on the 2d inst. of three men, one of whom. J. Cranstoun, slaims to be a citizen of the United States. I inclose herewith copies of certain depositions made by Mr. Cranstoun on the 11th and 17th inst., before Mr. Peterson, the commercial agent of the United States at Vancouver. These depositions leave the question of Mr. Cranstoun's nationality in doubt, and Mr. Peterson has been instructed to obtain further statements from him on that subject. Under these circumstances the department does not instruct you to make any representations to the Hawalian government in regard to Mr. Cranstoun, but it is proper to express to you for your guidance in similar cases, should they arise, the views here entertained in regard to the course of action taken in that case. It appears that, after having been kept in jail nearly a mooth, without any charges having been made against him, he was then taken under heavy guard to the steemer and would, in spite of his request to see you, have been deported without having had an opportunity then to do so had it not been for the accidental but they interposition of the British commissioner. You state that when you asked the Attorney-General for an explanation of the proceedings, he replied that the Cabinet had determined to deport the men in the exercise of the arbitrary power conferred by marrial law. As this was the only explanation the gave, it is assumed it was all he had to offer, and he gave it without suggesting any question as to Mr. Cranstoun's nationality. If the position thus assumed be sound, the very proclamation of martial law in Hawaii renders all foreigners their researches, itable to arrest Americans, liable to arrest and deportation without cause and without reason other than the fact that the executive power wills it. They may be taken from their homes and their business; they may be deprived of their liberty and be banished; they may be denied the ordinary as well as the special treaty rights of residents, without offense or misconduct on their part, simply in the exercise of arbitrary power.

To state such a proposition is, in the opinion of the President, to refute it.

POINTS OF DANGER.

A Financial Army is Proposed.

Second Day of the Silver Convention.

The Delegates Discuss the Ways and Means for a General Awakening.

Congressman Shafroth in Favor of Fighting from the Jump-What Gov. Adams Thinks of It. David B. Hill.

SALT LAKE (Utah,) May 16.—The silver conference met in its second day's session at 9:30 o'clock this morning and immediately went into executive session to consider plans of action. Various suggestions were made, summarized as follows:

The Montana delegates, consisting of Merrill, Sargent and Bickord, were all of

the same opinion as to the plan, agreeing that honest-money leagues should be organized in every precinct, county and State. These leagues should agree to a specific plan of raising money to distribute literature throughout the Middle States. All prominent mining companies should be asked to pay certain assessments per month to aid in the work.

Borah of Idaho agreed in the main with but henceforth would not support his parcy on national issues unless it had both a candidate and platform in favor of silver at 16 to 1. He was afraid of a man who was afraid to declare himself as being ab

Bryan of Idaho wanted the women and children to organize and help, as well as an organization of all silver men within their party lines, and to have them stand ready at the tick of an instrument to swing

affiliations.

Hilp of Nevada was in favor of having four big mass-meetings, to be held in different parts of the United States within the next six months. He stood ready at the opportune time to leave his party (Democratic.) if it failed to do the proper thing in 1896.

Gov. Prince of New Mexico wanted head-

cratic.) If it falled to do the proper thing in 1896.

Gov. Prince of New Mexico wanted head-quarters opened in New York city to distribute propaganda and to hold meedings to be addressed by prominent men, irrespective of party, who should talk exclusively of honest money. He said that Senators Teller and Wolcott and Thomas and Patterson of Colorade represented all parties, and if they could be persuaded to address euch meetings it would be a great help. With the same line followed by each State, prominent orators of all parties would address Eastern audiences on the subject of "honest money" vs. Cleveland's "sound money." In literature he favored "Coin" and Archbishop Walsh's "Monometallism and Bimetallism." Robsnyder of West Virginia was invited to address the conference. He said that the Democracy of the South was not Cleveland Democracy. The South heretofore had faith in their leaders, but having been betrayed by Carlisle and others, the people will be heard from in the convention of 1896.

Chambers of Utah was in favor of de-

(Signed) W. Q. GRESHAM.

POINTS OF DANGER.

SAN FRANCISCO, May 16.—Julius A.
Palmer, who went down to the Hawaiian
Islands to investigate the state of affairs
there as a special correspondent of the
New York Evening Post, three months
ago, has arrived here on the Australia.
He believes that there will soon be a
crisis there and that the end can only be
the restoration of the monarchical form
of government.

He says there never will be harmony
until the monarchy is restored and Princess
Kaiulani placed upon the throne. In
giving his reason for this belief he said:
"There are three main points of danger
to the government. The first is that Socretary Gresham has decided that Bowler is
not an American citizen and that Great
Britain has decided that Rickard and
Walker are British subjects. The greatest
fear of the Hawaiian government is
Japan, and they do not scruple to say so.
They are making arrangements to get in
5000 Chinese coolies and send away as
many Japanese. The government, when
the Japanese coolies came in, gave an unwill be heard from in the convention of 1896.

Chambers of Utah was in favor of devising means and ways to raise money to distribute honest-money literature and hold large meetings in Eastern cities.

Senator Clark of Wyoming was in favor of a campaign of education and agreed with Morrill as to the details. But he favored concentrating the work in the Mississippi Vailey, rather than New York, and with the producers of lows, Illinois and Indiana. He concluded by saying: "If we succeed, like Monte Cristo, the world will be ours."

Congressman Shafroth of Colorado was in favor of fighting from the jump and declared and henceforth each political party should instruct its delegates to the national convention to retire unless they fore silver.

should instruct its designed of the tional convention to retire unless they secure a candidate and plank for silver. The Democrats and Republicans can go their respective conventions loaded for

Stone Chinese coolies and send away as many Japanese. The government, when the Japanese coolies came in, gave an understanding that if Japan would supply them with coolies they would employ them. Now Japan will probably hold that this understanding is being violated.

"The third danger to the government party is in themselves. The democracy or American League is taking umbrage at the new importation of Chinese. The financial condition is also one of the things that will help to bring on a crisis. On May 1 the government advertised publicly that no bills must be paid except in three and six months' credit. The loyalty of the natives to momarchy was never as strong as it is now, and it was the basis of the union of all parties in past years, and there will never be harmony until that momarcy is restored in Princess Kaiulani, and that would make peace at once."

Col. V. V. Ashford of Hawaii expresses. The Democrats and republicans can go to their respective conventions loaded for bear and let the East know they are there for but one purpose.

Gov. Adams of Colorado said that it was easy to win a battle at the conference, but that when in the field the silver men will not find a Chinese army or a Lithung Chang to fight. They will meet the finest-equipped army in the world, with the money power of the world behind it and all inducements in favor of gold. As to literature, he wanted the people to read and understand the Constitution of the United States and the references to money of Jefferson and Hamilton. He wanted a big parade in New York city, with a gigantic labor parade, to march, silently and without furore through the streets, but with two banners, the American fiag and a motto. "We want the money of the Constitution—gold and silver."

Congressman Mondell of Wyoming

syears, and there will are year be harmony that until that monarcy is restored in Princess once."

Col. V. V. Ashford of Hawaii expresses similar views.

"There is a perfect reign of terror in the islands. Informers are everywhere. People do not dare to speak in their own houses. There is everywhere a feeling of uncessainty, doubt and impending danger and fruin. Those who favored annexation have made up their minds that it is impossible. The 'missionaries', as we call most of the political party in power, have claimed to be in favor of annexation, but all size about agreed on that. Thurston has gone beand an impossibility and all size about agreed on the future?

"As to the future? The real annexation that is possible in the foother of the population are incapable of governing themselves. As long as this so-called republic can pay armed men to keep down rebellion, it will last, and no longer. What they are talking of now and want first is some sort of protectorate of the United States.

"They are afraid of Japan and then trey want some protection against any other ingline meriters. Then, or course, which and competing the same and the production of the protection against any other ing themselves. As long as this so-called republic can pay armed men to keep down rebellion, it will last, and no longer. What they are talking of now and want first is some sort of protectorate of the United States.

"They are afraid of Japan and then trey want some protection against any other and the production of the protection against any other ingle themselves. As long as this so-called republic can pay armed men to keep down the sound and the protection against any other ingle themselves. As long as this so-called republic of the protection against any other want some protection against any other want some protection against any other in the production. The following the protection of t

of voters in every State in the Ua-The Western army would raise mon-g carry on the Eastern campaign, at Eastern army would distribute that

to carry on the Eastern campaign, and the Eastern army would distribute that literature.

Young of Washington wanted to create an executive committee with headquarters at Chicago or some other large city, and a finance committee to report to the executive committee. He wanted to get literature at once and distribute to the producing classes.

Col. Winston of Washington favored a matconal non-partisan organization and a precinct silver ticket put out within each party in the several States.

Gen. Jones of Washington wanted the proceedings of the Brussels conference freely distributed, and said that it was queer that the authorities in Washington said the supply was exhausted. He was very sorry that the gold-buse had stolen the synonym of "honest money" and suggested the name, "honest dollars."

Wharton Barker of Philadelphia was invited to make an address, and said that the battle-ground was in the East. Pennsylvania now seems ready to declare for free coinage, but the adjoining States stood sorely in need of the gospel of truth. Dubson Bros., he said, were the largest manufacturers of copper in the world, and were sincere advocates of bimetallies at 16 to 1. He stood ready to bettle for free coinage within the ranks of the Republican party, and in case of failure, would use his influence in favor of it for the party that favored free silver, irrespective of the Manufacturers' Club of Philadephia declared for silver and gold. If the people are once aroused the bettle will soon declared for silver and gold. ple are once aroused the battle

be over.

In the afternoon it was announced that the Committee on Plan of Action and Addresses to the People would not be ready to report until morning.

Laugenour offered the following resolution, which was laid on the table until tomorrow:

Laugenour offered the following resolution, which was laid on the table until tomorrow:

"Resolved, that after the business of this conference be finished we do and by this resolution are constituted an executive committee for the purpose of devising ways and means of electing to the Presidency and Congress of the United States men who are known to be absolutely in favor of free and unlimited coinage of silver, and hereby pledge ourselves to work and vote for no party or candicate who is not pledged to the free and unlimited coinage of silver at the ratio of 16 to 1. Freespective of international agreement."

After a brief session fin the afternoon the conference adjourned to accept an invitation to Saltair, the great bathing resort on Salt Lake. All were delighted with their visit there.

An invitation was received and accepted to send delegates to the convention of Southern and Western States at Memphis on June 12 next. Congratulations were received from Senator Mantle of Monutan and from the Bimetallic League of Los Angeles, Cal.

A meeting for speech-making was held in the tabernacle tonight. At Fort Douglas tomorrow at 11 am., there will be a review of troops in honor of the visiting Governors and ex-Governors.

An audience of fully 6000 assembled in the Tabernacle tonight to hear speeches from members of the conference on the silver question. Addresses were made by Hon. Alya Adams of Colorado. Hon. W. E. Borsh of Idaho, Hon. P. H. Winston of Washington, Hon. H. E. Bartine of Nevada, Hon. George Holdorn of Montans, Shafroth of Colorado, Clunie of Calfornia and Gov. McConnell of Idaho. The applause was tremedous.

A CHALLENGE FOR ALLISON.

A CHALLENGE FOR ALLISON. DES MOINES (Iowa.) May 16.—The Central Bimetallic League of Iowa, of which A. J. Matthia of Des Moines is president A. J. Matthis of Des Moines is president, and J. Watte secretary, has forwarded a letter to Secator Allison, challenging him to come to Des Moines and debate with some advocate of the free coinage of silver at 16 to 1, to be designated by the league. The challenge is qualified by the statement that if Senator Allison believes in such coinage then a debate is unnecessary.

Gen. Weaver left last night for the West, where he will deliver ten speeches for free silver. He will bring back with him Gen. A. J. Warner of Ohio and Joseph S. Sbiley, to attend the big silver meeting here June 5.

A KENTUCKY DECLARATION. OWENSBORO (Ky.,) May 16 .- The Demcoratic convention to nominate a Rail-road Commissioner for the First District, comprising 39 of the 119 counties of the State, today unanimously adopted the Col-lowing:

State, today unanimously
lowing:

"We declare it to be an elementary principle of Democratic faith that both gold
and silver coin shall constitute the primary
money of the country; that both metals
shall be received for mintage without discrimination, and at the legal ratio that existed prior to 1873, and we demand the
unrestricted coinage of both gold and
silver at this legal ratio and that both
metals be declared full legal tender in
payment of all debts, public and private."

This being the strong Democratic sec-This being the strong Democratic section of Kentucky, the action possesses significance as affecting the probable action of the State convention next month. Senator Blackburn was here taking an active part and was earnestly interested in adopting the resolution. Much interest is taken in Secretary Carlisle's compaign here next week against free coinage.

JUDGE CMANUMIATOR INCOME. JUDGE CALDWELL'S FRANK UTTER-

ANCES.

DENVER, May 16.—Hon. Henry C. Caldwell, senior Usited States Sireuit Judge for the Eighth Judicial Circuit, first made district judge by President Grant, and promoted to the circuit judgeship by President Grant, and promoted to the circuit judgeship by President Grant, and promoted to the circuit judgeship by President Grant, and promoted to the circuit judgeship by President Grant, and promoted to the circuit judgeship by President Grant, and promoted to the circuit judgeship by President Grant, and promoted to the circuit judgeship of the cause of the interest and the public, among other things, he speaks freely and frankly upon the silver question. The letter was written without any supposition that any part of it would be given to the public, but the friend to whom it was written, who is an ardent silver man himself, assumes the privilege for the sake of the cause to make public a part of what the judge writes about silver. Judge Caldwell's utterances are bold, clear and unequivocal. The following is from the letter:

"The country is about to enter upon another struggle for the protection of the rights and the promotion of the interests of the laborer and producer, which is, in my judgment, of even more moment than the first. I have been surprised that the issue has been so long delayed. The fight ought to his we been forced years ago on the line of absolute and unqualified free coinage of gold and silver at a ratio of 16 to 1, without regard to the action of England or any other foreign power.

"If we are to be subservient to England in our financial policy, why not in other matters? The financial policy of a nation determines its strength and prosperity, and the nation which consents that another and competing nation shall regulate the financial policy will find its producers impover the which it surrenders the most vital function of government.

"If we are not capable and able to establish and malntain our own financial policy we ought to haul down 'Old Glory which you fought so gallantly to upho DENVER, May 16.-Hon. Henry C. Cald-

President has thrown down the gage of battle. I trust the silver men in all parties and everywhere will take it up. I am happy in the belief that platforms which mean anything or nothing on the silver question will in future go for nothing with the members of all parties. The

people have been deluded and deceived until their eyes are open. There has aprung up among them that hostility to such platforms which the empty and per-dious hypocrisy of set phrases never falls in the end to inspire."

GERMANY HAS SPOKEN.

GERMANY HAS SPOKEN.

BERLIN, May 16.—In spite of the fact that Chancellor Hobenlohe deprecates the matter, the upper house of the Prueslen Diet, by a vote of 72 to 38, adopted Count von Mirabach's resolution in favor of steps being taken for the prompt settlement of the curvency question by an agreement as to international bimetallism.

During the debate the Governor of the Belchetag warmly opposed the motion and informed the Pederal government that they would thereby create dessurer and disturbances. Prince Hobenlohe adhered to his statement in the Reichetag that the government would submit the silver question to further examination in consonance with the Federal government, and was also willing ultimately to meet the other powers and discusse commercial measures to be taken. But, first of all, the bent ers and discuss commercial measures be taken. But, first of all, the bent of the discussion, he insisted, must be definitely settled upon. So soon as the renewed attempts would be made to con-tinue an inhermational exchange of views on the subject. Therefore, he advised the house, if it did not wish to support the affair, to adopt Herr Becker's amendment, which etruck out that part of Count von Mirosch's motion which demanded that Germany take the initiative. Prince Hohenlobe's advice, however,

Prince Honesione's advice, nowever, was ignored, and the amendment was rejected by a vote of 72 to 35, and later Count von Mirosch's motion in favor of steps being taken upon the part of the government for the prompt settlement of the currency question as to an international bimetallism was adopted by the same faures.

A BOOM FOR HILL CHICAGO, May 16.—The Times-Herald claims that the silver men of Illinois are

scheming to form a Presidential ticket of David B. Hill and W. A. H. Hinrichson of Illinois, and that Tammany and Speaker Crisp are in the deal. The will raise a campaign fund of \$3,000,000, it is said. will raise a AN INVITATION FROM MEMPHIS.

MEMPHIS (Tenn.,) May 16.-A tele-gram was sent yesterday by the Central Bimetallic League of Tennessee to the silver convention now in session at Salt Lake inviting that body to appoint dele-gates to the silver convention to be held here June 11. ELKINS LOCATES HIS POSITION

NEW YORK, May 16.—Senator Elkins of West Virginia says that he was frequently misquoted on his Western trips as being in favor of free silver. "I believe in bimetallism and in the use of silver in the farthest possible way consistent with sound money," he said. "I am not for free silver to an extent hurtful to the country. The government has power to limit the use of metals. The Republicans of the East and West must get together on the silver question. I believe the question will settle itself, and when we come to meet next year at the national convention there will not be any antagonism between the East and West."

PLAYING THEIR CARDS. NEW YORK, May 16 .- Senator Elkins

PLAYING THEIR CARDS SPRINGFIELD (IIf.) May 16.—It is re-orted here that Chairman Hinrichson of the Democratic State Committee has a the Democratic State Committee has a letter from Senator Hill of New York, to be read before the State Democratic currency convention next month, which is strongly for free silver. It is said that he intended it as a bid for the support of Illinois in the Democratic national contion of 1896. The rumor also says that Hinrichson has all eye on second place.

HILL DENIES IT. NEW YORK, May 16.—Regarding the statement that Senator David B. Hill had written a letter to be read before the Illipola Democratic State Convention next minth, advocating the free coinage of silver, Senstor Hill said today: "I have not written a letter on the silver question within three years."

HAS HAD NO LETTER. ST. LOUIS, May 16.—A special to the Post-Dispatch from Springfield, Ill., says that Chairman Hinrichson of the Democratic State Contral Committee denies that he received a letter from Senator Hill of New York on the ellver question.

ALLISON'S REPLY. DUBUQUE (lowa,) May 16.—Senator Allison today received a challenge from the Central Bimetallic League to debate the silve: question. Senator Allison tonight replied, saying: "My plans are such that I cannot accept your invitation. I expect to take part in the political campaign this fall and will then be glad to actives the citizens of Des Moines upon the questions involved."

KOREA.

A EUSSIAN PROTECTORATE UN-DER DISCUSSION

Troops Revolt at Shan-Hai-Kwan and Loot the City-Chinese Admiralty Dissolved-Japan and the Powers.

ST. PBTERSBURG, May 16.—Inquiries in various quarters here where information can be obtained elicit the information that the government has come to no decision regarding the occupation of Korea. The Russian press has for some time been advocating a protectorate by Russia over that country or its occupation until Jupan has entirely abandoned Manchuria. CALLED IN QUESTION.

WASHINGTON, May 16.-The reports Russia's purpose in absorbing Korea are not ceriously entertained in diplomatic circles. No such purpose has ever been suggested in the official correspondence thus far. China's assertion of a protectorate over Korea led to the recent war, so that it is not likely Japan would regard a similar claim by Russia with indifference.

indifference.

Another report coming from Frankfort that Ruesia's chaim on Korea was for the purpose of protecting Russian merchants against Japanese competition, is known to be erroneous by those familiar with the facts. A diplomat recently at Seoul, the capital of Korea, easys there is only one Russian, a carpenter, in Korea, outside of the legation.

AGREED WITH THE POWERS.

AGREED WITH THE POWERS.

WASHINGTON, May 16.—The Japanese
Legation has received an official cable,
stating, in substance, that a final and satisfactory agreement has been reuched by
Japan with the European powers on the
Eastern question. It is regarded as closing the entire subject. It is size regarded
as negativing the unofficial statements of
Russian newspapers that Russia would
chain a protectorate over Korea.

REVOLUT OF TROOPS

A REVOLT OF TROOPS. TIEN TSIN, May 16.—The troops sta-tioned at Shan-Hai-Kwan openly revolted this evening and looted the city. The peo

THE CHINESE ADMIRALTY DIS SOLVED.

SOLVED.

LONDON, May 16.—The Brussels correspondent of the Standard telegraphs that by command of the Emperor, the Chinese Admiralty was dissolved March 24, owing to the abject incompetence of its officials and a deficit of over \$50,000,000. There is no prospect that the department will be re-established or that China will buy any more warships abroad.

The President has signed proclamations de-laring the Yankton-Sloux reservation of touth Dakota and the Siletz reservation of tregon open to settlement at noon on May 21, the Yankton reservation embraces about one undred and sixty-eight thousand acres of the best land in the Dakotas. The Silets is

SEAL DESTRUCTION

A Warning is Sounded from Manitoba.

Whalers Are Carrying the War of Animai Life Into the Hudson Bay.

Uncle Sam Hastens His Bevenu Cutters Out to Head Off the Bering Sea Patrol Before Seizures Are Made.

OTTAWA (Ont ..) May . 16 .- Lieut.-Gov Schulze of Manitoba reports to the Inte-rior Department that two whaleships win-tered at Marble Island in Hudson Bay and pursued the same destructive pursued the same destructive most com-plete extinction of animal life in these waters, and he repeats the warning that unless some control'is exercised over the present mode of killing the seals and walrus, they will soon become utterly exter

These foreign seamen not only capture

minated.

These foreign seamen not only capture and kill whale and seals in our waters, but also obtain from the indians fura and other articles in exchange for goods upon which no duty is paid. A great proportion of these goods is of classes which are prohibited by our laws from being introduced among the Indians.

Attention is also called by him to the fact that the American whaling fleet is annually entering the Arctic Ocean from Bering Sea and carrying on the same destructive methods of capture, and the same illegal traffic with the Eskimos. This has been going on to a much increased extent of late, owing to the discovery of un important Arctic harbor on Herschell lalind, about one hundred miles went of one of the mouths of the Mackenzie River, where numbers of these whiling years! peas, the winter

A DIFFICULT UNDERTAKING. PORT TOWNSEND (Wash.,) May 16. The United States government realizes that it will be a difficult undertaking to intercept the revenue cutters now cruising in the North Pacific before they have ing in the North Pacific before they have an opportunity of seizing Canadian scaling-ressels which they may find within the prohibited waters violating the Bering-Sea regulations as they presume them to exist, being ignorant of 'Great Britain's repudlation. Almost a week will relapse before the cutter Grant will receive sufficient repairs for a sea voyage.

The whereabouts of the patrol fleet is unknown, other than the cutter Rush, carrying the commander of the fleet, C. L. Cooker, which is supposed to be cruising along the coast of Alaska toward Unalaska.

The Bear and Corwin had general instructions to take a zigzag cruise northwest

tions to take a zigzag cruise northwest of Cape Flattery and report at Unalaskin July. That the situation is critical in in July. That the situation is critical is evident by the receipt of various dispatches from the department to the commander of the Grant, who is urged to make all possible haste to start out in search of the ficet. It is believed that the government will send a ficet vessel, from Mare lajand immediately on a similar mission.

A wall-subheritation.

Mare lajand immediately on a similar mission.

A well-authent'cated report comes from Victoria that a prominent naval officer of the British warship Pheasant, now supposed to be cruising west along the Alaska coast, previous to his departure made the statement that Great Britain had so modified her orders this year as to practically abrogate the restrictive regulations. This statement was made about April 25 when the relations between the two governments were somewhat, strained over the Nicaragua incident. Officers in communication with the department admit the situation to be critical and are bending every effort to get the Grant ready for sea by next Monday.

UNCLE SAM IN A HURRY.

UNCLE SAM IN A HURRY.

SAN FRANCISCO, May 16.—The United States revenue cutter Commodore Perry hurried out of port last night on an important mission. She will make all haste possible in order to reach Bering Sea in time to prevent the feet of cutters which are now heading for the scaling grounds from seizing any armed vessels, as is the

from selsing any armed vessels, as is the present intention.

Upon the fleetness of the Perry may depend the warding-off of serious complications with England. The latter government has practically decreed that any interference with armed sealing vessels flying the British flag will meet with retaliation in the shape of claims for heavy damages, and the Perry's sudden departure for the North is considered an indication that the administration does not desire to invite any more trouble with the to invite any more trouble with over the sealing question.

DEMANDS ON TURKEY.

Radical Reforms Proposed by the Ar menian Commission.

constantinople, May 16.—(By Atlantic Cable.) The note presented to the Sultan by the representatives of the powers respecting reform in Armenia comprises 250 closely-written quarto pages. Among the measures preliminary to the reforms, the note demands the appointment of a high commissioner; general ammesty for the release of all political prisoners; the revision of certain judg-ments and the appointment of a commission to sit at Constantinople charged with the surveillance and applications of re-forms and general workings in connection with the high commissioner previously re-

with the high commissioner previously referred to.

The principal reforms demanded are that the governors and vice-governors of Yan, Erseroum, Bitlis, Sivas, Jharput and Trebizonde be Christian or Musselman, according to how the population of these places be divided. In any case the governor or the vice-governor is to be a Christian. The note also suggests that such officials should first be approved by the powers.

the powers.
In regard to the finances, all the taxes in regard to the manness, all the taxes are to be collected by tocal and not by State officials, and enough is to be retained before the money is forwarded to Constantinople, to defray the cost of local administration. This is the exact opposite to the present system, by which all taxes are first sent to Constantinople, from which city little money returns to Armenia.

menia.

The judicial reforms proposed by the powers make radical changes in the present system, insure proper trials, the surveillance of prisons and the total abolition of torture. The police are to be composed entirely of Christians, and they are not to be allowed to have arms except during drill.

Admiral Almy Dead. Admiral Almy Dead.
WASHINGTON, May 16.—Rear Admiral
Almy, U.S.N., retired, died this morning
after a severe illness, aged 81 years.
Admiral Almy's funeral will take place
Saturday afternoon from the Church of
the Epiphany, and the interment will be
at the Congressional Cemetery. A detail
of sallors will act as an escort and officers of the army and navy, companions
of the Loyal Legion and the Association of
Forty-niners will attend.

Presbyterian Home Missions. CANONSBRUG (Pa.) May 16.—The United Presbyterian Board of Home Missions is in session with fifty-nine of sixty-three members present. Rev. W. A. Spaulding of Spokane, Wash., is chairman. Dr. W. S. Owens, the general secretary, presented the needs of the board Applications for aid aggregate \$82,800. The board will endeavor to limit the appreciations to \$2.334.

JUSTICE JACKSON'S VOTE.

On it Depended the Fate of the Income-tax Law. lated Press Leased-wire Service

MASSHINGTON, May 16.—There is a remor in circulation that the income-tax law
will be declared unconstitutional when the
decision is rendered next Monday, either
by a vote of 6 to 3 or 7 to 2.

Last Monday, it will be recalled, there
was a rumor circulated that Justice Jackcon had decided on Saturday last to vote
to the second of the last his vote.

was a rumor circulated that Justice Jackcon had decided on Saturday last to vote
for its constitutionality, and that his vote,
with four others in favor of it, would result in a decision by a vote of 5 to 4 in
favor of the law. If the actions of the
Treasury Department officials and those
at the head of the Department of Justice
can be taken as an indication, the probabilities seem to be that they have had
an inkling that the law is to be declared
unconstitutional on Monday. That they
were worried is apparent.
While no one is able to speak authoritatively, the general imprecsion is that the
law will be declared unconstitutional and
stricken from the statute-books. Of course,
the which question hinges upon the vote
of Justice Jackson, and certain parties
close to this Juriet assert positively that
he will decide against the law. They cay
that he bias always been a Federalist, and
that when this legislation was first proposed in Congress, openly expressed his
disapproval of it.

A CONEY ISLAND FIRE.

About One Hundred Buildings Are Burned—Families Homeless.

Associated Press Leased-wire Sernice.
NEW YORK, May 16.—The west end Coney Island was visited by its annual confingration today. The spread of the flames was accelerated by a strong south wind. Courad Steubendorf's three-story wind. Conrad Steubendorf's three-story hotel, where most of the puglists had established their training quarters, was destroyed among the first buildings. From there the spread to a new two-story hotel and half a dozen small buildings adjoining it. They were burned to the ground, as was the miniature Ferris wheel. Altogether about one hundred buildings were destroyed or greatly damaged, and about a thourand people are thrown out of employment. The estimated damage is \$250,000.

\$250,000.

Sixty families who were deprived shelter by the fire have taken refuge the Sea Beach Palace, a large place amusement. A man named Gallagher vovercome by the fierce heat of the fire Assistance was asked for from the fi companies at Gravesend, Unionville and Brooklyn.

ASSASSINS LYNCHED.

THE THREE DUNN BOYS MEET

Friends of "Bitter Creek" and "Dy namite Dick" Avenge the Cold-blooded Killing of the Latter-Searchers Out.

lated Press Leased-wire Service GUTHRIE (Okla..) May 16.—Friends of Newcomb and Plerce, the Territory out-laws who were betrayed by supposed friends and cowardly assassinated near Ingalis two weeks ago, have avenged the death of their comrades. According to the story of a courier who came in from Ingalis, John, Calvin and William Dunn have been kidnaped by a number of the lead outlaws' friends and lynched. At the time of the killing local detec-

At the time of the killing local detectives took upon themselves the glory of the capture of the outlaws, and put in claims for the large rewards that had been offered for their heads. A week ago, however, the Dunns, at whose house near Ingalis the outlaws stopped on the night of the killing, were charged with betraying them into their home under guise of friendship, and after getting them drunk, riddling them with bullets as they slept. They had, it is said, been promised large sums of money by detectives who had claimed the rewards. The friends of Newcomb and Pierce openly swore revenge. The Dunns barricaded their place, secured a supply of arms and ammunition and made their ranch a vertiable arsenal. They laid low until Sunday, says the courier, when some of them were seen about the place, apparently void of fear and believing that the expected raid was a bluff. That night the usual strict vigilance kept by the brothers was relaxed, in further belief that they were free of molestation. The act, it appears, proved fatal, and the three brothers were easily taken by their enemies.

Late Sunday night a body of heavily-armed men drove up to the Dunn cabin. and, forming a cordon around it, called upon the brothers to come out and surrender themselves, the marauders having previously fired a volley into the air to awaken their intended victims.

When the Dunns, John Calvin and William, saw the number of those without they readily realized the uselessness of making a fight and were quickly taken. The women folks tried to dissuade the captors from carrying out their purpose, but were rudely pushed aside. The Dunns were placed upon horses and shire to an and the captors from carrying out their purpose, but were rudely pushed aside. The Dunns were placed upon horses and shire to tives took upon themselves the glory of the capture of the outlaws, and put in

The women folks tried to dissuade the captors from carrying out their purpose, but were rudely pushed aside. The Dunns were placed upon horses, and, being told not to make any outcry, were hastily driven off toward the mountains. Since then nothing has been heard of the band or its captives, and the general opinion is that the Dunns have been lynched, as the feeling against them was most bitter. Searching parties are out looking for the bodies, but as the desperadoes probably took the victims to one of their mountain rendezvous the prospect of tracing them is rendezvous the prospect of tracing them is very small.

"A GIRL WANTED."

C. G. Arnold of Chicago Engaged in a Queer Business. oclated Press Leased-wire Service

CHICAGO, May 16.—C. G. Arnold of this city was arrested last night, charged with using the mails for fraudulent purposes. He has made a practice of inserting mat-numonial advertisements in various papers, representing himself as a woman. Then he would induce his male correspondents to send him money "with which to buy a

The authorities have quite a collection of letters from Arnold's dupes. They are all addressed to either Miss Cara Lechire, Miss Cora Williams or Miss Jennie May Lemont. The only evidence of any money procured by Arnold's epistolatory efforts in a plaintive appeal from M.O. Thomas of Bryantville, Miss., who writes to the inspector that he corresponded with Miss Lamont all of last wincer and engaged himself to marry her. He sent her \$20 to buy a wedding trouseau, and a gold band ring to seal the matrimontal compact. When Thomas's letter was shown to him, Arnold laughed and remarked: "That guy got out a marriage license for us. I sold his gold ring for \$3." letters from Arnold's dupes. They are

riage ficense for us. I sook his gold ring for \$3."

W. C. Miller of Idaho Springs, Idaho, gets dewn to bedrock principles, and, in u short, business-like way, asks the fair claimant her object before he writes any further. James Brown of Martindale, Mont., eays he could tell Clara more in an hour than he could write in a week. He regrets that he is eighty-five miles from a photographer. William Spangler of Defiance, O., sends his name as a correspondent, and cannot help wondering how many other gents are doing the same and what spirit is prompting them to do it.

LONDON, May 16.—At Bow-street Police Court today Jabes Spencer Balfour, the ex-member of Parliament who was re-cently extradited from the Argentine Re-public on various charges connected with the Liberator societies fraud, was form-ally committed for trial

The Defendants Offer no Testimony-Two Others Before the Grand Jury.

British Comment on Stonenell-Ban-quet Wins at Newmarket-Prizes at Santa Cruz for Wheelmen.

Associated Press Leased-wire Service.

CHICAGO, May 16.—Two of the sports
CHICAGO at Hawthorne track last week
had their preliminary hearings today.

Detectives and agents of the Civic Federation described the buildings and booths, the location of blackboards on which the odds on horses are posted and other features of Hawthorne. The defendants did not of-fer any testimony, and Judge Ewing held the two men to the grand jury, fixing their bonds at \$500. Martin A. Hughes and D. M. Hogan

waived examination and were held to the grand jury. Ed Corrigan and John Bren-ack will be tried tomorrow.

RACING STOPPED AT HARLEM. CHICAGO, May 16.—Racing at Harles was declared of for the day, and it is was declared off for the day, and it is probable that there will be no more races there for some time. A Harlem official explained that they did not care to risk legal entanglements. They would probably await the outcome of the Civic Federation's prosecution of Hawthorne bookmakers and officials.

The Harlem officers this afternoon sent out statements which created a sensation in sporting circles. The statement declared that the present crusade against Hawthorne and Harlem is instigated and backed by the trotting-horse interest, and

Hawthorne and Harlem is instigated and backed by the trotting-horse interest, and that the Civic Federation has been buncoed into the scheme. It is probable that the track will be closed for the season, as the officials declare that they will abandon the property before they will give any aid to the alleged trotting combine.

STONENELL'S DEFEAT. The London Sporting Life Make

, Game of the American. tssociated Press Leased-wire Service.

LONDON, May 16.—(By Atlantic Cable.

The London papers devote considerable space to comments on the defeat of Stonenell.

The Sportsman says: "It is probabl The Sportsman says: "It is probable that Stonenell was not really wound up. He is a rare sort to look at. Capt. Machell and Mochmont looking him over in the paddock decided that he must be a great animal. It is claimed that he will join Barrett's string. Don Alonzo is reported broken down and Harry Reed has gone wrong."

Sporting Life says of the race: "When

Sporting Life says of the race: "When fairly in the dip the pinch came. It was both instructive and ansusing to see, when pitted in a finish against such a master of the art as McAnnon how bunched up and helpless to assist his mount the darky was, except by needless punishment with the whip. Those who have gone into raptures over the darky boy's style must admit the superiority of the time-honored mode. The race was unlucky in another sense. Dwyer lost his horse, which was claimed by Mr. Hædless, the claim surely being worth £1000. It will be instructive to see how he fares under English training."

A DAMPER ON THEIR CROWING. A DAMPER ON THEIR CROWING.

NEWMARKET, May 16.—A damper was placed today on the crowing of the English sporting fraternity over the defeats of the American horses, especially the defeat of Stonenell yesterday in the selling plate, when M. F. Dwyer's horses finished sixth with Sims up, and was bought in by Thoodles, owner of Crawley, the second horse, for 940 guineas.

Dwyer's Banquet won the selling plate today and was bought in thy Dwyer for 1585 sovereigns. Drego was second and Courante third. Ten horses started. Banquet and Drego carried 126 pounds, and Courante, 110. Betting was 5 to 4 against Banquet.

Under the conditions of the race today the sum of 1285 sovereigns, the balance above the selling price, 300 sovereigns, which Banquet realized, was divided bewhich Banquet realized, was divided between the owner of Drego and the race fund. Skill cut out the work from Belhomme and Courante. Monkey Boat lying next to Advanced, Drego and Banquet. They ran thus to the distance, where Drego came to the front, but was immediately collared by Banquet, who won by half a length. Three lengths esparated the second and third horses.

Brydges Williams's Becky Sharp had a walkover today in the Dyke plate of 3000 sovereigns for two-year-olds. All of Croker's horses were scratched.

The Globe this afternoon revives the rumors of differences between Mike F. Dwyer and Richard Croker, whose horser

Dwyer and Richard Croker, who for the past few days have been exercised in different parts of Newmarket. Their colored jockey, Sims, divided the atten-tion between the two American horse-

owners.

Don Alonzo, Stonenell and Banquet were scratched from the flying handleap plate of 300 sovereigns, added to a sweepstakes of 200 sovereigns each for three-year-olds and upwards.

BAY DISTRICT. Favorites Take Three Out of the Five Races.

Associated Press Leased-wire Service.
SAN FRANCISCO, May 16.—Three out of five was the record against the bookmakers today. The first, second and last races went to the favorites. Miss Buckley won at the nice odds of 10 to 1, and was fairly

rell-played.
Half a mile, maiden two-yeer-olds: Lecn.
won, Irene E. second, Spry Lark third; time 0:50.
One mile, selling: Arnette won, Del Norte second, Hy-Dy third; time 1:41%.
Five and a half furlyngs: Morven won, Sr Richard second, Empress of Norfolk third; time 1:08.
Six and a half furlongs, selling: Miss Buckley won. Rear Guard secend, Grand Lady third; time 1:21.
One mile, steeple-hase: Lonnie B. won, Margan G. second. War third; time 1:54.

One mile, steeple hase: Lonnie B. wor Morgan G. second, Wag third; time 1:54.

SPANIARDS OVERCOME A SU four Hundred Men Make Stand Against Two Thousand

Troops Under Gomez and

the Two Maccos.

and Press Loused-wire Service HAVANA, May 16 .- (By South Ameri can Cable.) A special dispatch received here today says that on Monday last there was severe fighting in the neighborhood of Jobito near Guanatanamo. The engage-ment lasted from 5 o'clock in the morning until 5 o'clock in the evening and resulte in a brilliant victory for the Spanish froops. A detachment of 400 soldiers at-tacked and fought bravely against 2000 insurgents led by Gomez, the two Maceos Rabi and Cartagena. The lieutenant-co onel who led the Spanish force ordered h

soldiers to open fire as the rebels ad-vanced and fell furiously upon the troops. Eventually the enemy surrounded the force. Maj. Robles, upon whom the com-mand of the Spanish troops devolved when the lieutenant-colonel was shot down, succeeded in holding his position and repelled the attacks of the rebels, but

down, succeeded in holding his position and repelled the attacks of the rebels, but the Spaniards were completely surrounded and it was necessary for a portion of the force to cut its way out in order to communicate with the base of supplies and obtain reinforcements.

Maj. Garrido, at the head of ninety volunteers, made a brilliant dash into the insurgent lines and forced his way through circles of fire which surrounded the troops. Shortly after Maj. Garrido's volunteers had pierced the insurgent lines, another detachment of Spanish troops, under command of Capt. Bruzon, made an opportune fiank attack upon the rebels. The latter were taken by surprise and were throwninto confusion. Two bodies of troops then united and made a combined attack upon the rebels, who were compelled to retire with the locs of 300 deed and wounded.

Maj. Robles has gained the cross of San Fernando for the brilliant manner in which he held his position against overwhelming numbers. The loss on the Spanish side was one doctor, four officers and eleven soldiers killed and thirty wounded.

THE NEWS FROM MADRID. MADRID, May 16.—The Spanish forces, a dispatch from Havana announces today, have defeated the combined insurgence forces under Maceo near Guanatanamo. The insurgents lost forty killed and many wounded. On the Spanish side Lieut Bosch was killed and several soldiers were

INDIANS SCANDALIZED.

Over Half of the Pupils Withdrawn from the Pawhusk Schools.

Issociated Press Leased-wire Service.

GUTHRIE (Okla.,) May 16.—A scandal has come to light in connection with the government schools for Osage Indians at Pawhuska. Great laxity of discipline in the dormitories for the boys and girls in alleged and the Indians are very indignant declaring that their children are demoral-ized by the whites, no such bad morali being known among Osage girls living in wigwams. This week 160 of the 250 children in the school have been taken out by their parents.

The report of Superintendent of Immigration. Burgess has been laid before the Canadian Parliament. It shows the total immigration to Canada last year to have been 27,911, as against 63,447 in 1803. Of these 880 came from the United States, as against 518 in 1803. About one-third of the latter are Canadians who-had settled in the Western States. The report states that the number of arrivals from the United States would have been much larger, but for the fact that many were unable to dispose of their property.

A BIG LAND SWINDLE

Walter M. Cowell Arrested for Fraud.

He Dealt in Texas Property and Bo gus Titles, to His Personal Satisfaction.

Col. Stough of Chicago is Taken in on a Fifteen Thousand Dollar Deal—Other Victims Are Also Found.

Associated Press Laused-wire Service.

CHICAGO, May 16.—The arrest of Walter Marshail Cowell of Kemosha in the Texas awindling case, was the result of an investigation begun by Gov. Culberson of Texas, his land commissioner, Andrew J. Baker, and Gov. Altgeld of Illinois. So of names, and took. Altged of Himosa. So far as known to the authorities here there are now six victims of the swindle whose aggregate losses are nearly \$50,000. From reports received from the Texas Land Commissioner it is believed that these are but the beginning of the losses, as he says that there have been individual cases where sums as high as \$10,000 have been

involved. About the middle of April William Priggs of Green street, Chicago, was in

About the middle of April William Briggs of Green street, Chicago, was in the Washington-street real estate office of Jackson Taylor. They were discussing a real estate, deal whereby Briggs had traded property in Chicago for land in Texas. Taylor said that his client had more of the land, and desired to obtain more Chicago property. The next day Briggs introduced Col. Stough of Halstead street. As a result of the introduction, Col. Stough traded property at No. 6013 Elliott street, for Texas property. The amount involved was 15,000.

Briggs received an abstract and a warramty deed. The name in the deed was "Thomas M. Bell" of Denver, Colo. The papers were certified to by Attorney Cowell of Kénochs, Wis., who claimed to have power of attorney from Bell, and Cowell's seal as a notary public was affixed. Col. Stough wished to inform himself regarding the taxes on his newly-acquired property, and wrote to the authorities of the county where the land was located, Pecos, Previde and Tom Green counties. In reply he Rarned not only had he no title to the property, but that Thomas M. Bell never had a title to it.

Col. Stough applied to Gov. Culberson

Col. Stough applied to Gov. Culberson of Texas. The Governor placed the matter in the hands of Land Commissioner Baker for investigation. Baker looked up the records and found on file hundreds of ser in the hands of Land Commissioner Baker for investigation. Baker looked up the records and found on file hundreds of letters complaining of the swindle that Stough had discovered. He wrote Gov. Culberson a long letter in which he explained that the land traded purported to be in the counties named by virtue of survey certificates issued to the Gulf. Colorado and Santa Fe Railroad Company, and was mythical. The town where the alleged lands were located was not on the map, he said, and James Slater, the patentee, as well as James Ruffner of Austin, whose name as notary public had been affixed to some of the substracts of conveyance, were mythical persons. Commissioner Baker located the headquarters of the swindlers in Chicago, but the victims, he said, came-from every State in the Union. Gov. Culberson forwarded Baker's letter to Gov. Altgeld, and the latter, after personal investigation, forwarded it with a number of names of victims to Chief of Police Badenoch of Chicago. All the papers were given to Detectives Elliott and Alexander to make a thorough investigation. Meanwhile Stough had seen Briggs, who introduced him to Jackson Taylor through whom the transfer was made of his property. Friggs had made a second deal and acquired, as he thought, more Texas property. "Have you looked up the title?" asked Stough. Briggs replied that he had been swindled twice, and that he was out of property in Chicago, Kansas City and Lagrange, Wyo, \$15,000. Jackson Taylor was found, and he paved the way for the arrest of Cowell, who the police say is the mythical Thomas M. Bell of Denver.

An inquiry for further Chicago victims, who it is believed exist in hundreds, will

An inquiry for further Chicago victims who it is believed exist in hundreds, wil believed exist in hundreds, will need until the time for Cowell's

who it is believed exist in hundreds, with be prosecuted until the time for Cowell's second arrangement.
"Topeks, Kan.," said Detective Alexan-der, "will furnish a \$15,000 victim, and a man in West Washington street, Chkeag, will swell the aggregate at least \$10,000

more."

In connection with the land swindles, it is believed that Cowell had to do with but a small portion of them. The police assert that the big swindlers live and maintain richly-furnished offices in Chicago, and while the Cowell continuance is pending, an effort will be made to locate them.

pending, an emort will be made to locate them.

"Jackson Taylor is entirely innocent of any violation of law for the part he had in the transaction by which Stough and Briggs were swindled," said Detective Alexander. "He was taken in by Cowell with his references and official documents the same as were Stough and Briggs, and anyearal attorneys to whom I submitted the several attorneys to whom I submitted the ubstracts and deed of title furnished by Cowell. As soon as he learned that fraud had been committed he was fore most in assisting us to discover the man whom we were searching."

EVANS'S DISCLAIMER.

outh Carolina's Governor Says Ther is no Treason in Her.

secolated Press Leased-wire Service.

NEW YORK, May 16.—The World has

received the following from Gov. Evans of South Carolina: "There is no treason in South Carolina. We are in the Union and in to stay. We We are in the Union and in to stay. We claim the right as a sovereign State to protest against any effort by the judges of the United States Court to centralize this government and destroy our national and State constitutions. We will obey the decrees of the court, but will exercise every right guaranteed American citizens for the preservation of our liberties. The principle we are fighting for, the right of local self-government, is as dear to New York as it is to South Carolina, and cannot be destroyed in the Union. The attempt to rullify our laws for political purposes under the pretense of conflicts with the Constitution of the United States arouses the righteous indignation of our entire people. citution of the United States arouses the righteous indignation of our entire people. We confidently rely upon the Supreme Court, and will abide by its decision. We redeemed our State from negro domination and anarchy in 1876 in spite of Grant's bayonets, restoring order, peace and prosperity, and will preserve our civilization by lawful emthods if allowed, but we will persevere. (Signed) "JOHN GARY EVANS,

Ate a Human Sausage.

Ate a Human Sausage.

ANN ARBOR (Mich.) May 16.—Norman Camerin, a student in the law class of '95 in the university, and correspondent for the Detroit News, was expelled from the university tonight for sending to his paper a report about a medical student eating a human saurage. The faculty admitted the truth of the story, but, by a vote of 3 to 1, expelled the correspondent on the ground that the publication of it was indecent and damaging to the university.

Colombia and Mosquitoes

Colombia and Mosquitoes.

COLON (Colombia,) May 16.—The republic of Colombia is preparing to set forth its claim to the Mosquito territory of Nicaragua, over which Great Britain recently relinquished her protectorate. It is asserted that the claims of Colombia antested those of Great Britain. Gen. Renjifo leaves for New York today. It is believed he is going to Washington to present the claims of Colombia.

CATHOLIC KNIGHTS.

CATHOLIC ENIGHTS.

A Red-hot Fight on Consolidation
Temporarily Averted.

Associated Frees Leased-wire Service.

OMAHA (Neb.,) May 16.—At the foremon session of the supreme council of the Catholic Knights of America Delegate Fleney of New York sprang a surprise in the form of a resolution inviting members of the Young Men's Institute to join the Catholic Knights. This was followed by a resolution of Delegate O'Keefe of New Mexico asking the Young Men's Institute and Kindred Catholic societies to make a formal proposition to be merged into the Catholic Knights of America. A reached fight was averted by referring the resolutions to the Committee on Laws. This is another feature of the fight for the amalgamation of all Catholic societies.

Fiency of New York offered a resolution inviting the Atlantic jurisdiction of the Young Men's Institute, especially those who have embraced insurance features, to affiliate with the Knights, the invitation being extended because of the expressed belief of Grand Master Rives that a combination of the Young Men's Institute with the Catholic Knights of America would be mutually advantageous. It is said upon good authority that the question of admitting women to membership will be revived tomorrow.

SYLVIA THORNE

NEW YORK, May 16.—Sylvia Thorne, late prima donna of the "Passing Show" company, and well known in theatrical circles, bas sued for a divorce from her husband, Ben Tuthill, manager of Eddie Foy's "Off the Earth" company.

The specific acts complained of happened during the week of January 20 last, when Eddie Foy's company, was playing at the Eddie Foy's company, was playing at the

during the week of January 20 last, when Eddie Foy's company was playing at the Harlem Operahouse. Tuthill then lived at the Colonial Hotel at One Hundred and Twenty-fifth street and Eighth avenue with a woman whose name is unknown, but who was not his wife. James Walton, night clerk, and Frank Albert, a hallooy in the hotel, swore that Tuthill came there at the time mentioned with a woman whom he registered as his wife, and that they occupied a parior and bedroom during the week. They swore that Sylvia Thorne was not the woman with Tuthill.

PRESBYTERIANS.

GENERAL ASSEMBLY MEETS AT PITTSBURGH.

Booth of New York Elected Moderator—The Question of the Control of Theological Seminaries.

Issociated Press Leased-wire Service.
PHTTSBURGH (Pa.,) May 16.—An unique feature of the sessions of the General As-sembly of the two leading branches of the Presbyterian church, is that both bodies will discuss the question of the con-trol of theological seminaries conducted under their auspices, and that the trustees of the respective seminaries are reluctant to surrender control as desired by the su-

to surrender control as desired by the supreme bodies. The United Presbyterian church has but two theological seminaries. The are located at Allegheny, and at Xenia. O. The Allegheny seminary directory has declined to surrender the property of the institution to the General Assembly; the directory of the Kenia institution has mot been heard from admittely, but it was stated last night that it is divided on the question.

The seminary question will be the most important matter before the United Presbyterian Assembly, which convenes here on the 22d. Commissioners from the West are raising the issue of exciting importance. They say the home and foreign hoards are "honeycombed with Briggstum" and that therefore the people will not contribute. Some are in warpaint and are even gunning for secretaries and may demand a reconstruction of the boards. Should an issue be reached the seminary control question would be put in the background.

Should an issue be reached the seminary control question would be put in the background.

The subject may come up in the convention with the reports of the standing committees on the home and foreign boards. The first business ression of the Presbyterian General Assembly opened at 6 o'clock this afternoon with the Committee on Commissioners' report on the roll.

Following this there was the call for nominations for moderator. Gen. James A. Beaver. ex-Governor of Pennsylvania, nominated Dr. Robert Russell Booth of New York. The nomination was greeted with cheers. Rev. Andrew C. Zenor of Chicago seconded the nomination on behalf of the Western contingent. The Western commissioners were determined not to let the office of moderator go without a fight, and Dr. Samuel S. Cryer of Albert Lea, Minn. nominated Gen. Robert N. Adams of Minneapolis. He was followed by Dr. Clarence W. Backue of Kansas City, who nominated Dr. William M. Page of Leavenworth, Kan.

Dr. Willam M. Page of Leavenworth, Kani.

Nominations were then closed, and Dr. Isaac N. Fry of Cincinnati and H. T. Nash of St. Louis were appointed tellers. The first ballot resulted as follows: Booth, 300; Pare, 165; Adams, S3. On motion the election of Dr. Booth was made unanimous, and the new moderator was called to the platform and made a pleasing address.

Dr. W. L. McEwan presented the new moderator a handsome gavel made from olivewood from Jerusalem, and sent to the assembly by the Rev. E. S. Wallace, a Presbyterian minister and United States Consul at Jerusalem.

The following assistant clerks were then appointed, after which the assembly adjourned until morning: Rev. Greenough of Philadelphia, John Ewalt of Columbus, Rev. W. P. Craig of Los Angeles, Rev. Charles J. Deacon of Cedar Rapids, Iowa. This evening the Lord's supper was celebrated at the Third church.

A Medal for Gen. Harrison. A Medal for Gen. Harrison.

NEWARK (N. J..) May 16.—Many prominent citizens of the State were attracted here today to the celebration of the fittest anniversary of the New Jersey Historical Society. Ex-President Benjamin Harrison was the chief guest. He will be presented with a gold medal struck by the society to commemorate the formation of the constitutional government of the United States and the inauguration of Gen. Washington as first President on April 30, 1789. The medal is inscribed: "Presented by the New Jensey Hictorical Society to Benjamin Harrison, centennial President of the United States in 1889."

A Lynching in Kentucky.

LOUISVILLE (Ky...) May 16.—A special to the Times from Marion, Ky.. says that John Howerton (white) was lynched there about 1 o'clock this morning. On April 25 Howerton assaukted Anna Pierce, the sixteen-year-old daughter of a prominent farmer, who now lies in a critical condition. He was captured yesterday; a mohe was formed, the failer was made to give up the keys, and the prisoner was selzed. He was taken to a slaughter-house near Marion, a rope was placed around his neck, and he was pulled from the ground to a crossbeam. A Lynching in Kentucky.

Archbishop Williams's Jubilee. Archbishop Williams's Jubilee.

BOSTON, May 16.—The observance of the golden jubilee of the ordination to the priesthood of Archbishop John J. Williams began at the cathedral of the Holy Crosstoday with the celebration of pontifical high mass of thanksgiving. The sermon of the day was preached by Rev. D. M. Bradley, bishop of Manchester, N. H. Among those present were Mgr. Satolli, Cardinal Gibbons and Archbishops Fabre of Montreal, Corrigan of New York, Ireland of St. Paul, Elder of Cincinnati, Riordelphia.

RUNNING THEIR LINES.

The San Joaquin Valley People Take Energetic Action.

Energetic Action.

associated Press Leased-wire Service.

SAN FRANCISCO, May 16.—The San Francisco and San Joaquin Valley Railway directors took action today indicating that the work of construction is to be pushed. They ordered a call issued for the payment of a second installment of 10 per cent. on the capital stoick, and authorized the Survey Committee to proceed with such surveys as it might deem best. The second 10 per cent. installment will add \$246,800 to the treasury and enable work to be continued during the summer months.

Two or more parties of surveyors will be sent out in the valley as soon as they can be organized, which will be in a week or ten days at the farthest. Where they will run their lines will be determined by the Survey Committee, which will meet for that purpose this week. It is almost certain that one party will work south from the Stanislaus River towards Fresno, and one or two others will start out from the stanislaus River towards Fresno, and one or two others will start out from the stanislaus River towards Fresno, and one or two others will start out from the stanislaus River towards Eskersfield. It is possible that both the Visalia and the Hanford routes will be surveyed to a common joint of junction, and one or both be subsequently utilized as the exigences of the case may determine.

LEGAL POINTS.

County Funds Cannot Go in as Or dinary Bank Deposits.

sted Press Leased-wire Service SACRAMENTO, May 16.—At a meeting of the State Board of Examiners tonight

of the State Board of Examiners tonight
Atty.-Gen. Fitzgerald gave an opinion as
to the right of county treasurers to deposit county funds in banks. He said
they had no right to do so and receive ordinary certificates of deposit. Only special deposits would be legal.

He said the attorneys for Oakland and
those for the railroad company had asked
him to join in a petition to the United
States Supreme Court for a rehearing of
the water-front case but he had declined
because the case involved the ownership
of only a portion of the property. If
otherwise he would join in the request.
Atty.-Gen. Fitzgerald said he would oppose any motion by the railroad company
to have the costs of the suit taxed to the
plaintiff, Oakland, and might go to Washington for that purpose.

Yosemite matters, Labor Bureau and
other things were talked over at the
meeting.

Forest Fires in Washington.

TACOMA (Wesh.) May 16.—Large forest fires are raging along both sides of the Northern Pacific tracks, from South Prairie to the summit of the Cascade Mountains, a distance of fifty-five miles. At Lester, seventy miles east of here, the postoffice building and two small residences were burned, with all their contents, yesterday. The railroad employees saved the company's property by using locomotives and throwing water over the buildings.

There were a number of loaded trains

buildings.

There were a number of loaded trains on sidetracks there. The fire caught from burning logs, and is still raging about the town. The railroads, bridge and section crews are all fighting the flames, Superintendent McCabe reports that fires were put out in the snowsheds several times today. They had caught from falling burning trees. A high wind would cause great damage, but rain is looked for.

Not a Cheap Labor Concern.

Not a Cheap Labor Concern.

SAN FRANCISCO, May 16.—The trustees of the Co-operative Commonwealth assert that the report circulated to the effect that the association was willing to furnish fabor for the San Joaquin Valley Railroad for \$1.25 a day places them in unfavorable light. They say that their association is not an enemy of fabor, that its members do not and will not work for less than standard wages, and that one of its objects is to uplift down-trodden labor and place it on a higher plane, so as to secure permanent relief that the laborers may secure more of the necessaries of life.

A Kings River Overflow.

A Kings River Overflow.

FRESNO, May 16.—It is reported Kings River overflowed its banks on the Laguna de Tache Ranch, twenty-five miles southwest of here, and that about one hundred and ten acres of fine grain was destroyed. No further damage is yet reported. The weather is still warm, and the waters will probably be higher. Late word from Hanford is to the effect that the break in Kings River levee has been mended and no further damage is now anticipated. The break occurred at Kingston at the head of the James Canal.

Boogar's Slayer in Court.

Boogar's Slayer in Court.

OAKLAND, May 16.—Michael Collins was placed on trial today for the murder of his son-in-law, Philip Boogar, the capitalist, on April S. The defendant, who is over 60 year old, was attended in court by his daughter, who was the wife of Boogar. It was because of the animosity engendered by a divorce suit between Boogar and his wife that the murder was committed. The questions asked the talesmen by George A. Knight indicate that Collins will plead insanity and self-defense.

The Stars and Stripes.

The Stars and Stripes.

SAN FRANCISCO, May 16.—The committee of one hundred appointed by the Finance Committee of the Board of Supervisors to arrange for the Fourth of July celebration held a meeting tonight. Edward H. Foster was chosen grand marshal and a resolution was adopted declaring it to be the sense of the committee that no flag except the Stars and Stripes should be permitted to be carried in the procession on July 4.

The San Joaquin Rampant.

The San Joaquin Rampant.

STOCKTON, May 16.—This forenoon the levee broke near Paradise Cut and the water of the San Joaquin River is running over the country from the banks to Moore's Landing, a distance of forty miles. One-fourth of the inundated land is in wheat and the rest is grazing land. The San Joaquin River is higher than it ever was before, the last few warm days melting a great volume of snow in the mountains. President Jordan on Altruism.

OAKLIAND, May 16.—President Jordan of Stanford University lectured in the Unitarian Church on "Altrufsm and Altruria" this evening. He pointed out how far altruism would benefit the world, but gave utterance to the opinion that attempts to establish "altrurias" will fail and leave matters worse than they are at present.

An Oakland School Scandal. OAKLAND, May 16.—Mayor Davie has placed an expert to work on the books of J.

W. McClymonds, City Superintendent of Schools. It is alleged that the research made thus far shows carelessness if not fraud in the purchase of supplies. The teachers are also said to have been paid \$3000 in excess of their salaries.

A Case for the Police SAN FRANCISCO, May 16.—Mrs. Mary Victor became a mother on February 21. She acted peculiarly after her recovery and left the house on an errand March 1, but has not been seen since by her husband or parents. The case was reported to officers who are searching for a trace of the missing woman.

A Mysterious Case.

A Mysterious Case.

SAN FRANCISCO, May 16.—At the coroner's inquest in the case of James Waldle, who died in his flat from gas asphyxiation. his brother-in-law, Edwin Lee, intimated that his death was not suicide, as supposed, nor accidental. He declined to answer further questions until he had consulted Waldle's relatives. The inquest was postponed.

An Unfortunate Trip.

An Unfortunate Trip.

SAN FRANCISCO, May 16.—The Pritish ship Speke arrived today from Antwerp, 365 days out, after a remarkable and unfortunate trip. During the voyage four hurricanes were encountered, carrying away the ship's steering-gear and driving her out of her course, a boy and a reaman fell from aloft and were killed and the first mate swept overboard.

Berkeley's Tuition.

BERKELEY, May 16.—The regents of the State University are considering the advisability of charging students an an-nual tuition fee of \$50. It is estimated that the expenses of the next school year will exceed the income of \$17,000, and some method of obtaining more revenue be-comes imperative.

SAIN FRANCISCO, May 16.—The Ancient Order of Foresters elected the following officers: High chief ranger, William Cashman; sub-high chief ranger, M. Broehm. Los Angeles was selected as the place for holding the next convention.

Burned by Incendiaries.

VALLEJO, May 16.—The Frisbie House was burned by incendiaries late last night. Four previous attempts to burn the structure were unsuccessful. John M. Gamble recently became the owner through foreclosure of a mortgage. Not of Strong Mind.

OAKLIAND, May .16.—Mess Clara D. Mahle, 24 years of age, has been committed to the Napa Asylum for the Insane. Her disordered mind, as her brother testified, is the result of faithlessness of a man to whom she had been engaged. Ex-Gov. Burnett. SAN FRANCISCO, May 16 .- Ex-Governor Burnett's condition remains unchanged. He is very low and the physicians say that his death may be expected at any

DR. KERSHNER.

Indications Going to Show That He

Has Been Found Guilty.

Associated Press Leased-wire Service.

BROOKLYN (N. Y.,) May 16.—The navy sion of two hours, the Judge Advocate was requested to read the records of a court-martial held in 1863, when Dr. Kershner was convicted of writing a letter to the Baltimore American reflecting on the action of Rear-Admiral Dupont at the siege of Charleston. He was ordered to be diemissed from the navy, but Secretary of the Navy Gideon Welles refusitated him, and cautioned him not to repeat the offense.

The fact that this record was called for shows that the present court-martial has found Dr. Kershner guilty, but whether guilty of all the charges or guilty in a lesser degree than charged, will not be made known until the report of the action of the court-martial is known at Washington.

NICARAGUA PAYS.

She Turns Over the "Smart-money Ahead of Time.

LONDON, May 16 .- (By Atlantic Cable.)

get prunes that the service as much and will net you twice as much and will net you twice as much per tree.

In regard to cultivation. If one desires to have his orchard so clean that not a weed can be seen in it at any time during the year, he must use fertilizers, or else it will run out. The leaves from the trees mixing with the soil is not enough to keep it up to the original productiveness, with the heavy drain that is put upon it by bearing heavy crops of fruit on the trees on its surface. Every farmer knows that raising the same kind of grain on the land year after year in succession, without using fertilizers will wear out the best land in existence, so that it will not produce half a crop. Just so with fruit trees: You either have to use fertilizers or allow vegetation to grow rank and then turn over with the plow. Each kind of fruit tree takes such properties out of the soil that it needs to produce its kind of fruit, and hence drains the soil of those properties. The Almighty, in His wisdom, has made the grasses and, what we consider great pests, the weeds, which force us to cultivate and which, when turned under by the plow, enrich the soil so that it can produce its abundance.

Each kind of fruit has to be thinned differently. The peach should be thinned four inches apart and before the pit begins to harden. The fruit of the apricot tree should be three inches apart. Apples two in a bunch, and so forth.

ARIZONA NEWS.

Nothing Alarming in the "Indian Outbreak."

Sensational Incest Affair at Phoenix Important Ruling by Judge Baker in Water Cases.

The Session of Supreme Court Set for Next Week Postponed till July. Murderer Caught After Eight Years at Large.

PHOENIX, May 15.—(Special Correspondence.) The Supreme Court session set for next Monday here has been adjourned till July, when it will be held at Prescott. The change is made because the various judges are holding sessions of District Court, which cannot be well

delayed.

E. H. Davis, representing the refrigerator-oar department of the Santa Fe system, will reach Phoenix tonight. He will
be prepared to make contracts with our
fruit-shippers for transporting valley fruits
to the Eastern markets quickly and in

be prepared to make confracts with our fruit-shippers for transporting valley fruits to the Eastern markets quickly and in good shape.

From the southeastern part of the Territory come reports of the Indians being out, and rumors of the possibilities of massacres. The Indians have done no killing to date, so far as can be learned, nor have they attacked anybody. They are out, however, if a stockman's word may be taken for it, and have killed some cattle. That is probably the extent of this raid, and all it will be. However, that is too much for comfort. The "Kid" is said to be at the head of the foray, though it is more likely a mere party out for something to eat. The government is responsible for this wretched state of affairs, due to its pennywise policy of abandoning posts and reducing garrisons on the frontier, and concentrating them at the larger garrisons to fight strikers. Because, with the soldiers at the Arosina posts, the Indians stayed on the reservation to the security of the settlers and miners in the remote localities, this desirable state of affairs was believed to be perpetual. The good behavior was, however, due only to fear of the soldiery. One by one the posts more remote from the reservations were abandoned. McDowell, Verde, Lowell and others went first. The Indians gave no trouble, so further abandonments were Bowle, Thomas and a reduction of the force at San Carlos, on the reservation, to a single company from Grant. Had nothing resulted, probably in a year or two Huachua, Grant and Whipple would have followed. This was not, however, the worst feature of the government's Arizona policy. Stinginess has been the keynote of it, and they cut down the Indian rations. Now the Apaches are not deserving of any rations at all, and have plenty of resources at the reservation to work out their own support, but they won't do it. And rather than work, they will steal and raid. The rations were cut down to two days a week, and they are said to actually suffer for food. As the soldiers have been taken a

B. A. Hadsell, a leading Dunkard of the neighboring valley town of Glendale, is in jall here, charged with incest with his nices, Harrist Hadsell. He was indicted by the grand jury the 13th, and yesterday arraigned. The young woman was his housekeeper since 1833 till December last, caring for Hadsell's motherless children. Last December he again married, and the young woman went to her own home. The relations in question are claimed to have occurred while the nicee was living with Hadsell, extending over a year. Much gos-Hadsell, extending over a year. Much gos-sip has been indulged in over the matter

sip has been indulged in over the matter, and the developments were the indictment of Hadsell, the charges being made by W. A. Hadsell, brother of the accused. The defendant claims that his brother brought the charges in order to get him out of the country and to get his property. Yesterday the accused was arraigned and hearing was postponed till afternoon to give his attorney time to file a demurrer. The demurrer was overruled. A plea of not guilty was entered, and Hadsell will be tried the 17th.

AN IMPORTANT WATTER DECISION.

Ahead of Time.

Abead of Time.

Associated Press Leased-sire Service.

LONDON, May 18.— (By Atlantic Cable.) In compliance with the agreement under which the British men-of-war were with the "smart-money" amounting to \$75,500 demanded for the expulsion of Consul Hatch be paid in London within fifteen days, that amount of money was today converted into the treasury of great British on behalf of Nicaragua by Senior Chrisanto Medina, Minor Nicaragua in Edwards, which are espisode than aloned.

Nicaragua had until May 20 to pay the indemnity under the terms of the agreement.

Thinning Deciduous Fruits.

W. H. Bowman, an orchardist at Corrallitor, Santa Cruz county, gives the Watsonville Rustler the following points on thinning and cultivation of deciduous fruit:

Not the special of the street of the special throughout the episode than the reason of the special throughout the episode than the special throughout the episode throughout the epis

crime cocurred. Manuel Gonzales quarreled with Felipe Robles and cut off the latter's head with an ax. He then made his escape to Mexico. Years passed on and Gonzales supposed his crime was forgotten. He came over into Arizona occasionally, though he still kept his desidence in Sonora. A Huachuca Mexican named Carroles identified the man and his crime at Nogales a few days Gonzales again crossed the dead-line of the Mexican corder and went to Huachuca. There Corrales recognized him and telegraphed Sheriff Leatherwood here to hasten. By the time the sheriff reached Huachuca Gonzales had become alarmed and started for Mexico. His horse was a poor one; the pursuers had good animals. Gonzales was early overtaken and arrested. His examination is now in progress. A similar case is just reported from Solomonville, where on the 14th Pat Comody was arrested for the murder of William Wiggins at San Marcial in 1882. Comody came to Arizona in 1889.

Levi Steinfeld, father of Albert Steinfeld the Tucson head of the his tren form

Marcial in 1882. Comody came to Arizona in 1889.

Levi Steinfeld, father of Albert Steinfeld the Tucson head of the big iron firm of L. Zeckendorf & Co., died here the evening of the 13th, of asthma, aged 70 years. The body was last night sent to San Francisco for interment.

The latest estimate for Tucson and vicinity as to the income from cattle sales, here is that \$200,000 will be received here from that source by July 1. The present prices are \$9 for yearings, \$12 ofr two-year-olds, and \$15 for matured stock, or about double the 1894 figures. About 7000 head will be shipped to J. M. Holt alone. Further contracts were refused him. George Cave and Mrs. Hannah Jerivney were married last night by Probate Judge Wood. In Arizona ages are not asked of conditions for license, further than to satisfy the probate judge while engaged on the papers looked at the happy couple and remarked that he would not trouble them for their ages. A grown daughter of mrs. Scrivner reminded the Judge that he had married her father and mother, and that should satisfy him on that point in question.

PRESCOTT, May 15.—(Special Correspondence.) The essential forty subscribers for a telephone exchange here have been secured, and the electric light people will commence at once to institute the plant here. Furthermore, Prescott will soon be able to talk to the neighbors as well as herself. The line from Phoenix

soon be able to talk to the neighbors as well as herself. The line from Phoenix here is reported progressing well. The poles are now nine miles out from the other end. The line will run via the Castle Creek Hot Springs.

The first installments, three trainloads, of 800 carloads of cattle to be shipped from Del Rio are now in the course of loading. The big celebration for the Fourth is coming on encouragingly. To date \$3000 of the \$6000 wanted has been subscribed.

A fine cement sidewalk is being laid before the McCrom property, with 75 feet of frontage fronting the Palace and Cabinet saloons.

Engine No. 2 of the S. F. P. & P. rallroad has come out of the shops, where it has been for the past few weeks. It has been completely overhouled and repainted and looks as bright and fresh as it was the day it left the Brooke's locomotive works. This engine was used at the front during the two years of construction and this is the first time she has been in the shops ince her arrival on the road.

TEMPE.

TEMPE, May 15.—(Special Correspondence.) The Goodwin railroad right-of-way farnchise from the Board of Supervisors, through the new incorporation of Tempe, has been referred to City Attorney Van Horn for his opinion as to its legality, and whether the Council can sustain its course of intercepting the right-of-way.

Tomorrow 500 head of stock from the

Tomerrow 500 head of stock from the Tonto country wil arrive to be fattened on the valley pasture.

At a meeting of the directors of the Tempe-Mesa Produce Company a resolution was passed advising the forming of a dairy union by the stockholders of the company.

company.

On the 11th Johnny Daggs, son of W.
S. Daggs, was thrown from his horse and broke both bones of his left arm. He is broke both bones of his left arm. He is doing nicely. (Gazette:) If Tempe will study her interest, the Town Council will not obstruct the building of either one of the two railroads now treading their direction. Both are necessary to the development and upbuilding of that promising locality.

ty.

Crops are better hereabouts than for years, and prospects for the season are excellent.

TOMBSTONE.

TOMBSTONE, May 15 .- (Special Correspondence.) The Tombstone schools will close this week, being probably the last of importance in the Territory to remain in session. They are a continuation of the public schools, and have been kept going by private subscribing.

During the past week 100 tons of \$100 were sold by chloriders to the sampling works, or \$10,000 cash brought to town.

WILLIAMS. WILLIAMS, May 15.—(Special Correspondence.) The fight arranged here for Sunday between O'Brien, a local puglist, and "Swifty," a colored bootblack of Prescott, for \$125, failed to materialize. The cott man and his backers were here Prescott man and his backers were here and in full trim. The ring and spectators were there, but O'Brien did nat appear, even when a committee went in search of him. The crowd waited for him three hours, and contending themselves with anathemizing him, adjourned. The purse was turned over to "Swifty."

FLAGSTAFF. FLAGSTAFF, May 15.—(Special Correspondence.) The grand jury in their report made the following recommendation:
"We, the grand jury, find that the murderer of Lot Smith is still at large and from further evidence before us believe that there are other murderers still at

HOTELS-

Resorts and Cales.

SANTA CATALINA ISLAND EVER GRAND, ATTRACTIVE AND UNIQUE.

THE SEASON OF 1805. Greater attractions than ever presented by any resort west of the Mississippi.

Fishing Where Fish Abound. A cheap and perfect means provided for the enjoyment of sport that has made the island famous. A monster fishing barge will be moored at the fish banks day and night, equipped with fast power launches, fifty fishing boats, bait and fishing tackle; also a cook, steward and boat tenders.

Bosting and Buthing in crystal, placid waters, where women and children have no fear of danger, but learn to row and swim.

Excellent Wild Goat shooting.
The great island Stage Road.
The new resort at Little Harbor.
The popular, cheap coast excursions on the beautiful steam yacht La Paloma, the new steamer Catalina and the passenger barge Clemente.

The Seal Rocks, the Blue Caverns, etc., etc.
Dazzling Water Carnivals at night, brilliant pyrotechnic displays.
Rapturous Music and the handreddold attractive features to be enjoyed at no other resort in the world.

THE SANTA CATALINA ISLAND Marine Band and Orchestra,

Emphatically the grandest, strongest and in all the most perfect musical organizations on the Pactife Coast.

Organized and conducted by Charles A. Jones for the Wilmington Transportation Company exclusively.

Each organization comprising twenty musicians of exceptional merit and nine soloists of national reputation all selected from the musical centres of the United States.

Pres open sir concerts every day at Avalon throughout the season.

Largely increased accommodations at the Hotel Metropole and the new island.

Villa.

Splendid arrangements for the great camping population: new graded and macadamized streets; all lots connected with flush closets and the new outfall sewer; camping lots with pure water, shooting permits, access to the interior and other privileges free to holders of our round-trip tickets.

Handsomely-furnished tent cottages and tents of all kinds to rent by A. W. Swanfeldt, 280 S. Main st. Los Angeles, or at the island.

Steamer service as per railroad time table in daily papers.

Present service every day except Sunday.

Illustrated pamishlets descriptive of Santa Catalina Island mailed to any address.

ARIZONA MINING MAPTERS.

A ten-stamp mill will be erected at the Bulldog mines, with power enough for thirty stamps. In the Bulldog, with a development of only 100 feet of depth, there is fully six months of mill run of ore ready for stoping. About six hundred tons are on the dump, but will be retained for reserve, while the mines are sunk deeper. A 100-ton mill test went \$38 a ton.

Within twelve miles of Florence some very rich mineral has been found. Assays have been made, which run as high as \$4140 ounces silver and \$26½ per cent. copper. Two locations have been made on the ledge by Messrs. J. M. Ochoa, A. F. Barker, John Harris and John Ruckelhausen. No little excitement has been caused by the rich strike. The ledge is represented to be a foot and a half wide and can be truced quite a distance.

At the New Pierce group in the Dragoons, the hills are dotted with prospectors. Work on the Pierce mine is being pushed by its owners, and a day or two since the workmen encountered the hanging wall at a depth of about eighteen feet. The ore continues exceedingly rich here, and work will go on unceasingly, following the wall until a sufficient depth has been reached, when it will be deemed best to cross-cut to the foot wall. About twenty-five tons of ore have been shipped from this mine, and unother shipment will be ready of a few days.

(American Cultivator:) From the earli-est times the dog has been the companion of man, helping the scale of cold and heat the dog has been the companion of readine to the scale of cultivations making such advances in his scale of good works as differing circumstances required. In his adaptability to withstand the extremes of cold and heat the dog is calfering circumstances required. In his adaptability to withstand the extremes of cold and heat the dog is recreated to under the dog and heat the dog i Our Domesticated Pets.

(American Cultivator:) From the earliest times the dog has been the companion of man, helping the savage man to run down his game, and as man gradually progressed in the scale of civilization making such advances in his scale of good works as differing circumstances required. In his adaptability to withstand the extremes of cold and heat the dog is scarcely man's inferior. In his aptness to acquire new tricks the dog shows a degree of intelligence that surpasses instinct. Even as regards conscience the dog seems nearer to mankind than any other animal. He may not have enough conscience to prevent wrong doing. This also is, alas, a defect that is quite too common with his master, but in the shamefacedness that follows the consciousness of wrong doing the dog can give lessons that man wall may appress that the control of the control of the common with the same that was a present the control of the common with his master, but in the shamefacedness that

a kind word, and all the evil he has done is at once forgotten. That is a sample of readiness to forgive injuries, that, whether it be right or not, few men have found it expedient to practice among themselves.

For better or worse the dog will, therefore, be for all time to come an associate with man as he has been in the past. Appreciation of this fact has lately led men to be much more particular about the kinds of dogs that they allow themselves and their families to associate with. There are dogs and dogs. Dogs educated, intelligent, cleanly and refined; dogs, on the other extreme, ignorant, low-bred, victous and utterly disreputable. Of course, some of the dog virtues are to be found in the very worst, as there are some of the human virtues to be found in the very worst, as there are some of the human virtues to be found in prisons and houses of correction. While there is such wide variation among dogs, it behooves people who are careful not to smirch their own reputation, to take care what kind of dogs they associate with. In this as in everything else only the best should be tolerated on the farm. Thoroughbred dogs are as superior to the mongrel sort as is the thoroughbred in any other domestic animal. Each breed has been brought to its own standard of excellence, and it is only by inbreeding with animals of like character that this standard can be maintained.

Every intelligent visitor at a dog show must see that many of these breeds have

with animals of like character that this standard can be maintained.

Every intelligent visitor at a dog show must see that many of these breeds have through their course of training developed a high degree of intelligence. The colle dog is not instinctively able to manage a flock of sheep, but he is so near to this that he can be taught very easily. Some of the other breeds have developed intelligence in other directions to a most remarkable degree. It will be well for farmers who have worthless mongrel cursthat are no good for any purpose to decide whether they ought not for the looks of the thing, and also for the money profit in it, to make an exchange for animals more intelligence will be much better companions for themselves and safer to intrust to their children than are the mass of dil-bred curs that are always getting into mischief because it is impossible to train them. Let the fact be understood that the well-bred dog has a greater amount of intelligence, and can, therefore, be more easily trained to know and do what is wanted, and the expediency of Glenwood Cookstoves.

CHIROPODISTS-

MISS VACY STEER CURES DANDRUFF; hair invigorated; corns and bunions re-moved without pain. 1314 S. BROADWAY.

FOR SALE-FOR BEAUTIFUL HOMES-CONGER'S WILSON TRACT.

Take Vernon double-track electric cars ecr. Second and Spring sts.; in 15 minutes you will reach the tract, being located on Central ave., just as you cross the S.P.R.R. crossing, in an orange orchard: from this tract the scenery is beautiful; the mountains and city are in full view; water is piped to each lot; the lots are large, back of each lot a wide alley.

For maps and full particulars inquire of owner, 117 S. Broadway, city.

H. M. CONGER.

FOR SALE—INVESTORS, ATTENTION; IN the southwest part of the city we have a most excellent tract of land of 50 lots on the line of the new Storrs electric railroad that the owner has been withholding from the market, expecting to get \$1000 per lot as soon as the line is put in operation, which expectation we believe can be realized; however, he has listened to our argument in support of Main st. for the best field for investment in the city at the present time, and has authorized us to sell his lots for \$25,000 and invest the money in Main st. This property is glit-edged, will retail for \$50,000, and will stand the closest investigation. There is no fininfiam or hide-and-go-seek about this deal. Call on us and we will introduce you to the owner. The property is clear of incumbrance, graded, sidewalked, and is first-class in every particular. You can have \$1 lots for \$35,000, particular. You can have \$1 lots for \$35,000 particular. You can have \$1 lots for \$35,000 and investment. Remember, we offer nothing that we cannot deliver. We never advertise anything that we don't know all about. MAYNE, \$60 8. Broadway.

FOR SALE—MAYNE, \$60 8. BROADWAY.

We handle nothing that we cannot deliver. We offer nothing but bargains, Every plece carefully examined and appraised before being advertised. Fine location on Olive st.; 3 buildings, paying \$65 per month rent; \$8000; this is a splendid investment.

Elegant lot, graded and sidewalk, southeast cor. Girard and Union, \$800; this is a splendid investment.

BUSINESS.

FINANCIAL AND COMMERCIAL

OFFICE OF THE TIMES,
LOS ANGELES, May 16, 1895.
RESPONSIBILITY OF BANKERS. The
Supreme Court of the United States has
settled the question of a bank official's
authority to borrow money in the name of
the bank. He cannot do so unless by an
act of the bank's directory he is definitely
invested with authority to negotiate a loan
for the bank. A bank is supposed to be
engaged in the business of lending money,
not borrowing it, and if it does so, the
matter is so extraordinary, in the view of
the court, that it must have been preceded
by the clear sanction of the governing
body of the bank. An officer, even one
who possesses general powers, must refrain from borrowing, except be be armed
with additional power.

Commenting upon this decision, the
American Banker says:

"In our legal department this week we
print a decision of the Michigan Supreme
Court, in which the question of the right
of a cashier to procure rediscounts without directorial acquirecence is discussed.
The court boils that the principles applied
by the United States Supreme Court do not
fit into the facts under its review. A
cashier's indorsement on paper transmitted
for rediscount makes the bank a debtor to
the bona fide holder for value of that paper
proce who had no notice of any defect in-

Commenting upon this decision, the American Banker says:

"In our legal department this week we print a decision of the Michigan Supreme Court, in which the question of the right of a cashler to procure rediscounts without directorial acquiescence is discussed. The court holds that the principles applied by the United States Supreme Court do not fit into the facts under its review. A cashler's indorsement on paper transmitted for rediscount makes the bank a debtor to the bona fide holder for value of that paper, who had no notice of any defect inthe official's authority. The court quotes with approval a West Virginiss case, in which the rediscounting of paper is regarded as a legitimate practice, resorted to in emergencies, and, although not held to be one of the inherent powers of a cashler, so that he may prosecute it without consent of the directors, yet the act will be held to be valid, and will vest a good title in the transferee."

OPENING FOR AMERICAN WOODS.
Reference was recently made in this column to some interesting consular reports
which had been received from Eugene
Germain, formerly of this city, who is
now United States Consul at Zurich, Switzerland. Another report which has just
been issued by the Department of State
contains some valuable statistics furnished
by Mr. Germain in regard to the forestry
industry in Switzerland, and the opening
in that country for American woods. It
appears that, although there are extensive
and fine forests throughout Switzerland,
which are most carefully preserved, they
are not sufficient to supply Switzerland,
with the necessary timber and lumber.
During 1893 that country imported wood
and manufactures of wood to the value
of £18,200,000. Mr. Germain thinks that
the United States could easily secure a
greater share of this Swiss trade by a littile effort. Such commercial reports as
these from United States consuls abroad
are of great value to American manufacturers and merchants, and might be
made still more valuable if they were more
general. The system of making those reports was first introduced by Secretary
Evarts in 1880. As The Times has recently observed, in order to make such reports as general and valuable as they
should be, it will be necessary to exercise
more care in the selection of consuls and
consular agents at the leading foreign cities. Such officials should be chosen from
the ranks of those who have some practical experience in commercial affairs. It

consular agents at the leading foreign cities. Such officials should be chosen from the ranks of those who have some practical experience in commercial affairs. It may be all very well to give diplomatic positions as a reward for party service, but to fill consular offices, only those should be chosen who have had some business education.

Apropos of the wided business, few Callfornians realize the value of that fine timber, the redwood, which is peculiar to this Coast. Because this grand wood has been so plentiful and has been utilized extensively for building purposes, we have got into the habit of regarding it as a timber of scarcely any greater value than pine. In other countries, however, the wood has been utilized for a number of years for furniture purposes, and during the past few years at has come into axtensive use in this State for interior decoration.

the past few years it has come into extensive use in this State for interior decoration.

Some ten years ago the Southern Pacific Company sent one of their employees over to England for the purpose of trying to introduce the redwood and other Pacific Coast woods into that country. The specimens of redwood which were shown were greatly admired by the furniture-dealers, but it seems that there is a kind of trust among the lumber-dealers in England, who deal chiefly in mahogany from Central America, and it was found that it would need considerable time and hard work to secure a fair trial for the new California wood.

For a long time California redwood has been used in California by a cigar-box manufacturer in place of cedar, and now, according to advices from San Francisco, two orders have been received from Europe, one from Beiglum and the other from Russia, for a carload of Sierra Nevada redwood, to be used for the manufacture of lead pencils. The San Francisco Chronicle gives the following interesting information in regard to this shipment:

"The shipment of a carload or two of lumber is a matter of small importance in the great volume of California's trade, and this transaction would excite no attention except for the fact that practically a new use is found for California's redwood, and that though the telegraphic order came from so remote a quarter of the earth, the lumber was on its way the very next day.

"There are thousands of varieties of

Sesociated Press Leased-wire Service.

CHICAGO, May 16.—With receipts of about

65% for July, at which a few sales were made, to 65% and it fluctuated for half an hour or so between 65% and 67. After this the buying was more general and very soon it became almost universal until the price had been advanced with a whiri to 67%, which flaure it reached in little more than half an hour from the opening. The weather map was reassuring, the general temperature being low enough to do more than check a too rank growth of vegetation. The foreign markets, while firm, showed a reluctance in following the course of other things here, but there were numerous reports of damage to crops by frost, chinch bugs and Hessian flies, and shorts were forced to cover. The Northwestern receipts were smaller than a year ago, but the total of the primary markets were larger, amounting altogether to 280,000 bushels, against only 186,000 on the corresponding day of last week, and 230,000 on the day a year before. Export clearances of wheat and flour from Atlantic ports amounted to 397,000 bushels, 172,000 of which was in the shape of wheat. One matter which may develop into something sensational, should it receive confirmation, was not known in the pit during the session. Milmine, Bodman & Company of New York wred their house there that they received a dispatch from a reliable firm in London to a good New York house saying there were fears of damage from drouth being expressed from Odessa. Kansas City wired that wheat was bringing 75 cents per bushel there. The crowd here did not dare sell any wheat short and everybody had to advance their previous bids. July advanced to 63% and 68% 668% was the closing price. Corn acted heavy, and but for the great strength in the wheat market it looked as if it might have declined. In consequence of the advance in wheat, however, corn gained ¼ to % cent. The receipts were much too heavy for buillish enthusiasm, 417 cars being the day's receipts. July opened at from 51% 651½, dropped to 51½, advanced to 51½ and fossed for the day lard have during the saying of pork only to the exten

London Financial Market.

NEW YORK, May 16.—The Evening Post's London cablegram says that there was a slight increase in the coin and buillion in the Bank of England this week, although 165,000 net were exported, the details being 1200,000 to the Cape and 1219,000 imported from Australia, 110,000 from Paris and 16000 from Oporto. The increase in other securities is believed to be due to the purchase of a large line ock market and the securities of the securities is being 1200,000 to the Cape and 1219,000 imported from Australia, increase in other securities is being 1200,000 to the Cape and 1219,000 imported from Australia, 110,000 from Paris and 1600 from Oporto. The increase in other securities is being the securities, after a weak opening, rallied sharply in sympathy with the important rise in New York Central on reports that a syndicate headed by Morgans had taken over the balance of \$5,000,000 shares. Prices closed at the best. Ontarios were bought by New York. The other markets recovered in sympathy with Americans. There was a panicky feeling in copper on the breakdown combination which was entirely due to the American producers were not absolutely unanimous about the restriction is untrue, inasmuch as the initiative in the combination came from America. The refusal at the last moment by the American producers had a bad effect.

Sunday-school Teachers Meet for Their Common Good.
The Sunday-school Teachers' Primary

The Sunday-school Teachers' Primary Union of Los Angeles and vicinity held the bi-monthly meeting in the First Congregational Church yesterday afternoon. In the absence of the president, Miss Rider, the meeting was led by the classical control of the primary classes at the First Presbyterian Church.

The lessons were presented by black-board illustration, the theme being 'Christ Before Pilate,' and the different thoughts were presented in a manner likely to interest young children.

After the lessons, plans for teaching songs to the children were discussed, also plans for 'Children's day.'

The Primary Teachers' Union is for the purpose of taking up branches of the work not handled in the general teachers' meetings.

A Cutting Afray.

A cutting scrape occurred on Los Angeles street about 4 o'clock Thursday morning, in which Frank Jordan received a slash in the neck with a razor, dangerously near the jugular vein. Jordan was taken to the Receiving Hospital, where he yet remains. The cutter exaped, but a negro named John Welton was yesterday arrested on suspicion of having committed the assault.

women be content with the schools. Their instinct of maternity fits them for each-ers of children, but not for politicians." There is no doubt that there are large

numbers of women who share these views.

many more, in fact, than those who advo

themselves forward or of talking for pub-lication, and thus the idea has got abroad

that the female seekers after the ballot are

far more numerous than they really are. Won't there be a picnic, though, when the

female suffragists and the anti-suffragists

begin to give their real inside opinions of

CAN THIS BE TRUE?

A report comes from Honolulu, in a rather roundabout way, that a crisis is near at hand in the islands, and that the

The placing of Kaiulani on the throne would simply mean the turning over of

ain. The so-called "Princers" has been educated in England, and her "guardian,

Davies, has been scheming to place her-or rather Great Britain in power ever

eince Liliuokalani was deposed. It would be interesting to know just how much en-couragement this movement has had from Orover Cleveland. It will be remembered

that Kajulani visited Washington and ho

two or three years ago. There is no ore, that Grover Cle

would very much prefer to see the repub

lie overthrown and a monarchy set up in

its place, under the control of England than to see the islands prosper under a

republican form of government. Mr. Cleve-land would also be very glad to see all this brought about before the Republican

Congress meets next December, for rea-

sons which are obvious.

The recent declaration of Lord Kim erly, that the two traitors, Rickard and Walker, are British subjects, and there-fore entitled to British protection, looks

very much like a part of the plot to turn

the filmsy pretense of setting up a "mor archy," with Kalulani as the "Queen."

Perhaps the light of day may be let in on all this plotting and scheming some

day. And perhaps the revelations may

not be altogether agreeable to certain in-dividuals now pretty high in power at

It is hardly to be wondered ut that the

stand ready to take advantage of the

tion, by gobbling up Hawaii. England knows a good thing when she sees it, and is never modest about taking all she can

plain, though inadvertent, confess

one-half its present value. If this were done every laboring man who has a few dollars in the savings bank would lose half of it, because the bank would cer-

tainly pay out the cheaper money, as would all creditors in liquidation of debts.

The laboring man who owed \$1000, more

easier to pay than now, because wages would be the last thing to advance, and the cheap dollar would consequently be about as hard to get as is the present

dollar, worth 100 cents. The cost of liv-ing, however, would be greatly enhanced by inflated prices, so that the laboring

man would be hit all along the line. The free silver charlatans pretend to be the "friends" of the laboring man. The ex-

dressed-meat combine for the recent advance in the prices of meats, and shows quite conclusively that there was no war-

rant whatever for the advance. This con-clusion was reached some time since by the press and the people in general. The

latter have resented the advance to a con-

siderable extent, by eating less meat than heretofore. This is especially true in the

Eastern cities. But the retail meat dealers

have suffered severely from this falling off in their business, and many of them have been forced into bankruptcy. Prior to the election of Grover Cleveland we were led to believe that after that happy event there would be no more trusts nor rumors of trusts. These iridescent ante-election

planation is very simple. They lie. The Butchers' and Packers' Magazine in four-page article severely arraigns the

THE NICARAGUA CANAL.

A recent dispatch announces that Japan is taking great interest in the proposes Nicaragua Canal, and is seeking to obtain a large share in the control thereof. If Japan has any such intentions she will do to abandon them forthwith. When Nicaragua Canal is built-and it surely will be built sooner or laterowned chiefly by Americans, and will be operated under American control. This fact may as well be understood and ted at the outset. No foreign nation will be allowed to exercise any par-ticle of controlling power in the management of this great waterway. The chief controlling power must rest with the United States, though, of course, Nicaragua, through whose territory the canal to run, will be consulted and her

rights will be fully respected. It is unnecessary, at this late day, to point out the vast importance of this great undertaking, and the immense benefit which its completion will afford to the peo-ple of the Pacific Coast, especially to those of Southern California. But it is ests of California at heart to be prepare to use his influence, so far as pessible, to ther the passage of the neces lation at the next session of Congress. Th Chamber of Commerce of San Francisco is taking an active interest in the project, and in a circular recently sent out make good suggestion, as follows:

a good suggestion, as follows:

"We respectfully urge upon every commercial and industrial organization on the Pacific Coast, and upon our fellow-citizens individually, to keep up and increase their urgent demand for favorable legislation; we ask them to address their Eastern correspondents, requesting that, in response to ties of relationship, friendship and business interests, they will urge upon their Senators and Representatives favorable action in the Fifty-Fourth Congress. Such action will not fail to meet ravorable action in the Fifty-fourth Con-gress. Such action will not fail to meet with favorable response, for 'blood is thicker than water' and commercial self-interest a powerful inducement. Let our friends appreciate what a boon to us will be the Nicaragua Canal, and they will sid us in obtaining the necessary legisla-tica. If we follow this course, success will uttend our efforts, and our Pacific Coast take on new life. The task is easy and the reward beneficient, even to the oppo-ments who have thus far prevailed against the public interest."

The bill for the construction of the Nicaragua Camal would probably have passed the Fifty-third Congress at its last on had it not been throttled by the if his favorable utterances on the subject are to be believed, would have signed the bill had it reached him. It now remains to press the matter upon the at on of the Fifty-fourth Congress, and the present is a good time to begin the work of writing to Senators and Reprecentatives, by those who are their per-Great good may be accomplished in the every one who has friends in the house, will act in earnest and with reasoncos on the above suggestions.

"AGIN" THE SUFFRAGE.

The woman suffragists are not by any means going to have it all their own way, even among their own sex. An anti-suffrage society was recently organized in Chicago, of which Mrs. Houghton, formerly of Spokane, Wash., and a mem-ber from that State of the Board of Lady Managers of the World's Fair, is president. Mrs. Houghton is a warm friend of Susan B. Anthony, but strongly opposes the latter's suffrage crusade. Mrs. Hough-

the latter's suffrage crusade. Mrs. Houghton is reported as saying:

"I am going to make a crusade against the suffragists. I do it in behalf of the sensible, sound-minded women of my sex. We are tired of this misrepresentation by the few. Millions of women who shrink from the glare of publicity protest, but do not care to leave their happy homes to make the fight. I have been in business nearly all my life, and know that if women had been thrown in with politicians and others as I have been they would not cry for equal rights. It is the greatest curse that could come to us. I lived in Washington State when women clamored for suffrage. They got it, and at the end of two years begged that it be taken away from them. My husband was elected on a ticket because I had been prominent in charity entertainments—a nice qualification for an officeholder."

"And so it will always be. Women are carried away by mere sentiment. Why, I remember one case where they had to serve on a Jury. The crime was a horrible and revolting one, and the women cried and wept because the judge could not legally excuse them. They were locked up with the men for forty-eight hours. At the next general election they and their husbands voted for unequal rights—which means that the men are given all the power and the women all the influence. Let equal suffrage go into effect in Chicago for one year and every dissolute woman will vote, but few of the respectable ones. Great majorities will be rolled up for boodle aldermen."

retary of the Anti-suffrage Society, spoke in equally emphatic terms. She said:

in equally emphatic terms. She said:

"This equal rights has been mothered by the Women's Christian Temperance. Union fanatics, and now everywhere in charitable movements you will find vampires who disgrace the name of Chicago womanhood. So it will be when they get that politics. Respectable women will gobbe up the offices and resort to dissonesty men would never dare to, and rely upon the fact that they are women save them from justice. No, let the

gullt. It is understood that restitution the money embezzled has been made. But this does not affect the crime. To agree not to prosecute a thief or an embezzler, in consideration of his restoring the stolen money, is defined by the law as com pounding a felony, and lays all the par pounding a relony, and lays all the par-ties to the act liable to severe punishment. It is not here charged that a felony has been compounded, but some of the cir-cumstances of the case have a very hazy dook, to say the least. How the jury could find a verdict of acquittal with such plain evidence of guilt before them, is past comprehension. The public proce-cutor did his duty and proved his case. The acquittal looks like a disgraceful trav-

The elections in November will be in lowa, Kentucky, Maryland, Massachusetts, Mississippi, New Jersey, Ohio, Rhode Island, Kansas, Minnesota, New York and Virginia. The first seven States will elect Governors and the others minor officers An election which will attract a great vember 5. The new Constitution under which Utah will be admitted to state which Utah will be admitted to state-hood is to be ratified by the people at that election, and subsequent to that issue will be the election of State officers, Congress-men and Senators. The Utah Senators will probably be chosen as early as pos-sible because they will be badly needed to decide the interesting question of control of the Senate. Therefore the first State campaign in Utah, while it will be brief will be an exciting one.

Senator Lodge of Massachusetts is quoted as saying that upon the assembling of the Fifty-fourth Congress he will introduce a resolution formally proclaiming the Monroe doctrine as a vital principle of Ameripation of any new territory by a Europea power on either American continent This is the true spirit of Americanism and it is probable that such a declaration of principles would pass both houses of the Fifty-fourth Congress by good maprobable result will be the overthrow of the Dole government and the seating of prities. Certainly it would pass the "Princess" Kaiulani on the throne. The statement is also made (but it is probably false) that ex-Minister Thurston is in fawords in this matter. Let us know just where we are at—and stay there.

On Wednesday, Thursday and Friday, May 29, 30 and 31, the annual meeting of the National Municipal League and the third national conference for good city government will be held at Cleveland, O., in pursuance of the invitation of the Chamber of Commerce of that city. An interesting programme has been prepared for the occasion.

Coin's Caricatures.

Coin's Caricatures.

(Chicago Tribune:) If "Coin" had omitted from his fake pamphlet the cuts with which its pages are liberally besprinkled the thing would have fallen flat. It is not any argument in the work that convinces, for argument there is none. The "taking" features are the "cuts" representing the average business man with a head full of wheels instead of brains, the two cisterns with a Slamese-like connection, labeled "free coinage," the man with one leg and a pair of crutches, the human face with one eye closed, the trooper at the entrance to a tent bawling out a demand for 100,000 cavalry horses, the skyrocket, the cubes and balls supposed to represent volumes of gold, etc., and caricatures of the features of several prominent gentlemen who are falsely alleged to have attended the fake school and been convinced by speeches never made to a boy who never had any existence save in the brain of an unscruptious man who got up the pamphlet on the plan of the razors that were made to sell to countrymen. It is the pictures that "take." razors that were made to sell to country-men. It is the pictures that "take," though most if not all of them might equally well be applied to illustrate the other side of the story. All of which shows how low as well as high art may be prostituted to base uses made to aid designing men in misleading the multi-tude.

(The Santa Clara:) From one end of California to the other, the land is now almost literally ablaze with roses. Roses in every conceivable shade and variety rush into a lavishness of odor-ous bloom that is fairly bewildering in its beauty.

The people, catching the rose fever,

are breaking out all over with rose fairs, fiestas and the like, until the en-tire State seems to have gone blos-

DEBASING THE CURRENCY.

"Coin's Financial School" declares that noney on the present basis "has purchasing power twice what a 'bimetalnoney on the present basis "has if they had This is that the purpose of the silver mono-metallists is to debase the currency to

that, if they had possessed weight, would have shaken the sea in its bed, or the hills on their pedestals; but which, having only beauty and fragrance for avoirdupols, shook the people into convulsions of rapture.

Never was there an affair of such merry-mad magnificence as the Los Angeles fiesta. For a solid week the people and their visitors put aside every serious employment of life and turned themselves loose (like young colts in a clover patch) in the fields of enjoyment, up to their eyes in blossoms, and steeped to the soul in the incomparable fragrance of roses and orange blooms.

orange blooms.

Who will dare say that they will not all—for this week of merry-madness—be steadier, happier workers during the other fifty-one weeks of the year?
But the roses of Santa Barbara!
Ah! there are blossoms for you, beyond all others! I know (just as I know the superfority of mother's doughnuts) because three of the happiest years of my girlhood were passed in that lovely, southern land—years which shall ever remain a dream of roses, Spanish fandangos, trailing pepper branches, more roses, guitars, per branches, more roses, guitars, Spanish love songs, and again roses, dark Spanish eyes, balles and, lastly and all the time, roses. Yea, verily:

Where roses' rich gifts are completest, Where sea-winds kiss cdorous trees, Where song's liquid numbers are sweets Santa Barbara looks out o'er the seas.

And now, as this magazine goes to press, a rose fair is in full blast in San. Jose; in fact, the rose craze seems like one of these new-fangled skyrockets—in that it has gone up with

in their business, and many of them have been forced into bankruptcy. Prior to the election of Grover Cleveland we were led to believe that after that happy event there would be no more trusts nor rumors of trusts. These iridescent ante-election prophecies have fallen far short of fulfillment.

The acquittal of Alexander Docter in Judge Smith's court yesterday, was a great surprise. Docter was accused of embezzing \$3500 which he collected from M. L. Polsaki of this city for Mose Gunst, the wholesale tobsecomist of San Francisco. The evidence in the case seemed canclusive as to Docter's guilt. In fact, there was no tenial of the essential facts in the case, and the defendant was not put on the stand to testify in his own behalf. Yet the jury found a vardiet of acquittal, in the face of the conclusive evidence of

PITH OF THE COAST PRESS.

(San Diego Union:) If a few more nations should signify their desire to gain control of the proposed Nicaragua Canzi, the United States may finally conclude that there is something important in the project after all, and go ahead and build it on her town account. As an investment the government could not make one that would please the American people better, even if an extra bond issue had to be ordered to meet the obligation.

(Oakhand Enquirer:) What a gigantic industry is that represented by the humble and unobstrusive hem! Edward Atkinson estimates that 10,800,000 hen's eggs are laid annually in the United States, and that theirvalue is 31,400,000, which he says is as great as the combined values of the pig iron and wool product. The American hen neverclamors for either free raw materials or for projection against pauper hens of foreign countries, and her only bad habit is that the sometimes she goes on strike.

strike.

(Passadena Star:) Nature always seems to have compensating advantages. Here in this country where wool and coal for fuel are scarce there is being revealed a wealth of petroleum that is a cheap substitute for them. The prospects are good for such an extension of the oil-producing district that every country in Southern California will have its quota of wells. In Los Angeles county the oil area is rapidly spreading and there is every prospect that the latest venture, prospecting at Lincoin Fark, will be a success.

(Sah Bernardino Times-Index.) One of

at Lincoln Park, will be a success.

(Sat Bernardino Times-Index.) One of the laws which were so fearfully and wonderfully made by the last Legislature provides that refunding bonds can only be disposed of in exchange with the holders of old bonds. This, of course, puts a stop to reduction of interest, as the holders of matured bonds are not likely to surrender those held by them for bonds drawing a less rate of interest. The universal process heretofore has been to issue refunding bonds drawing a less rate of interest and sell them for cash, often at a premium, and take up the old issues, paying their face in cash. This process is now at an end until another California Legislature meets.

an end until another California Legislature meets.

(Inyo Independent:) What promises to be one of the hardest-fought lawsuits ever begun in this county, is now under way. The sheepmen, who for many years past have paid the sheep-license tax, claim that they are not subject to such tax this year for the reason that they are simply passing through Inyo county to Mono county, their destination. The Tax Collector has directed suit to be brought, and many bands of sheep have been attached. The sheepmen immediately give bonds and release the attachment. The officers are also proceeding against them for violating the ordinance, and three have been arrested and admitted to bail. Dist.-Attry. Forbes is attending to the county's interests, and P. H. Mack is attorney for the sheepmen. It is said that about forty civil and forty criminal prosecutions will follow. The District Attorney is making a vigorous fight, just what the people of the county want, and will make every possible effort to secure the rights of the people in this master.

(San Diego Union:) Several of the States

to escure the rights of the people in this matter.

(San Diego Union:) Several of the States have now in operation a legal enactment by which the American flag is required to float over every public school building "during the hours of tuition, and at such other times as the directors may prescribe." Such a law should be on the statute books of every State in the Union. Its literal compliance will incufeate in every scholar a love and veneration for the flag. Underneath its folds will grow up a sentiment of pure patriotism that will develop into reverence for the memblem of the nation, and formed thus in early youth will prove as enduring as life itself. Out of such an intimate and constant association with the flag will grow a knowledge of its origin, its long and illustrious history, and a determination to perpetuate its glory and honor. If this be sentiment appartoism, then it were well for the rising generation to feel the full force of its inspiration, since upon just this same sentiment must rest the future hope of the nation, the fame it may expect to achieve, the Union it must ever maintain.

ENORMOUS LOSSES.

Damage to the Eastern Fruit Crops.

Conservative Estimates Place it at Three Million Dollars for Two Days.

Reports of Blight and Ruin by the Cold Snap Still Coming in— A Boom Brewing for California.

By Telegraph to The Times.

NEW YORK, May 16,—(Special Dispatch.) The damage done by the heavy frosts of last Sunday and Monday to the fruit crops on the Atlantic Coast, and expecially through Southern and Western New York and in New England, is incalculable. Conservative estimates pinced it

New York and in New England, is incal-culable. Conservative estimates pinced it for the two days at \$3,000,000, and reports of blight and ruin by the late and unex-pected cold snap are still coming in from the more remote districts. One of the best-posted fruitmen in New York told The Times correspondent today that the misfortures of Eastern growers must prove a boon, in a business way, to Californians, as in some of the most pro-ductive grape sections of New York the best of the crop is almost-entirely ruined. This gentleman places the loss at fully \$5,000,000. At Jamestown, N. Y., immense damage was done by the frost on Sun-day night. All fruit prospects are ruined. The grape belt suffered entirmosaly. It is estimated that Chaurauqua county's loss is fully \$2,000,000. is fully \$2,000,000.

atch received tonight from Dun-A dispatch received tonight from Dun-kirk, N. Y., says that frost last night wrought more havoc in the Chautauqua belt. If the forecast from the Weathe Bureau of frost tonight proves true, there will be no fruit of any kind remaining. Nearly everything in early fruit is already gone. Owing to the ruin of the grape crop, sixteen basket factories in Chau-tauqua county have closed, thereby throw-ing large numbers of men out of employment. Merchants, who have been carry ing grape-growers along and taking as security the prospective crop of 1895, are in an uncomfortable predicament because of the crop failure. The calamity is so extensive that every kind of business will feel the loss severely. At Erie, Pa., a killing frost fell at mid-

night on Sunday and did extensive damage night on Sunday and did extensive damage in the grape-belt. In the vicinity of Brocton, Westfield and Ripley the damage is general and will probably take half the crop. About the Northwest Concords suffered greatily, and fully a quarter of the crop is killed. Niagara's very early grapes, well advanced, are almost a total loss. Straw-perry vipes were not advanced for enough berry vines were not advanced far enough to get caught. The apple and peach crops are injured, but not to any great extent. The loss from freezing and frost is roughly estimated at \$750,000 in Eric county alone. This section has 4000 acres of grapes and Chautauqua county, N. Y. 6000. The loss in this county will be close to two-thirds in the lowlands and one-hall in the upper section. This county suf-fered to a less extent than Chautauqua, because of the lower altitude. Other fruits are badly injured and the cereals greatly

damaged.

There was light frost in the valley of the
Central-Hudson on Monday morning,
which damaged some of the fruit blossoms. In some sections back from the river there is said to have been ice a quarter of an inch thick. Some grow-ens say that the strawberry crop will be partly ruined. Most of the fruit-tree blossoms were just dropping to the ground, while growing fruit is just forming. Much damage is already reported from the fruit district of Southern Ulster. Peaches are thought to have escaped, being too far dvanced, and in some sections of Sullivan and Delaware countles the fruit blos-

scens are badly frozen. Snow fell in most of the towns on the New York, Ontario and Western Railroad. At Lockport, in Western New York, the thermometer registered as low as 28 deg. on Monday night. Frukt and vegetables suffered in Niagara county, and though the extent of the damage is not yet ascer-tained it will reach thousands of dollars tained it will reach thousands of dollars. Grapevines are stripped of leaves. Fruit trees in blossom are damaged, and it is feared that crops will be small. In Central New Hampshire fruit buds were nipped, small trees killed and crops of various kinds, put in early, and which warm weather had brought up to a height of three or four inches, were cut down, making replanting necessary. The strawberry and peach crops suffered severely throughout Rhode Island and Connecticut. SAGINAW'S GRAPE CROP KHAED.

DETROIT, May 16.-Garden truck and uit suffered severely in many sections of fruit suffered severely in many sections of the State, as the result of last night's frest. The entire grape crop of Saginaw county is reportred killed.

FROST IN WISCONSIN. FROST IN WISCONSIN.

MILWAUKEE (Wis.,) May 16.—Frost was general throughout the State again last night. Garden and fruit crops are being steadily wiped out. In the nowhern part of the State snow that fell early in the week still remains on the ground. Wheat and cats suffered least. All other crops have been replanted.

promotes Lieut.-Col. George H. Weeks to be colonel, Maj. C. G. Smith to be leutenant colonel and Capt. John Clem, the drummer to colone and Capt. John Clem, the drummer to colone and Capt. MISFIT UNIFORMS.

Grumbling Among the Police About Their New Togs.

Their New Togs.

The members of the police force have been trying on their new summer uniforms for several days past, but there is much grumbling among the officers about misfits. The fat men complain that their new garments are too loose, and the lean men find fault because theirs are too tight. Almost the entire lot will have to be made ever, if the comments heard at the police station yesterday are any indication. It is also alleged that the quality of the goods is not up to contract, and that the Police Commission may decide to reject the whole lot on this account. The pantaloons, which were to be of heavier material than the coats and vests, are said to be lighter. There is also some wrangling about the buttons, which are to be paid for extra, whereas some of the officers claim they should be included in the regular contract price. The suits were made in the East, instead of here, which probably accounts for the misfits and the cheapness of the contract price.

BUYING PIGS IN POKES.

THE EXPRESS COMPANY'S SIGHT UNSEEN AUCTION.

Buyers Bought Themselves Rich, but They Were Not Allowed to Show How Badly They Had Been Fooled.

A sea of hats; hats of all shapes, sizes and ages; silk tiles, slouched felts, bean-pots, buzz-saws, helmets and sombreros; a wildly-agitated sea of hats at times as a fat parcel was waved aloft by a brawny arm and a stentorian voice proclaimed its possible contents, was all that could be seen from the doorway of a big room on seen from the doorway of 2 mg room on North Main street yesterday morning, dur-ing the progress of the great sale of un-claimed packages left in the charge of Wells, Fargo & Co.

The sale commenced at 10 a.m. and as it progressed, and the bidding grew fast and furious amid a hallstorm of jests and

aughter, the crowd thickened until nothexcept a thick or thin bundle and the hand that poised it in the air.

Contrary to precedent and much to the disappointment of the spectators, the auctioned off were veritable terious box or bundle that might contain anything from hayseed to bank-notes, the purchaser was obliged to restrain his curiosity until the parcel called for by the

The auctioneer grew red and perspiring The auctioneer grew red and perspiring with the vehemence of his recommendations of the "lots" put up for sale, and his exortations to the idle crowd that filled the room; and the tide of travel along Main street was arrested, while that curiosity which is the besetting sn of humanity brought saint and sinner, Jew and Gentile, Mongolian and Caucasian, into the dingy room where the mysterious parcels were being knocked down to the highest bidder. Sleek capitalists, with shining silk hats and irreproachable garments, rubbed shoulders with the swarthy Mexicans, stalwart laborers and forlorn remnants of humanity with wavering gait and seedy attire, and spruce young swells, with freshly-creased trousers and the latest thing in morning coats elbowed darkies and Chinamen in the endeavor to gain a colgn of variage.

The buyers were mainly men, but occasionally a bid was raised by the shriller voice of a woman, whereupon every lord voice of a woman, whereupon every lord of creation turned and gazed upon her with mild wonder at her audacity.

with mild wonder at her audacity.

The auctioneer knocked down package after package to the eager bidders, occasionally spurring them to livelier competition with furid tales of bygone glories, such as the instance of one man buying for \$5 a packet containing \$200,000 in mining stocks, and another becoming possessor of a diamond ring and \$40 worth of stuff besides.

A small heavy sack dated from Tucson was waved enticingly in the air, with the insinuating suggestion that it might contain builtion, and one man became so exceed by this glowing possibility that he lost his head and risked 25 cents on it, whereupon it was promptly knocked down

cted by this glowing possibility that he lost his head and risked 25 cents on it, whereupon it was promptly knocked down to him. A big package was held up with the inquiry, "Any of you fellows want a suit of clothes? This feels mighty like 'em, and the feller that gets this bundle will be strictly in it." The bidding was fast and furious until the potential suit of clothes was handed over to a man who put up 85 cents on the chance. "Oh! here's a dandy! This fellow shakes!" and the auctioneer waggled a promising little box before the eyes of the onlockers, one of whom promptly bid 5 cents for it, but this brilliant offer being rejected with 'scorn, it was run up to 45 cents, and the possessor given his check for it.

Aonther bundle, looking like a package from the steam laundry, was waved on high with the announcement that it felt like harness and ought to valued accordingly. The appeal had its effect, and the bundle was knocked down for the munifi-

cent sum of 90 cents.

ingly. The appeal had its effect, and the bundle was knocked down for the munificent sum of 90 cents.

Another possible suit of clothes in a fat red bundle also brought 90 cents, and then the auctioneer fell into an attitude of rapture before a big parcel, and exclaimed: "Gracious! Look at that! If you fellows could only read the value of this you'd bid high," but the crowd disdainfully snorted "wall-paper" and bid two bits.

One box from a jeweler in Pomona brought 60 cents, "and if you didn't get \$10 worth in that, you didn't get a cent." observed the suctioneer, as he handed the check to the purchaser. "Here's a dandy, now," shouted the man on the box, as he lifted a ponderous red bundle. "Fifty cents I'm offered. Darn you fellows, anyhow, that want a whole suit of clothes for four bits. I'll blow the head off of some of you if you don't bid lively now."

The fellows bid lively according to directions, but still the auctioneer was not happy, for some of the bids were disputed, and others failed to be substantiated. The auctioneer finally lost patience and proclaimed his sentiments aloud. "See here, now, if you keep on this way, something will happen; you can't both be right, you know, and I'm just going to put this thing up over again. That's the law on it, and I know all about the law. You, over there; you needn't growl; it don't amount to anything, anyhow. He'll give it to you for a quarter when he opens it. Now, listen. I'm going to put up this parcel again, and don't any fellow nod unless he means it. It's liable to cost him \$40 if he does. You hear that, now."

The crowd heard and subsided, and the disputed parcel was knocked down for a quarter.

A fresh outburst of enthusiasm was caused by an unmistakable box of clears.

The crowd heard and subsided, and the disputed parcel was knocked down for a quarter.

A fresh outburst of enthusiasm was caused by an unmistakable box of cigars, and one man became the happy possessor thereof for 50 cents.

"Now, shut up," yelled the auctioneer: "don't talk so much; I'm pid to do all the preachin," and I can't hear the bids for the row you make. You can have this room day after tomorrow and talk all you like, but I've got the floor now, and some-body's going to get put out if you don't keep quiet." So it went on, with rough "chaffing" and laughter. A suit of clothes addressed to James H. Fitzgerald of Pasadena and sent from a prominent merchant tallor's, was knocked down for \$1.50, and a package addressed to the First National Bank of Pasadena, and possibly containing lost money, brought just 45 cents.

Official-looking envelopes covered with seals brought anything from 50 cents to \$1.50, and packages valued as high as \$25 were knocked down for a dollar or two. It was a bargain-hunter's paradise, and there are many jubilant speculators in Los Angeles today whose souls are filled with rejoicing over their luck in buying securely-sealed parcels whose proper owners are among the missing.

A GENERAL STRIKE.

Pittsburgh Miners Seeking for Trouble.

They Will Establish Camps at All Pits Working Below Their Ar-bitrary Rates.

Operators Threaten to Bring New Men Into the Mines—Increase of Wages Granted by the Ironworks.

Associated Press Lansed-wire Service.

PITTISBURGH (Pa.,) May 16.—A resolution ordering a general suspensice, of work in all the mines in the Pittsburgh district was adopted at the miners' convention here today. It was also decided to establish camps at all the pits working below the

rate.

The convention was one of the largest, ever held here, and the sentiment was for calling out all miners working for the 65-cent rate or for the 60-cent rate. It was finally decided to demand the old wages. The delegates went home tonight to ascertain the sentiment among the miners, and will report to the convention tomorrow. The operators will now, it is said, bring new men into their mines. If they do there will littlely be serious trouble. there will tikely be serious trouble.

IRON WORKS INCREASE WAGES. PITTSBURGH (Pa.,) May 16.—Jones & Laughlin, proprietors of the American Iron Works, have granted their employees at 10 per cent. increase in wages. The firm 10 per cent. increase in wages. The firm employs about four thousand men, and are the greatest rivals of the Carnegie Steel Company in the manufacture of Steel Company in the manufacture of structural iron. The advance will apply to all skilled men and to all others except common laborers, who are now receiving \$1.20 per day, the recognised rate for such work. No reason is assigned for the action of the firm, but it is thought that the example will be followed by many

that the example will be followed by manyother large firms.

The Republic Iron Works will resume
work on Monday, paying the Amalgamated
Association rate of \$4 for puddling. This
will give work to 400 men who have been
idle for several months. The works are
a branch of the National Tube Works and
manufacture material for pipe.

THE WESTERN MINERS' CONVENTION.

manufacture material for pipe.

THE WESTERN MINERS' CONVENTION.

DENVER, May 16.—The convention of my destern miners today was an interesting one. The delegates from Butte severely criticised the report that they represented a portion of the organization who were of the "silk-stocking" or "upper-circle brand" of the order, and did not wish to affiliate with the other orders. The Butte miners was quite the contrary, as the plan had originated in that camp to take in other organizations.

A communication was received from President McBride of the American Federation of Labor saying he could not attend. He recommended affiliation with the order of which he was the chief officer, and, in doing so, said that the Miners' Federation would not be affected as it would still have the right of self-government. The matter has not come to a decision yet as the time will all be taken up for another day or two by the discussion of the changes recommended by the standing committees. The delegates hope to conclude the convention this week.

RAILWAY TRAINMEN'S GRAND MASTER.

MILWAUKEE, May 16 .- A local paper asserts that there is likely to be a change

in the grand mastership of the Brother-hood of Railway Trainmen. Grand Master hood of Railway Trainmen, Grand Master Wilkinson, it says, is in a fair way of being ousted and James Morrison of New York elected in his stead. There will also be a general reduction in the sal-aries of the board officers.

FOR HOUSEKEEPERS, AND PRACTICAL HEALTH CALENDAR. FRIDAY, MAY 17

Temperature yesterday: Maximum, 74 deg.; minkmum, 54 deg.; cloudy.

Sow not in sorrow; Fling your seed abroad and know,

BREAKFAST. Cracked Wheat, Dates, Breakfast Stew. Browned Hominy, Fopovers. Ginger Cakes. Coffee. DINNER. Aepargus Soup. Bolled Fish. Golden Mount Potato. Lettuce. Grape Sweet Pickles. White and Graham Bread. Rhubarb and Raisin Pie. SUPPER. Potato Chowder. Crackers. Bread and Butter. Prunelles. Cookies.

ASPARAGUS SOUP.

Boil ome quart of asparagus, cut in inch lengths, in quart of water until tender; rub through colander and return to the water in which it was boiled. Heat one pint milk, etir into it one abheepoonful butter rubbed with one of flour, and cook a few moments. Season; pour in asparagus. When boiling hot, pour over toasted bread, cut into dice. Serve at once.

A DIFFICULT PROBLEM.

Picking the Winner of Saturday's Big Bicycle Race.

Picking the Winner of Saturday's Big Bicycle Race.

The sole topic discussed by local wheelmen on the streets, at the club, or on "cycle row" is the twenty-five-mile invitation race, which is billed for tomorrow afternoon at Athletic Park. In addition to the incentive offered in the shape of a \$150 tandem wheel for the first place, is the fact that the winner of this event is to be pitted against Tom McAleer, the Southern California champion, and opinion seems to be divided, when the question as to which of the six men entered for it has the best chance of winning it, is put.

With such a field as Emil Ulbricht, Godfrey Schmidt, Fritz Lacy, Phil Kitchin, Bill Hatton and Willie Jenkins to pick from, it is, indeed, as difficult matter for even the closest watcher of form to decide as to which will prove the best man. That the race will be for "blood" is assured, for not only will the riders be paced by tandems, but all disposition to loaf will be discountenanged by the sommittee in charge.

All of the competitors in this event have

by tandems, but all disposition to loaf will be discountenanced by the sommittee in charge.

All of the competitors in this event have been working hard every-day at the track, and several sensational miles, halves and quarters are recorded almost daily.

The report that Foster would ride in this race was denied yesterday from an authoritative sourse. He is in the city, however, together with Allen Jones, Billy Burke and Casey Castleman, who are enroute to San Bernardino and Santa Ana.

The annual meeting of the Los Angeles Atheletic Club was held in the clubrooms last Wednesday evening, at which the following nominations for directors were W. F. Kennedy, C. P. Lyndall, C. M. Baker, J. E. Brink, W. J. Allen, C. W. Chase, Alfred Cooper, Freeman G. Teed, Paul Flammer, H. C. F. Smith, E. S. Pauly, D. O. McGarvin, S. P. Hensley, W. M. McStay and C. F. Perrin. The election of officers takes place the second Wednesday in June.

THE TRAMPERS' ANNEX.

THE TRAMPERS' ANNEX.

The Trampers' Annex of the Los Angeles Athletic Club will take a trip to Sierra Madre Villa next Sunday. Starting from the clubrooms at 9 a.m., they will take the çars to Garvanza, from which place the remainder of the trip will be made on foot.

Judging from the advance sale of tickets during the past few days the benefit to be tendered at the Los Angeles Athletic Club this evening to Prof. Billy Gallagher, the popular boxing instructor of that institution, promises to be the most successful event of the kind held in this city for some time past. An unusually big programme of wrestling, boxing, fencing, music and specialties of various kinds has been arranged by the committee in charge, and an enjoyable evening's entertainment is assured.

HARDLY a turn can be made in any direction in the store without running up against something new and desirable. Every day we are opening new things for early summer; desirable goods; things that are scarce; largely increasing the business over the trade of a year ago. We believe in advertising. We firmly believe there is no money in advertising unless the truth is spoken, goods rightly represented, quantities accurately given. Facts; nothing but facts interest the public. Employees must be the right sort, attentive to business, polite to the public and good workers; we have that kind. Every line of this advertisement is written with the one object in view; to sell goods; read it. Duck Suitings.

There is still the liveliest selling in duck suitings; one hundred different styles to select from; thirty six different patterns are in the window, fully 64 more are to be seen on the counters; almost every style you can think of is here. The prices are from 8 ct to 30c a yard, most of them are 15c yard; scarce colorings in abundance.

Duck Suits.

Another line on sale today. The styles are different, the prices for the latest are \$2.25 and \$3 a suit; other styles, all new inside of three weeks, \$1.25, \$2, \$2.25 and \$2.50. We have been surprised at the big sale for these duck suits; ready made; better made than you can make them. The prices are certainly in favor of the buyer.

Cotton Dress Goods.

A new line on the counters today; 61c a yard for a nice ine of blue and white checks suitable for waists, outing dresses, shirts and skirts; better qualities in the better styles for 8c, 10c and 12½c a yard. A little odd lot of wash dress goods, they have been 20 to 35c a yard, mostly good styles; now, 81/3c a yard; they are 32 inches wide.

Separate Skirts. A special lot of all wool cheviots, black and navy \$5 today for the first.

New Millinery.

Another new shape in sailors, one of the best of the season; the price from 25c up to \$2; special value for 50c.

Newberry's. ATTENTION RALSTONITES!

The long-delayed Ralston Foods have arrived.

JACOBY BROS

The Third Day's Session of the Con vention Was Fruitful in Result.

The Meeting Closed With Much Good Feeling—A Luncheon—A Pretty Reception in the Evening at Guild Hall.

The third and last day of the Episcope Dhocedan Convention was opened yester-day at the morning essaion with the in-troduction by the Rev. Dr. Dotten of a resolution looking to the increase of the personnel of the convocation, which is at present too limited and restricted. The resolution was carried. The Committee orted adversely to a proposi sions. The question was debated by the Rev. Drs. Trew, Spalding, Brown and Tay ion to postpone action till the next convention, and Dr. Spalding, beannual convention, and Dr. Spaiding, be-leving that this carried with it in spirit the rest of the remaining resolution, moved that the remaining resolution be

The bishop then read his consent to the division of the diocese and the proposed

Dr. Spalding called a convention, to be directly after lunch, to take steps orwarding the actions of yesterday to eneral convention.

for forwarding the actions of yesterday to the general convention.

The Rev. Mr. Clarke read the report of the Committee on the State of the Church. Rev. Mr. Cowle moved an amendment to the canon concerning the Committee on Retreats, and thought that retreats should be an ansitution of the church. He believed that the tdea of the most successful retreats have emanated from convocations. The speaker referred to the first retreat held at Garvanza, and the interest created on the part of the laity, whereby funds were easily raised to meet many necessary expenses. The retreaticals with the undercurrent of life ingaticals, and there should also be retreats for laity and for women.

Rev. Mr. Tayler with strongly in favor.

Rev. Mr. Tayler was strongly in favor of retreats, and believed the rest and conof retreats, and believed the rest and con-templation afforded thereby to be very necessary, but did not think it should be one of the institutions of the church. It should be rather a spontaneous feeling on the part of the individual. The whole idea of the retreat would be spoiled if considered an institution.

considered an institution.

Rev. John Gray thought that canonical legislation was not good for the spiritual raterests, and considered it moportune to bring the matter before the convention of giving constitutional and canonical precion to the spiritual ife of the church constitutional and canonical pro-to the spiritual ife of the church. Mr. Cowie withdrew his amendment dution was passed.

WOMEN VOTE FOR VESTRYMEN.

The important question was then taker up of allowing women to vote for the vestrymen and trustees at the annual Baster election of officers. The original mover of the amendment in favor of this was the Rev. Mr. Wilson of St. Andrew's, was the Rev. Mr. Wilson of St. Andrew's, Oakland, who moved that the said amendment should read as follows: "The election for vestrymen and trustees shall be by ballot, and mny person of lawful age, on attendant upon the services of the parish, who for the previous sixty days shall have been registered a communicant, and any person of like age who shall have been a member of the congregation for a like period, and has regularly contributed to the support of the parish the minimum amount of subscription to be prescribed by such parish for itself, shall be entitled to vote."

Rev. J. D. H. Brown of Pomona moved that it should be first known if the women desired the suffrage, and that the amendment be laid over to the next convention to furnish an opportunity to find out how many desired it. The speaker thought that the women already possessed a great and sufficient amount of influence, but if they really desired it, he believed the clergy would wilkingly grant it them. He did not think the unfortunate position of voting if they did not desire it should be forced upon them. A priest's office is not one for a woman to occupy; the speaker said he believed it would reduce her position and lessen her influence, and it was uncalled for that the clergy should force the suffrage upon her, and he consistered it an impertinence to do it. Under the guidance of their priests they should form a petition if they so desired.

Rev. Mr. Adame said he was not aware that any women of the church desired to usurp the position of priesthood; they simply wanted to have a voice in the affairs of the church. The women of Indiena had been permitted to vote, with great and good results, and the women of the parishes could always be depended upon. The question of politics was not at all connected with the question. The speaker advocated that the word male be truck out, and all communicants under the regulations of the diocese be permitted to vote.

The Rev. Mr. Wilson then disclaimed any imperimence in meantains. Rev. J. D. H. Brown of Pomona moved that it should be first known if the women

the regulations of the diocese be permitted to vote.

The Rev. Mr. Wilson then disclaimed any impertinence in presenting the amendment, and said the woeful results feared by his reverend brother were entirely subrications of his own imagination. It would be eminently desirable in some parishes, while perhaps not in others, and the speaker thought that parishes should be given the right to do as they considered best. He wished his hearers to distinctly understand that there was no connection at all between the question at issue and the movement of women's rights now so prominent before the world. The question was one of simple justice; the women do the larger part of the parish work, in the way of contributions, and many other ways, and yet they do not have any voice in the conducting of church affairs. He then seconded the motion that the matter be laid on the table.

An amendment was then moved by Rev. J. D. H. Browne, and seconded by John Wigmore, "That this convocation has no direct evidence that the women of the church desire the change, and therefore refer the question to the various parochial and missionary organizations of women, with the request that they express their judgment as to the advisability of the cange, and, pending their action, the whole matter be referred to the next annual convention." By a standing vote this motion was lost.

Dr. Spalding said that the question had been heaven.

whole matter be referred to the next annual convention." By a standing vote this motion was lost.

Dr. Spaiding said that the question had been before the convention for eighteen years, and though it had been bobbing up constantly it had never been thoroughly understood. It was a deep and profound question, which had distinctly nothing to do with the female suffrage movement. It is an intense injustice that the women should not be allowed to vote, and they should certainly be given the right; if it were not for the Woman's Auxiliary and societies, the men would have a hard time of it. At any rate, the speaker thought it should be tried, and should not be referred back to the ladies, as they had not asked for it; he approved the amendment to refer the matter to the parishes.

Rev. Mr. Ritche them moved that the ladies be given an opportunity to say anything bearing upon the subject, and suggested that Mrs. Lawber come forward and speak.

THE NEW WOMAN.

THE NEW WOMAN.

THE NEW WOMAN.

Mrs. Lawber, who is from San Francisco and a prominent church woman, said that she spoke under the direction of the church, and asked that the question be not referred back to the women. If asked to vote when right, the women will obey the voice of the church.

Mrs. Andrews of Christ Church was strongly in favor of the women having a voice in the election of the church officials, as all over Christendom they cheer-

fully and gladly do to the greater part of the work of the work.

Mrs. F. W. Adams of East Loe Angeles
believed that nearly all the women of the
parishes would desire to vote at the annual elections; many of them are not represented by men and therefore have no

nual elections; many of them are not represented by men and therefore have no voice.

Rev. John Gray said the question was so broad that the women should have due and proper notice, and he ventured to assert that comparatively few of the church-women knew the question was to come up today. When the question was presented, it should be as far as possible before a large majority of the women where their views might be presented.

Rev. B. W. R. Tayler said that he was in favor of the coming of the new woman-provided she does not come in on a bicycle. He was in favor of woman suffrage, both in church and state. It was not fair that woman should be taxed and refused the ballot when every wretched tramp could vote and not have a cent to pay taxes with. On the same principle the women who take a large share in the work of the church should be permitted the elight concession which the amendment contemplated. It does not mean that women are to be members of the convention, the simple request was to be permitted to vote at the election of vestrymen. He was in favor of the amendment.

Mr. Wigmore said that under the constitution women could not vote for vestrymen because they could be eligible for trustees.

Rev. Mr. Clark apeke of the glaring in-

trustees.

Rev. Mr. Clark speke of the glaring in Rev. Mr. Clark speke of the giaring inconsistencies of the opponents to the question. The fairest way would be to have the matter go before all the parishes where the men could be instructed by the women as to whether they wished to vote; they would then be able to judge by the number of women present and the interest shown whether it were best.

Rev. Mr. Easter spoke of the good effect of the women's vote in parishes where he had been, and that the men's vote was correspondingly improved.

Rev. Collier of San Francisco appreved that the option be given the women, as no harm could be done by so doing.

Rev. Mr. Neale thought that those who wished the privilege should have it, and that the women would vote intelligently as they work intelligently.

Rev. Mr. Brown believed that the question should be thrown upon the next convention, which will be after the division, and then each diocese may decide for itself.

The original Wilson amendment, strik-

self.

The original Wilson amendment, striking out the word male and inserting the
word person, was put and finally carried
63 to 19.

F. H. Church moved the resolution,
"That this convention hereby expresses its
appreciation of the generous hospitality

"That this convention nerely expresses its appreciation of the generous hospitality extended to the delegates by the churchmen of Southern California.

"Resolved, that the thanks of the delegates are hereby extended to the rectors, vestry and parishoners of St. Paul's Church, and the churchmen of Los Angeles."

The committee of six appointed yester-day by the chair consists of Rev. Dr. Trew, Judge A. M. Stevens, H. T. Lee, Rev. Dr. Bakewell, W. A. M. Van Bok-kelen and A. N. Drown.

The afternoon session was devoted to the clearing up of miscellaneous busi-ness

A LUNCHEON.

A delicious luncheon was served yester-day to the delegates by the ladies of St. John's. The decorations of the tables were elaborate and artistic. The bishop' were elaborate and artistic. The bishop's bable was lovely in purple and white decorations, and was presided over by Mrs. Bowers, assisted by the Misses Knox, Cullen, Tarbell, Folson and Bowers.

Mrs. Moore's table was pretty with masses of pink and white sweet peas; she was assisted by Mmes. Crutcher and Hammond, the Misses Griers and Miss Bassett.

samett.

Mrs. Strange's table was ornamented with graceful masses of yellow marguerites; she was assisted by Mrs. Wesley Clarke and the Misses Cooley, Mather, Auth and Powler.

Clarke and the Misses Cooley, Mather, Ault and Bowles.

Mrs. Rase's table was dainty with quantities of white carnations and marguerites; she was assisted by the Misses Woolverton, Ruts. Kendrick, Conway and Daft. Mrs. Dunn's table was fragrant with red carnations and ferns; she was assisted by the Misses Richardson, Miss Hines and Miss Bleecker.

The young ladies who assisted at Mrs. Sellwood's pretty table, were Mrs. Sellwood, Jr., Mrs. Vincent, the Misses Drummond, Stone and Rounsefell.

RECEPTION IN THE EVENING.

RECEPTION IN THE EVENING.

A delightful reception was tendered in the Guild Hall of St. Paul's last evening the ladies of the combined parishes of a Angeles, to Bishop and Mrs. Nichols, a visiting clergy, lay delegates and their Los Angeles, to Bishop and Mrs. Nichols, the visiting clergy, lay delegates and their families.

The Reception Committee consisted of the following ladies:

The Receptual Transfer of the following ladies:

The Lodge Indulges in an Enjoyable

Banquet.

A banquet was given by the Masons of the South Gate Lodge at their lodge-room, corner of Thiriteth and Main street, on Wednesday evening, upon the first anniversary of the opening of South Gate Lodge.

wednesday evening, upon the first anniversary of the opening of South Gate Lodge.

Two hundred and seventy-five guests were present, including many prominent Masons of this city, and the banquet was a pronounced success. The speech of the evening was delivered by George Varcoe, worshipful master of Pentalpha Lodge, and was one of the best speeches upon Masonry ever given in this city. Worshipful Master Wolfe of South Gate Lodge gave a resume of the progress of the lodge during its year of existence, in which time it has increased from a membership of forty to over one hundred. A novel feature of the evening's proceedings was the initiation of a candidate by past masters, a most unusual thing in this order.

Among the prominent Masons present were: Past Grand-Master Nichols and Past Masters Cooper, Hornbeck, Varcoe, Kingsley, Prager and Foshay.

Unappreciated Sevenade

Unappreciated Serenade.

The young ladies at University have no soul for music or sentiment. One of them observed three dark figures "approoking" around under her window a night or two ago, and promptly and naturally suspecting burgiars, made the welkin ring with her shrieks for assistance. The head of the family rushed out to investigate, and the neighbors came to see who was killed, when it transpired that the "burglars" were but three red-faced and wrathful University boys who had only called around to discourse sweet sounds under the window of the lady of their dreams. Mutual explanations followed, but the serenade failed to come off, and three college boys are nursing their sprained sentiment and vowing to eschew midnight tinklings on guitar and mandollin from this time forth forevermore. Unappreciated Serenade.

A Bandit's Daughters. The two young daughters of Chris Evans, the notorious bandit, were brought to Los Angeles on Wednesday by Father Farrelly of Visalia and placed in the Or-phan Asylum at Boyle Heights.

RAILROAD RECORD. THE CONDUCTORS

Will Hold Their Next Convention Here.

A Special Excursion to Pasadeni and Back Over the Elsc-tric Road.

New Invention to Bun Trains Two Hundred Miles an Hour—Jim Hill's Deal—Canadian Pacific Boycott.

Angeles will be the scene next year Railway Company of this city, a joint reso-lution was adopted by the City Council lution was adopted by the City Council and the Merchants' Association of Los Angeles to invite the Order of Railway Conductors to hold their annual convention for 1896 in this city. In pursuance with such resolutions the following telegram was sent yesterday, addressed to the care of E. T. Haggin, delegate from Los Angeles to the Railway Conductors' convention now in session at Atlanta, Ga.:
"To the Order of Railway Conductors

"To the Order of Railway Conductors of the United States, Canada and Mex-ico, care of E. T. Haggin, Markham Hotel, ico, care of E. T. Haggin, Markanta Association of Los Angeles extends you a cordial invitation to hold your next session in this city, which is famous for its hospitality. If you visit us, the city and its pleasures will be yourd to command.

"By order of the president.

"J. E. WALDECK,

"Secretary."

"Secretary."

The following answer was received:
ATLANTA (Ga.,) May 16, 1895.

J. E. Waldeck, secretary Merchants' Association, Los Angeles: Your wire received. Los Angeles will get our next

sociation, Los Angeles: Four wire received. Los Angeles will get our next convention.

(Signed) E. T. HAGGIN.

This convention will be one more important event to be chronicled in the history of this city next year. There is no more intelligent body of men, existing as an association in the United States, than the Order of Railway Conductors. The convention means that it will bring here from 500 to 1000 bright, intelligent men, accompanied—those who have them—by their wives. The freedom and hospitality of Los Angeles is extended to them in advance and it may be safely said that no effort will be spared by its citizens to make the visit of the railway conductors a pleasant one, one that they will recall with pleasure after having returned to their respective duties. Mount Lowe will assuredly be one of their principal points of objective, the more so perhaps as it was at the instigation of the auditor of the Terminal Railway Company that the resolutions were adopted extending the invitation to the railway conductors to hold their convention here next year. But the Terminal Company will not have a monopoly of the pleasures to be extended, for it can be promited that there is not a railway company in this city but will do all a lis power to make the visit of the conductors as agreeable as it is in its power to do.

AN ELECTRIC EXCURSION.

Another special excursion went up to Pasadena and back yesterday afternoon on the electric road, personally conducted by General Manager E. P. Clark and on the electric road, personally conducted by General Manager E. P. Clark and Gen. M. H. Sherman. The party comprised a car load of Santa Monicans, members of the Chamber of Commerce of that place, Senator Cole, Hon. H. G. Weyse, Judge T. R. Owen, W. T. Gillis, Dr. N. H. Hamilton, W. S. Devan, D. J. Kenneally, W. S. Schee, Robert F. Jones, James Gray, T. H. Wells, G. D. Richmond, T. H. James, H. X. Goetz, M. H. Kimball, H. A. Barclay, J. S. Wilson, E. D. Suits, H. W. Kellar, A. Mooser, O. G. Tullis, Myron Roth, W. H. Dowsing, J. B. Proctor, E. B. Woodworth, T. C. Paxton, Seward Cole and others, including officers of the railroad company and some others. The car left the corner of First and Spring streets at 1.45 p.m. and reached Hotel Green, Pasadena, in exactly forty minutes after, no stop being made to take on passengers. The Santa Monicans, who expect soon to see the electric road extended to their pretty seaside resort, were exceedingly well pleased at the amoothness of the track, the evenness of the running and, of course, with the scenic panorama spread out before them. When they had ax track, the evenness of the running and, of course, with the scenic panorama spread out before them. When they had expressed their admiration for the elegant new cars, they were further pleased by Gen. Sherman assuring them that the new cars ordered for the Santa Monica line are to be even finer and will cost \$300 each more than the Pasadena cars. The guests were taken around the circuit of Pasadena and shown the power-house and brought safely back. It will not be long, they feel sure, before they can travel by electric cars all the way from Santa Monica to Pasadena.

TWO HUNDRED MILES AN HOUR.

TWO HUNDRED MILES AN HOUR.

A. Graves of Chicago is in the city to interest capitalists in the Cook elevated electric-rallway system, he being one of the owners of the patents pertaining to this new device for annihilating time und distance. Mr. Graves is hoping that a line of railways of this pattern may be built in this section, to demonstrate to the world what the new kind of road can do, and, incidentally, to further advertise Southern California. As indicated above, the railroad is elevated, the rails, one above the other, being supported on a framework, or truss, upon upright posts, semething like fourteen feet bigh. On each side of this elevated truck the care will run. On the top of these truses is a steel trough, eloping upward and cutward from the center, and in which travel the truck and anti-frictitous wheels from which suspend the car. At such side, and extending along the lower portion of the truss, is a similar rail, sloping down and out. On this rail travels the driving wheel of the car. The driving wheel signaluly takes more and more of the overhead trucks, the result being that us the speed increases the driving wheel of the car. The driving wheel gradually takes more and more of the loud, and both overhead and driving wheel slightly climb their rails, and in proportion to the speed of the driving wheel increases the driving wheel gradually takes more and more of the loud, and both overhead and driving wheel slightly climb their rails, and in proportion to the speed of the driving wheel increases the driving wheel increases the driving wheel gradually takes more and more of the loud, and both overhead and driving wheel increases the driving wheel in proportion to the speed of the driving wheel from the car to jump the track under any ofreumstances or rate of speed, even and or removed, as a strong arm extends out of the track are to jump the track under any ofreumstances or rate of speed, even and or the proportion to the speed of the driving wheel in the car to jump the track under any of the TWO HUNDRED MILES AN HOUR. contents from Fact, it is utterly impossible for the car to jump the track under any eigenstances or rate of speed, even should every wheel in the car be broken or removed, as a circular standillar and hooks over the upper vertical rail. Its supporting power is everal times the weight of the car and its contents. As the car is carried by the wheels at the upper corners, a side gravitation is secured at the bottom toward the lower rail. This action of a beveled drive wheel sagnist us beveled rail is an emirely new application, and one of the greatest importance. The drive wheel is mounted directly on the axis or shaft of the armsture of the motor, and is thus capable of environously high speed. Under the which, with a driving wheel of only thirty inches diameter, gives the car a speed of 15,000 feet per minute. Larger wheels may be used if desired, and motors can be well as more more minute involves no difficulties, which, with a driving wheel of only thirty inches diameter, gives the car a speed of 15,000 feet per minute. Larger wheels may be used if desired, and motors can be well as more more more involved in a small inverted trough on the under side of the upper rail. The accordance of the motor is conducted from the power station, through a flat comper conductor, placed in a small inverted trough on the under side of the upper rail. maintained with eafety, and the in-n possesse many advantages over ther system for rapid transit. THE SHORT LINE CASE.

vention peasesse many advantages over any other system for rapid transit.

THE SHORT LINE CASE.

OMAHA, May 16.—It seems impossible to teil how far or to what extent the relationship between the Union Pacific and Oregon Short Line will be affected by Judge Sanborn's order in the Short Line case. Officials at headquarters are somewhat at sea as to just what the order contemplated. Viewed from almost any standpoint the conditions are such that it may contemplate any further propositions. It may mean the payment of interest on coupons in default, plus the interest accrued on the date the property goes to the new receiver and to accrue during the life of the receivership; coupons on all first mortgages on the entire Short Line system or coupons plus interest accrued on the entire system and to accrue during the life of the receivership. It is believed that should the American Loan and Trust Company attempt to pay off the interest defaulted and taking the four propositions as a basis in view of the uncertainty attaching to the order, it is roughly approximated that the amount involved in these propositions will range from \$250,000 to \$1,250,000.

General Solicitor Thurston to a Best proposition as to exactly what the order of Judge Sanborn contemplates. He said: "I have not seen the full text of Judge Sanborn's order or opinion in the matter of the Short Line receivership, but there can be no doubt but that the Judge has decided in our favor as fully and completely as was saked. We conceded in the argument that if the second-mortgage holders would pay or give bond to pay the first mortgage interest, then they were antitled to an order putting their receiver in charge of the property. On the hearing we offered to withdraw from the argument if they would pay the first mortgage interest. All we contended for was not prepared to do, and insisted that their receiver was entitled to possession of property without requiring them to pay the interest. All we contended for was the right of retention by the present receivers,

gage interest, until the first mortgage interest was paid.

"I am not able to state just what amount it will be necessary for the second mortgage-holders to advance to meet the deficiency in the first mortgage interest, but think there is something like \$300,000 to \$3500,000, and in my judgment it is not at all likely that the second mortgage-holders will raise and pay this money for the mere purpose of putting their receiver in charge of the property during foreclosure proceedings. It stands, however, conceded that the second mortgage under its foreclosure bill has the absolute right to possession of the property upon taking care of the first mortgage interest."

JIM HILL'S DEAL.

NEW YORK, May 16.—The Wall-street News Agency says: "There is good authority for the statement that James J. Hill has succeeded in closing some kind of a deal involving his connection in some way with the Northern Pacific affairs. The neture of the deal cannot be exactly learned, but we understand that the purchase or control of Northern Pacific second-mortgage bonds, other than those field by the Adams committee interests, in concert with whom Hill is understood to be acting, plays an important part therein. JIM HILL'S DEAL.

by the Adams committee interests, in concert with whom Hill is understood to be acting, plays an important part therein. "Hill is expected to exrive from London tomorrow night. Samuel Hill is coming Bast to meet him. The recent decline of the junior bonds and stocks of the company is thought to be due to the belief on the part of some holders that the reorganisation of the property is likely to be severe. It is pointed out that the control of the second and third mortgages would be unnecessary unless drastic reorganization was intended. The recent improvement in the company's business, it is thought, may interfere with the drastic plan."

CANADIAN PACIFIC BOYCOTT.

CHICAGO, May 15.—More definite infor-

CANADIAN PACIFIC BOYCOTT.
CHICAGO, May 15.—More definite information regarding the Canadian Pacific boycott by the trunk lines was received today by the Western transcontinental lines, and it in no way tends to relieve the situation. The direct cause of the boycott was the refusal of the Canadian Pacific to withdraw all its orders from the New York market. About two weeks ago the trunk lines held a meeting at which an agreement was reached which would, it was supposed, put an end to the fight between the Canadian Pacific and the Grand Trunk. Under this agreement the Canadian Pacific differentials were to be shown in the trunk-line agreement the Canadian Pacific differentials were to be shown in the trunk-line rate sheets on the condition that the Canadian Pacific would withdraw all its orders from the territory of the trunk lines and leave to them the distribution of business arising in their territory. The Canadian Pacific refused the conditions, and its tekets were promptly turned toward the wall. Now the real trouble will begin, for the Canadian Pacific will, without doubt, increase the number of its orders in New York, pay large commissions on emigrant business and make a hot fight generally for its share of business.

PETALLIMA TO SAOVIA ROGA

PETALUMA TO SANTA ROSA PETALUMA TO SANTA ROSA.

SANTA ROSA, May 16. — a very important meeting was held here today. The meeting was called to consider the proposition of James Keyes and others to build a narrow-gauge railway from tidewater at Petaluma to Santa Rosa. The proposition asks that Santa Rosa take 345,000 and Petaluma \$25,000 of the \$110,000 fifteen

193 SOUTH MAIN STREET.

WITH THE OIL MEN.

NEW WELLS BEING PUMPER AND OTHERS DRILLED.

Good Demand for the Product Names of Some Factories Using It — The Great Saving in Cost That is Effected.

Near the corner of Douglass and West State streets the Dobeney Oil Company has erected a new derick and will at once be-gin drilling a new well.

secreted a new derrick and will at once begin drilling a new well.

Between Court street and Edgware road the Doheny-Connon Oil Company has two wells ready to pump. The necessary machinery is on the ground, and pumping will be commenced without delay.

What are known as the Bayer wells—eight in number—are all pumping, four of them in Second-street Park, belonging to Bayer & East, and four on the hill above the park, belonging to Bayer & Bens.

Turner Bros. are also working a full force on their wells. In these, as also in the wells that are pumping, the flow is steady, none of them showing any sign of diminution since the first day, and some of the best wells have now been pumping steady for about a year.

It is noticed that the deep wells, those having a denth of 700 few said.

steady, none of them showing any sign of diminution since the first day, and some of the best wells have now been pumping steady for about a year.

It is noticed that the deep wells, those having a depth of 700 feet and over, yield the best results. The flow is stronger than that of the shallow wells.

An important point to be noted in connection with the business is the increased demand for the oil. Factories that formerly used coal are now using this oil, finding it better in that the heat in the furnaces can be more evenly regulated, and also that it is so much cheaper than other kinds of fuel.

Following are some of the principal establishments in this city which are now using it: Southern California Cracker Factory, the Macaroni Company, Los Angeles Lighting Company, Los Angeles Iron and Steel Company, Undahy Packing Company, Philadelphia Brewery, National Ice Company, Philadelphia Brewery, National Ice Company, Coid Storage Company and some of the flouring mills.

Besides these, it is said that the soda works and the soap works in this city intend changing their furnaces so as to use oil. Several of the larger botels and many of the machine shops also use it. The Vernon Pipe Works at Pasadena have, as reported, just made a contract for 5000 barrels, according a period of six months. The quantity consumed in these factories runs all the way from ten barrels daily up to over one hundred barrels. The Los Angeles Electric Railway Company is probably the heaviest consumer of oil in the city.

The chief reason of the increased demand for it is us cheapness. Present prices are about 80 to 85 cents a barrel of forty gallons. Before the Los Angeles wells were in operation those factories runs all the way from ten barrels daily up to over one hundred barrels. The Los Angeles wells were in operation those factories runs all the way that the price should not be less than \$1 a barrel. Eight months ago it barrel to \$2 and other places which used cit as fuel had to get it from the Ventura wells, and were paying for it f

oil is than coal, it is estimated that a factory using an average of 100 barrels of oil a day makes a saving of \$60 a day in fuel, the power produced being the same, snd the entire daily saving to factories in Los Angeles by using oil instead of coal is over \$1000 a day.

The laying of the pipe line from the wells to the great central oil tank near the Santa Fe roundhouse is progressing fairly well. It is being laid three feet below the surface of the ground, and is being screwed together with heavy tongs, so that there is no possibility of leakage when the oil flows. Yesterday the men were at work on it on Beaudry avenue between First and Court streets. It will probably require from two to three weeks yet before it is completed.

IN SOCIAL SPHERES.

Mrs. J. B. Banning gave a charming luncheon on Wednesday. Covers were laid for fourteen, and the table was exquisitely decorated with the blossoms of the white cactus, which filled a great cut-glass bowl in the center. Vases of white gladiola were artistically arranged about the dining-room.

The guests were: Mmes. George Patton. George Denis, Banning, Wesley Clarke, William Banning, Shorb, Tom Brown, Gorham, Elliott, the Misses Nannie Wilson, Mary Banning, Ida Banning, Russell.

A LUNCHEON.

A LUNCHEON.

Mrs. C. B. Woodhead gave a delightful luncheon yesterday, in honor of her mother, Mrs. B. H. Gard of Ohlo, who is visiting her. Covers were laid for sixteen. The table was prettily decorated with nastartiums, which overflowed a bowl in the center, and were scattered in graceful trails over the table. In the dining-room, hamboo and great leaves of the castor bean were effectively arranged; the drawing-room was pretty with sprays of fuchsia and bowls of roses. Among the guests were: Mmes. J. B. Owens, R. A. Galiaher, Campbell, Larkin, Trafton, Young, Smith, Liddelle, J. H. Martin, Mulford, S. P. Mulford. A LUNCHEON.

of R, but finally, after repairs, it was triumphantly and brilliantly given. The last number was a caprice, by Mr. Gottachalk, a local composer, and proved to be a fascinating little composition; it was given a piceasing reading by Mr. Francisco.

A FARBWELL PARTY.

A FAREWELL PARTY.

A large number of young people of Epworth Methodist Episcopal Church were very pleasantly entertained last Tuesday evening at the home of the Sunday-school superintendent, Miss Martha Fowler of West State street, in honor of Charles Brumund, who leaves in a few days for an extended tour abroad. For the past year Mr. Brumund has served most efficiently as secretary of the Sunday-school and vice-president of the Epworth League. During the evening a short, but pleasing programme was rendered, after which there were games, the unique prizes swarded causing much amusement. Late in the evening the company joined hands in a circle and sang "God Be With You," which was followed by a prayer.

Aiex Docter Acquitted of Embessi ment by a Jury in Judge Smith's Court.

The Proponents in the Wilson Will Case Introduce Their Evidence. What They Expect to Show. General Court Notes.

At the City Hall yesterday the Sewer Committee prepared a few recommendations, and there was some other committee work by some of the Councilmen.

At the Courthouse yesterday the trial of the Docter embezzlement case was concluded, the defendant being acquitted, much to the surprise of all concerned. In the Probate Court the proponents of the will of the late Mrs. Bridget Wilson commenced to introduced their evidence. A purpose of matters of minor importance menced to introduced their evidence. A number of matters of minor importance were disposed of in the other courts.

AT THE CITY HALL.

Bellevue Avenue Grade. ITS CHANGE WILL FACILITATE RAIL-WAY EXTENSION.

WAY EXTENSION.

The matter of the grade of Bellevue avenue, between Buena Vista street and Beaudry avenue, was considered at a meeting of property-owners held for that purpose Wednesday evening at Bouttier's Hall at Bellevue avenue and Montreal street. City Engineer Compton, Councilman Snyder and Manager Clark of the Pasadena and Pacific Railway Company were present.

one or two exceptions, agreed upon a grade which, it is expected, will lead to the laying of the Santa Monica branch of the railway in question along Bellevue avenue, at least between the points above rectioned.

enticed. It appears that some time ago Mr. Clark, general manager of the Los Angeles onsolidated Electric Railway Company, ibmitted a proposition to the owners of roperty on Bellevic avenue whereby if it is would effect the changing of that orroughfare to a certain grade the commany would agree to build a railway line in that street and operate it with a certain fixed service.

on that street and value in fixed service.

In submitting the proposition Mr. Clark marked in pencil on a profile map of the street what he thought was the grade to which he wished the property-owners to have the official grade of the street

showed a grade which made the fills, above the present grade and the cuts at other points below the present grade just twice as much in each case as was intended.

Without this misconception being discovered an ordinance of intention was adopted by the City Council for the changing and establishing of the grade to a grade such as that indicated by the Pencil lines which had been made by Mr. Clark.

pencil lines which had been made by Mr. Clark.

At the meeting held Wednesday evening the facts in connection with the misunderstanding which had arisen were explained and it was stated that the proceedings for the establishment of the unintended grade could, if desired, be abandoned and new proceedings instituted for the stablishing of the grade as intended. The matter was discussed quite thoroughly and nearly all the property-owners who were present, a number of them being ladies, consented to have the present proceedings abandoned and new proceedings instituted for the grade intended. Such a grade, it was explained, would make cuts and fills which, at the greatest would not exceed four feet, or, possibly, in one or two instances, four and one-balf feet. One or two of the property-owners who were there objected to the proposed grade.

It is expected that the necessary profile

showing the intended grade will be pre-pared in the City Engineer's office as soon as may be and that the City Council will either next Monday or one week from next Monday be requested to abandon the pro-ceeding for the unintended grade and to adopt the necessary ordinance for the grade intended.

grade intended.

After this has been done it will probably be a number of months before the grade proposed can be finally established as there is a good deal of official red tape which will have to be compiled with in order to carry out the proceedings proparly.

The Sewer Committee.

FAVORS MAKING CLAIMS FOR RE-PAIRING HOLENBECK SEWER. The Sewer Committee met yesterday and prepared the following recommenda-tions for presentation to the City Council: "We recommend that the ordinance of

intention to sewer Fifth street from Pearl street to a point thirty feet east of the

intention to sewer Fifth street from Pearl street to a point thirty feet east of the east line of Fremont avenue, as presented by the City Engineer, be placed upon its passage.

"We recommend that the petition from H. L. Fudicker, asking that certain sewers be constructed, be referred to the City Engineer to report on the practicability of the routes presented in the petition, and what sewers are necessary to properly sewer this section.

"We recommend that the City Engineer be instructed to prepare and present the necessary ordinance of intention to construct sewer on Ninth street, between Main street and Broadway, as petitioned for by S. E. Bisbee and others.

"In the matter of the sewering of Ottawa street from Pearl street to Georgia Bell street, thence to Eleventh street, if Georgia Bell were opened from Eleventh street 120 feet northerly, we recommend that the petitioners be notified that it will be necessary for them to secure the right-of-way from Eleventh street north of Georgia Bell street, for a distance of 120 feet across private property before said sewer can be built.

"In the matter of repairing the Hollenbeck Arroyo sewer, the City Engineer reports that the cost of repairs on the section built by Frick Bros. was \$716.97, and the cost of repairs on the section built by Frick Bros. was \$716.97, and the cost of repairs on the section built by Frick Bros. was \$716.97, and the cost of repairs on the section built by Little was \$88.50. We recommend that the City Attorney be distructed to make demands upon each of said parties for the above amounts."

Cement Testing Results. A MISAPPREHENSION IN REGARD TO THE FACTS.

r

11

In the matter of the making of tests of cement by the city, it is said a considerable misupprehension exists among some people, notwithstanding the discussion-which, in one way and another, has been had within the past two or three weeks in reference to the question.

About three months ago there was given in The Times a description of the workings of the apparatus owned by the city, and mention was also made of the apparent results of maintaining the cement-testing department. Up to this time, however, kittle has been said about the scope of the work or the actual results in the way of benefit to the city.

Early in Janutary the testing, which for a time had been discontinued, was resumed, and among the first tests made were those from samples of cement in use in the manufacture of certain pipe for a ranga. The tests by the machine developed the fact that the cement which was being used was not up to the standard required by the specifications, although the brand of cement was that of one of these beat known and which is usually of high quality.

The tests having developed the fact that

the pipe which had been manufactured of it was rejected and new pipe constructed of other cement was laid in its place.

It is known that the fact of the rejection of this pipe was the cause of a good deal of talk among contractors to the effect that they would have to see to it that the cement they used must be up to the required standard. After that time the tests of cement on other pieces of work showed generally that that of a good quality was being used.

People familiar with the business say that the contractor for the cement pipe which was rejected may not have been at fault, and may have acted honestly, as far as he had anything to do with it. The coment which he used was of one of the recognized standard brands, and seemed to be sood. It is possible that it became mucistened while on board ship and "set," and that it was ground over, mixed with a portion of good cement, and, after passing through the hands of a number of parties, sold to the contractor without his realizing its true condition.

It is not a difficult matter, it is said, to take cement which has "set" in barreis, grind it over and put it into the same barrels again. While detection would be probable, if this were done with cement unloaded from a ship near this city, yet it would be unlikely to be found out if it were done at some distant point on the Coast and the ground-over article were to be shipped here.

Since the rejection of the sanja pipe it has anot been found necessary to reject any other cement work. The tests made have a number of times shown the use of an article slightly inferior, but a warning to the contractor or other person using it has almost without exception proved sufficient to bring about the use of a proper material.

The tests, which are made under direction of the City Engineer, are performed on the cement used in all classes of work which has to be accepted by the city. These classes include curbs, sewers, zanja pipes and stdewalks built under contract, with the city and also sidewalks built under private contr

time of its construction the cement used in it is tested.

It will be understood that work of all classes above mentioned has to be performed on lines and grades given by the City Engineer. When these lines and grades are given the fact is in each case recorded and from the records thus made the man employed is able to know when it is about the right time to visit any particular piece of work and get samples of the cement in use.

It is sustomary not only to get samples of the clear cement, but also of the dry cement and sand as mixed ready for making mortar. If the required proportions of cement have not been put into the mixture the tests from the two samples thus taken in each case are pretty sure to detect that fact.

Of course, it is the business of the regular inspector to see that the proper proportions are used, but in actual practice it frequently occurs that while the inspector is busy with some other part of the job there is opportunity to shovel into the mixture for mortar more sand than there ought to be.

tice it frequently occurs that while the inspector is busy with some other part of the job there is opportunity to shovel into the mixture for mortar more sand than there ought to be.

The results of the tests made are carefully recorded and these records, it is stated by the City Engineer, are very valuable. New brands of cement are constantly being introduced into the market, and without the systematic tests made it said it would be very difficult to intelligently determine in some instances whether a particular brand could be safely used for a certain purpose or not.

As an example of this fact it is related that a few days ago a contractor asked that a few days ago a contractor asked that a few days ago a contractor asked the City Engineer examined the record and found the brand to be one of a slow-setting kind, but which, after having a long time to set, developed a high degree of strength.

Acting on a basis of the information

time to set, developed a nigh degree of strength.

Acting on a basis of the information thus gained the City Engineer informed the contractor that the brand of cement in question would be satisfactory provided it were allowed to "set" a greater length of time than were other brands before "backfilling."

Keeping Sand from Sewers.

direction of the City Engineer by means of which it is intended to arrange to discharge water from zanja No. 4 into the sewers without the water carrying sand with it. The sandbox is being placed near Seventh and San Mateo streets. It is to be twelve feet square, and the bottom of it is to be four and one-half feet below the bottom of the zanja at that point. It is expected that the box will pay for tuelf, and perhaps more, for the reason that the sand collected in it will be valuable, and will probably sell for enough to more than pay for keeping the box in repair.

City Jail Site.

The Land Committee of the City Coun-cil has not as yet prepared any recomfor the sale to the city of a site for a cit jail and police station, but it is said the the committee will probably recommen the committee will probably recommend that the bids received be rejected, and that new proposals be advertised for.

An Appeal from Neurassa.

A communication has been received at the Mayor's office from Mrs. J. Hewitt Broaddus, local agent of the relief work at. Ewing. Neb., urging that further assistance be given to the sufferers in that locality. It is stated that, while the State has furnished a large number of the people with seed grain, yet many of them

City Hall Notes. The Board of Public Works will meet

The Mayor has received an informal invitation from the Victoria (B. C.) Yacht Club to attend its regatta to be held in that city next Thursday in honor of the Queen's birthday.

Arrangements are being made to set part a department of the Public Library o books and records of all kinds pertain-

at its next meeting asking for the enactment of an ordinance regulating bicycle riding.

The members of the Board of Education and the special committee of the City Council appointed for that purpose are to have a conference this morning in the matter of the official advertisement for sites for school buildings to be erected under the issue of bonds recently voted. The question of sites is to be discussed.

A new shut-off valve has been placed in the wood-pipe section of the outfall sewer a short distance south of inglewood by means of which the sewage may be dammed up for irrigation to better advantage above where the gate has been placed. Considerable quantities of the sewage are at present being sold for irrigating purposes. This valve is like one recently put in the wood-pipe section not far from the settling chamber.

length, outlining what his clients expected to prove by the witnesses whom they intended to call.

Among other things counsel stated that the proponents would show that the deceased, Mrs. Wilson, was an exceptionally bright woman, and not the duil, stupid inebriate the other side had represented her to be. It would be shown that when she made the will and codicil in controversy, she did so deliberately and after due consideration. As for the claim made by the contestant that his money purchased the property bequeathed by his wife, it would be shown that Mrs. Wilson derived some of it from her former hushand, John Larue, who purchased it from the city. The rest of it was purchased by Mrs. Wilson at sheriff's sale, when Wilson's dissipation left him bankrupt in 1832 It would also be shown that even after this Mrs. Wilson left her husband collect her rents and spend the money without question or stint, until 1890, when his conduct became so bad that she was obliged, for security, to place her business in the hands of agents.

In conclusion, Mr. Anderson amounced that it would be shown that the will in controversy was not an unnatural one at all, but, on the contrary, one prompted by the noblest impulses of a kind and generous heart.

At the close of this address, a number of deeds, patents and other documentary evidence, showing the chain of title to the various pieces of property involved in the case, were introduced, and the will of John Larue, deceased, was then read to the jury.

This consumed the entire morning session, but on preexvaning at a schedule and procession, but on preexvaning at a schedule and preession, but on preexvaning at a schedule and preess and a schedule

case, were introduced, and the will of John Larue, deceased, was then read to the jury.

This consumed the entire morning session, but on reconvening at 2 o'clock p.m., T. L. Winder, Esq., was called to the witness stand, which he occupied for the remainder of the day's session. He was called upon to relate his business relations with Mrs. Wilson, when the firm of Smith & Winder were her attorneys, and for the purpose of showing that in spite of the fact he saw her very frequently, only twice had he seen her under the influence of liquor. He stated that while Mrs. Wilson was liliterate and ignorant of the knowledge derived from books, she was a smart, shrewd woman, who had a great deal of natural intelligence.

Over the objections of the contestant's counsel, who claimed that the communications were priviliged and inadmissable, Mr. Winder was permitted to relate the contents of the first will he ever made for Mrs. Wilson, which she subsequently destroyed, By its terms she left her husband \$200 per month for life, her sister, Matilda Waldron, \$100 per month, \$500 each to Rose McCoy and Kate Stamps, \$1000 each to Sarah J. Dennison and Willie Curran, \$10,000 to Josephine Bray. The balance of her estate was left to Bishop Mora in trust for the purpose of founding and maintaining a home for orphan boys at \$300 per monther or orphan boys at \$300 per matters were gone into the witness being still upon the stand

Wilson Home.

Various other matters were gone into the witness being still upon the stand when court adjourned for the day. The case will be resumed at 10 o'clock this morning.

ALEX DOCTER ACQUITTED.

ALEX DOCTER ACQUITTED.

The trial of the case against Alex. Docter, the festive young Hebrew drummer, charged with the embezzlement of \$3500, which had been entrusted to him by M. L. Polaski, for payment to M. A. Gunst & Co., of San Francisci, was concluded in Department One yesterday afternoon, the defendant, much to the surprize of all concerned, being acquitted.

When the matter was resumed yesterday morning, W. R. Bacon, Esg., of counsel for the defendant, addressed the jury on behalf of his oliest. Most of his time was consumed in paying his respects to Detective Brequi, whom he roasted unmercfully. He was foffewed by Assistant District Attorney Williams, who concluded his argument after the noon recess. The uniter was finally submitted to the jury et 2:15 o'clock, and one hour and forty minutes later that body returned a verdict of acquittal, whereupon Docter was discharged, and left the country may and forty minutes later that body returned a verdict of acquittal, whereupon Docte was discharged, and left the courtroin

HIS COACHMAN WANTS DAMAGES. Suit was commenced in the Superlo Court yesterday against "Col." Joh Bradbury, erskwhide propietor of the "new" Herald, by Ostiano Ccampo, to re-cover \$25,500 damages for permanent in-juries adjeged to have been sustained by reason of the negligence of the defend-ant.

servant on a proposed coaching tour "for pleasure, recreation, great ostentalion and show" from this city to Santa Barbara. The defendant, accompanied by his wife, Miss Muy Banning, Miss Smith, Mr. Norte of New York and Mr. Dater, accordingly of New York and Mr. Dater, accordingly started for Santa Barbara, via the Conejo rancho, but on May 25 last, just after crossing the Ventura river, the plaintiff alleges that the defendant up recklessy drove and managed his team that the coach was overturned on the highway. Ocampo asserts that he was caught in the wreck, and his back, spine and hips so seriously injured as to totally disable him for work. He, therefore, seeks to recover \$25,000 damages, and the further sum of \$500, which he claims to have paid out for medical attendance and nursing.

grounds was commenced yesterday by Do-

AFTER THE BANQUET.

Some Echoes from the Hall of Feast-

the galleries and assembly-room, and tables and chairs traveling up and down stairs in the stalwart arms of the attendants, everything is as usual, and by tonight the

the stalwart arms of the attendants, everything is as usual, and by tonight the Medical Association will hold its bimonthly meeting in the assembly-room with as much state and dignity as though it had not lately been filled with the "sound of revelry by night."

The homes of the members of the Chamber of Commerce are probably aromatic with the rich perfume of carnations, and the souls of their wives filled with delight, for of the 3000 magnificent blossoms generously donated for the decoration of the banquest table, not one remains to tell the tale. The guests were flower-struck after the vanishing of the last bottle of champagne, and made a clean sweep of the table decorations, leaving not even a bud or a stem. The huge bowl of roses donated by Superintendent Meserve also vanished, being carted off bodily in the arms of a poetic banquester who was fond of roses.

The mammoth basket containing 2500 yellow marguerites, donated by Scharff & Shorting for the decoration of the clubroom, escaped the merry ravagers, and now adorns the main floor of the exhibition hall.

Many disappointed hackmen were wandering around the corner of Fourth and Broadway about 1 a.m. yesterday, looking for a job of hauling home temporarily disabled banquesters. Great was their disgust at finding the lights out, the feasters departed in peace and sobriety, and only Superintendent Wiggins and the waiters left to inform them that thelt errand was vain. One novel and amucing feature of the banquet was a dish of bolled ostrich eggs from the ranch of Robert Northam. There were only three eggs to be divided among the 200 guests, but each one had a taste.

The checks got slightly mixed at the end of the entertainment, or the holders did, for one man instituted a frantic search for No. 61 until it was discovered that his number was 19, and another could not tell for the life of him whether he wanted 60 or 99.

Among the many letters of regret received from distinguished people will, were

for the life of him whether he wanted 66 or 99.

Among the many letters of regret raceived from distinguished paople wife were invited to be present were some containing pertinent sentiments worth preserving. Among these may be quoted:

Gen. W. S. Rececrans: "Your organization is doing heroulean cervice in bringing to the notice of our people beyond the Rocky Mountains the matchese resources of Southern California, and pointing cut to them a Mecca, free from the climatic changes and uncertainties of the Eastern States. In this praiseworthy work you are doing two good deeds, one for your own community and one for the class you are winning over to our mont-favource and."

community and one for the class you are winning over to our most-favored land."

C. M. Shortridge, proprietor San Francisco Call: "My appreciation of the character, the thrift and dauntless courage of your clitzens is very high, indeed. I fully appreciate what your proprecive citizens have done in building in so short a time the second city in this great Western empire. I am confident that the future holds in store many good things for your favored section."

Charles Nordhoff: "But if I could accept your kind suggestion to meet with you and 'say a few words." I should say my firm belief that the continued and accelerated cound growth of California depends mainly upon four things: First, a settlement of the currency question in such a way that we shall ure the best dollar in the world—the dollar which is current all over the world; namely, American gold coin. Second, a revenue tariff on the fewest number of articles, laying high duties only on luxuries, such as foreign cigfrs, wines, liquors, etc. Third, California needs cheaper State and local government. Fourth, California lacks that prompt and sure execution of justice which is more necessary in this State than in almost any other for the security, prosperous settlement must be retarded."

Marriage licenses were issued at the County Clerk's office yesterday to the fol-

scriously injured as to totally d'sable him for work. He, therefore, seeks to recover \$25,000 damages, and the further sum of \$500, which he ofaims to have paid out for medical attendance and nursing.

Chamber of Commerce Notes.

Donations are again gently trickling in. The Orange County Chamber of Commerce has sent in a handsome display of loquats, and Barnard & Densmore have renewed their exhibit of crystallized fruit.

The Los Angeles Soap Company has erected a pink and white soap tower under a glass case, which stands near the entrance and charms the beholder.

The turtles are dozing around in retired corners, resting from their mad gambols over the pages of the morning papers, and the vegetables have regained their wonted placidity.

The annexation meeting in the assembly-room of the Chamber of Commerce takes place on Saturday at 7:30 p.m., instead of Friday.

A New Hospital.

A New Hospital.

Articles of incorporation have been nearly completed for filing for what is to be known as the Hospital Building Association. The stated purpose of the orgainzation is to conduct a hospital. The capital stock is to be \$50,000. The incorporators are announced to be the following named persons: Drs. Joseph Kurtz, H. G. Brainard, Walter Lindley, William D. Babcock, Granville MacGowan, Frank Bullard, George W. Lasher, H. Burt Ellis, M. L. Moore, W. Le Moyne Wills, Eliza Follansbee and W. L. Wade.

Here! Are You Needing Any?

Of water-pipe and fittings, every kind under the sun that is any account, we carry an assortment. We also keep rubber hose of every description—hose that will last—and in quantities equal to any demand. In lawn sorinklers, no house can touch us. We are sole agents for the Wilgus sprinkler, acknowled to be the best of all. Whatever we soil and recommend is good and will give satisfaction. We pride ourselves on that, and no house in California makes lower prices. W. C. Furrey Stove Co., Nos. 129 to 165 North Spring street.

WOMEN

Suffer Daily From Sick Headaches and Prostration.

A VERY GOOD CURE OFFERED.

You Can Bely on the Advice Given by the Manufacturing Chemists Who are Now Preparing the Great

remedy that will suit each and every case, but if you will read the various causes for these headaches, and the smyptom of those kinds of headaches that the come to a control of the control o

As soon as your nervous system begins to lose tone you become weaker and weaker, until you have those awful nervous headaches come on you every day.

CAUSES:

You are overworked.
You are closely confined.
You work early and late.
You work without sunshine.
You don't get fresh air.
You food don't assimilate.
These are the causes, and when these causes give you a nervous headache you can be easily relieved by the moderate use of Joy's Vegetable Sarsaparilla.
Neuralgic headaches arise principally from a disordered stomach.

CAUSES:

Foul stomach.
Bnd taste in mouth.
Offensive breath.
Eructation of gases.
Stomach pains.
Uneasiness after eating:

SICK HEADACHES

When you have these sick headaches You feel drowsy, You feel tired, You feel weary, You have no appetite, You are stomach-sick, You can't digest correctly.

When this condition exists it shows that you are "all run down," and you should use in

JOY'S VEGETABLE SARSAPARILLA Billious headaches usually arise from you

The liver is torpid,
The sides pain,
The shoulders pain,
The skin is dry,
The skin cracks easily.
The skin burns,
The skin itches,
The skin becomes yellow.

The skin becomes yellow.

You are now in a billous condition. Do not remain in this condition, for Joy's Vegetable Sarsaparilla will wash your liver as clean as a whistle, and in the washing the headache disappears. Stomach headaches! Oh, yes, we all have stomachs, and when we overload them they become foul—and
We have eructation of gases,
We belch sour liquids,
We are uneasy in the stomach,
We are uneasy in the stomach,
We are uneasy in the yellow,
We are nerrous,
We have brow pains,
We have ore pains,
We have eye pains,
We have rush of blood to the head,
We are reatless.
We don't sleep, and have a very poor, weak

We don't sleep, and have a very poor, weak nactive liver. Then Joy's Vegetable Sarsa sarilla will be needed. Poverty is no crime, except when it is the poverty of the masty substitute offered in place of Joy's Vegetable Barsaparilla.

Smiles are wholesome, except the substitu-

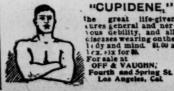

Pains should be relieved, but the substi-uter's pains should be unrequited.

"An honest man is the noblest work of God." No honest man will try to substitute Joy's Vegetable Sarsaparilla. Good advice ennobles—the substitute's ad-ice is ignoble.

HOUSE AND LOT.

Prospects for a Boom on Main Street.

Another Suggestion of a Site for the Proposed New City Jail.

Interest Aroused in the Opening of North Broadway—The Colonial Style of Architecture—City

Although characterized by the real es-tate dealers as rather quiet, the week has not gone by without a number of satis-factory sales at fair prices, while negotiations are under way for a number o ons are under way for a lumber of s, some of which are of considerable ortance, so that it looks as if the com-summer would be the best that has a known in the real estate market since nemorable summer of 1887. HOUSES TO RENT.

It is noted that there are a good many houses offered for rent than there have been for a number of months past. In The Times of Sunday last the advertise-ments of houses to rent occupied more than a column and a half of space. On the face of it, this looks as if the building but such does not seem to be the case, as but such does not seem to be the case, as the demand for desirable houses keeps up very well in spite of the fact that the summer is close upon us. The truth is, as any one can ascertain who takes the any one can ascertain who takes the trouble to investigate, that a good many-of these houses which are offered for rent are not what may be termed first-class. Either on account of their location or because they are old-fashion and do not contain what are known as "modern improvements," they do not come under the category of thoroughly desirable modern residences. A good many people have built new houses, moving out of the old ones which they have occupied for a number of years, and these in many cases are now offered for rent.

THE INSTALLMENT PLAN. The opportunities which now exist in The opportunities which now exist in Los Angeles for purchasing houses or easy installments have undoubtedly to a certain extent interfered with the renting business, as there is within the average American as atrong desire to cwn his own home, flowever humble it may be. The facilities for acquiring homes in Los Angeles, which, until within a year or two were confined to those in possession of considerable means, are now within the reach of every one who has a few hundred dollars, and is in receipt of a regular salary such as enables him to pay a fair rest. Sometimes it is even possible for a man to buy a house and lot without paying anything down. In such cases, however, as may naturally be supposed, the property offered is not of the most desirable description, consisting generally of smallifets and cottages in out-of-the-way parts of town which the owners have been unable to dispose of in any other way. When, however, a man can buy a comfortable house and lot by paying a couple of hundred dollars down, and about as much los Angeles for nurchasing houses on easy able to dispose of in any other way. When, however, a man can buy a comfortable house and lot by paying a couple of hundred dollars down, and about as much smoothly as the rent would amount to, there is no great cause for complaint. It is true that the interest during the early years, together with the insurance and taxes, adds materially to the payments which have to be made at first, and for this reason owners who sell in such manner should, when so desired, spread the payments over as long a term of years as possible.

ossible.
It looks as if Los Angeles would before become as noted as Philadelphia log become as noted as Philadelphia as a city of homes. As The Times has frequently remarked, nothing conduces more to the etablility and prosperity of a city than the ownership of homes by a majority of the citizens. Your Anarchist, and rioter and boycotter is seldom found among the class of home-owners—among these with have some stake in the comamong the class of home-owners—among those who have some stake in the comthose who have some stake in the com-munity; who have something to lose. It is the other fellows, who own nothing, that resemble Artemus Ward, who was willing to sacrifice all his wife's relations on the altar of his country. For this, among other reasons, the man who makes it easy for his fellow-citizens of small means to acquire homes of their own is a public benefactor, and should be encour-

Nothing has yet been decided in regard Nothing has yet been decided in regard to the location of the new jail, and the parties who have the matter in hand do not appear to know thmselves just when a decision will be arrived at. During the past week another proposition has been submitted to this city, that of a lot on the southeast corner of Olive and Fourth streets, having a frontage of 124 feet on Olive street and a depth of 165 feet, for 312,400. This is a very good location, being only a short distance from the present business center, and in the direct line center, and in the direct ent business center, and in the direct line of the city's growth, so that within a few years it would undoubtedly be not more than two blocks from the business center. The price of \$100 a foot is also quite reasonable. Some of the residents in the neighborhood might object to the location of a jail there, but it will only be a few years before this will all be business property.

property.

A citizen made a suggestion a few days ago in regard to the selection of a jail site which appears to be worthy of attention. On Broadway, within three or four minuates walk of the business center, there is a high bluff, up which pedestrians have to climb by means of rickety, tumble-down steps if they wish to go along Court street by the most direct route. There is no prospect that Court street will ever be graded into Broadway, as the elevation is far too great to make this possible, nor is there any prospect that a tunnel will ever be built, as this would have to be a very long one and would cost a vast amount of money. Adjoining the corner of Court and Broadway on the north is a dilapidated pile of old wooden structures which are far from being an ornament to the street. It is suggested that the city should condemn Court street at its junction with Broadway, then acquire the adjoining lot on the north, which together would give a frontage of about 110 feet, and provide the city with a conveniently located jail site at a very moderate price, the value of the corner lot at current market prices being not much over \$10,000.

Some provision would have to be made for pedestrians who wish to go up Court street, and this might easily be done. Some provision would have to be made for pedestrians who wish to go up Court street, and this might easily be done. Some prayers ago, during the boom, a syndicate offered to lease the Junction of Court street and Broadway from the city and put up an elevator to the top of the building for the use of the public. This might be done by the city, in case they should condeun the street, and it would be a great improvement over the present worn-out and rotten steps, which seem to large the accident. A citizen made a suggestion a few days

Second and Third, is aiready held at a higher figure than property on the same street between First and Second. These people begin to see that this thing works two ways—that the southerly movement will not by any means stop at Third or Fourth streets, but that, unless something is done to open up Broadway on the north, property-owners between Second and Fourth streets may find themselvor in the same fix as those who own property on Broadway, between First and Temple, and who are now-expected to be eatisded with less than half the price that is cheerfully paid for property a block further south.

considerable distance of the city—should lose no time in country together and fully discussing this question, so as to agree upon some project to be recommended to the Council.

A DILAPIDATED PARK. While on the subject of Broadway, attable appearance of the little park on north side of the City Hall. Because

A MAIN STREET BOOMER. A MAIN STREET BOOMER.

There have been several sales during the past week on South Main and adjacent streets and a good many people are beginning to entertain the opinion that has frequently been expressed in these columns, to the effect that property on South Main street, especially that below the junction of Broadway, offers today better inducements to indicious investors than

South Main street, especially that below the junction of Broadway, offers today better inducements to judicious investors than property on any other principal street in the city.

Among those who have become impressed with the views on this subject expressed by The Times is C. E. Mayne, a noted real estate operator, formerly of Omaha, who has made preparations to give a practical exhibit of his faith in the future of South Main street. Mr. Mayne was noted in Omaha as a bold and enterprising real estate operator. He worked up a big boom in property there and cleared up a large amount of money, afterward, in 1892, moving to San Francisco, where he inaugurated the boom in sand lots south of the park, building a street railroad to them. From San Francisco, where he inaugurated the boom in sand bots not he them. From San Francisco, where he inaugurated the boom in sand bots not he the sand and has been in Los Angeles about a couple of months. He has a number of wealthy friends who go largely upon his advice in real estate matters, and some of these, acting upon his suggestion, have authorized him to make investments in South Main-street property, where Mr. Mayne states he has secured options on fifteen corner lots between Seventh and Twentythird streets. The present holders of these options are in no hurry to dispose of them, believing that they have a first-class thing at the prices now quoted for property on that street; an opinion which is doubtless correct. For some time past The Times has been calling attention to the absurdity that property on Main street should be selling at one-half the price should be selling at one-half the price should be selling at number of growing of greater in a number of growing of greater in a number of growing of greater in a greater in a surface of growing of greater in a greater in a greater and greater in a number of growing of greater in a number of growing

should be sering at obe-sain the pirte saked for Broadway property in the same block.

Mr. Mayne, who has made a close study of real estate in a number of growing cities in the West, takes a very sanguine view of the future of Los Angeles. He thinks that those people who talk about a population of 150,000 for the city in ten years are altogether too conservative, and believes that Los Angeles will undoubtedly have a larger population than that before the close of the century. He is in correspondence with persons in all parts of the United States, and makes a point of ascertaining as near as possible how many people in each section think of coming to Southern California. He says that the outlook is for an immense exodus from the East to this sction as soon as times begin to pick up throughout the country so that people are able to realize something for their property, which they have not been able to do for some years past.

A GOOD TIME TO INVEST.

A GOOD TIME TO INVEST. The Investor has the following sensible remarks on present opportunities for real estate investments in Los Angeles:

remarks on present opportunities for real estate investments in Los Angeles:

"The present is an excellent time to buy property in Los Angeles. The depression which followed the bursting of the real estate boom of seven years ago has entirely passed away, and yet prices have not advanced to an unhealthy point. At the same time, there is a steady inquiry for well-located property and no difficulty is experienced in making sales of such property at reasonable figures. Then, again, the fact that such a large amount of building is going on throughout the city shows that the prosperity which Los Angeles is now enjoying is of a solid character—that the population of the city is steadily increasing, which means that the demand for houses and for lots upon which to build these houses is growing all the time.

"At such a time as this, when there is no wild excitement in the air, and when property is valued at what it is actually worth, there is an excellent opportunity for judicious capitalists to look over the field, and, getting a little out of the regular rut, invest their money in property that has not yet become high-priced, but is likely to be so in the future."

THE COLONIAL STYLE.

THE COLONIAL STYLE. The same journal has the following paragraph in regard to the colonial style of architecture, which has become epidemic in Los Angeles during the past

demic in Los Angeles during the past might be done by the city, in case they should condemn the street, and it would be a great improvement over the present invite a serious accident. There is a very fine view of the city at the top of Courticret at this point, and if a hotel were built there, as was suggested a good while sign, it would occupy a signtly spot in the seart of the city, and attract guests.

NORTH BROADWAY.

The sermons which have been preached in this department so persistently from each to week on the necessity of opening orth Broadway appear at length to be likely to result in some action, as several amportance of the work. One fact in this ameeting of those who are interested ander to urge upon the Council the amportance of the work. One fact in this ameeting has come to light, which is the large property-owners in the ighborhood of Third street are no longer appead to the opening of North Broadway, even indifferent on the subject. They are become comewhat alarmed at the spid manner in which business is moving own south, so thet, as The Timee has appropriateness of that structure may result in something of a boom for the mission, style. Two notable faults in housebuilding is being industriously perpetuated by some of our local architects, who ought to exhibit more originality."

There is a good deal of sense in this tree is a good deal of sense in this would by way of a change, in the case of a good sized house standing in capacious grounds, such as generally surrounded residences of this character during the colonial days. but it becomes ridiculous when applied to a modest cottage about the size of a big dry goods box, that is jammed in on a twenty-five-foot lot between two other residences. In any case, there is no excuse for our architects by this mission, or early California style of architecture, which was well adapted to the climate of this section. Perhaps, when the fine residence of R. M. Widney is completed, a brief description of which was recently given in these columns, the beauty

These faults are, architecture that is too ornate, and painting that is too variegated and gaudy. The aim should be in the direction of more simplicity, dignity and nobility in our architecture, and our buildings should be more with reference to the character of the climate and the country than it is.

CEMENT TO BE TESTED. CEMENT TO BE TESTED.

Whether or not the City Council was influenced by the protest of The Times, it is a fact that they have shown their good sense by authorizing the re-employment of a cement tester. The small outlay for this purpose will be returned to the taxpayers many times over in the course of the year.

STREET ASSESSMENTS.

STREET ASSESSMENTS.

The maps for sewering Bonnie Brae from Tenth street to the middle of the block between Eighth and Ninth streets, also improving Tenth street from Buckley to Vernon, ordered May 1, have not been received.

The new warrant and assessment for sewer on Temple and Hope streets from Pearl to 270 feet south of Court, dated May 11 and recorded May 13, 1895, has been issued and delivered to John E. White (office with John T. Jones, rooms Nos. 2 and 4, Fulton Block,) the contractor to whom payments should be made. White (office with John T. Jones, rooms Nos. 3 and 4, Fulton Block), the contractor to whom payments should be made. This contract was let under ordinance of intention No. 2399, and all payments are due and payable now. These assessments will be delinquent after June 12, and draw 19 per cent. Interest per annum until paid. The new warrant and assessment for grading, graveling and curbing Paito Alto street, issued May 13 and recorded May 14, was delivered to J. L. Paykovich, to whom payments should be made at No. 220 West First street, and to whom it was assigned by T. A. Grant, the contractor. These assessments are due and will be delinquent thirty days from May 13, when they draw 10 per cent. interest per annum. The assessments are all in Los Angeles Impovement Company's subdivision of part of lot 3, block 39, Hancock's survey.

The warrant and assessment for severing, grading, graveling, guttering, curbing, crosswalking and cement sidewalk on Fourth street between Omar and Wolfskill avenues was issued and recorded May 11 to Stansbury & Moore (office No. 143 South Broadway,) to whom the contractor, and to whom arsessments should be paid.

This contract and assessment was made under ordinance of intention No. 2271, consequently all payments under \$50 are due and payable now, and bonds will be issued for those assessments over \$50 remaining

and payable now, and bonds will be issued for those assessments over \$50 remaining unpaid after June 8.

BUILDING NOTES.

Encouraged by the rapid manner in

BUILDING NOTES.

Encouraged by the rapid manner in which new business blocks are occupied, frequently being engaged before the plaster is dry, quite a large amount of building is geting on in the business section of the city, while plans are being discussed for many more ambitious structures.

As to the residence sections, it is really difficult to keep track of the numerous improvements that are under way. From one end of the city to the other, from University to East Los Angeles, and from Angeleno Heights to Vernon, the sound of the hammer and saw are heard on every hand. A ride on the University car-line to the terminus of the road in the southwestern part of the city is an eye-opener to those who have not been out that way for some time. For the entire distance the streets on the line of the track are lined with residences, vacant lots being few and far between. Almost without exception, these residences, whether great or small, are of a neat, attractive, and even elegant appearance, most of them evidently having been built by the owners for their own occupancy.

The Builder and Contractor notes the following uncontracted new work:

Plans are being drawn for Henry Kreim for a three-story brick block, to be erected on First street, between Main and Los Angeles; first floor will have stores and upper doors offices and rooms.

John F. Pouyfourcat is about to erect a three-story brick block on First etreet, adjoining the Germian-American Savings Bank, to contain two stores on the first floor and forty rooms on upper floors, to cost \$10,000.

cost \$10,000.

H. W. Latham will build a two-story ten-room frame dwelling on Twenty-eighth

Plans are being drawn for Mr. Templen for a two-story dwelling, to be built at Eighth and Hoover streets.

Plans are being prepared for K. H. Kelfer of the Troy laundry, for a two-story dwelling, to be built in the Harper trapt.

story dwelling, to be built in the Harper traot.

J. F. Sartori is having plans prepared for a two-story dwelling to be built on Twenty-eighth street, between Figueroa and Hoover streets.

Plans are being prepared for a three-story brick block to be built for H. B. D. Leck, on Main street, between Second and Third streets. It will be devoted mainly to hotel purposes.

Plans are being prepared for a two-story frame dwelling for Mr. Miller, to be built on Portland street.

John F. Benzinger is baving plans prepared for a six-room dwelling, to be built on Twenty-third street, near Main.

Dwight Whiting is about to build a three-story brick business block on the west side of Broadway, between Seventh and Eighth streets. It will have sixty feet frontage, stores on first floor and apartments above.

Plans are being drawn for the remodeling of S. Meyers's residence, which has been purchased by F. J. Bauer and will be removed to Third street, near Central

be removed to Third etreet, near Central avenue. There will be two stores built under et; cost, \$2000.

BUILDING PERMITS. The following permits, amounting to \$2000 and over, were issued by the City Superintendent of Buildings:
T. D. Stimson, three-story brick building, Third, between Broadway and Hill

ing. Third, between Broadway and Hill street, \$22,000.

T. D. Stimson, two-story brick building, southwest exper Broadway and Third, \$26,000.

William N. Fester, dwelling. Adams street, between Paloma and Griffith, \$2900. \$2900.

Mrs. Effie I. Reppy, dwelling, Bonsailo avenue, between Washington and Twenty-first, \$2500.

Josf. Rubo, two-story dwelling, northwest corner Seventh and Carondolet, \$2400.

Mrs. Mary S. Stewart, two-story dwelling, Estrelia avenue, between Twenty-first and Washington, \$2400.

Rev. E. S. Chase, two-story dwelling, Soto, near Michigan avenue, \$2200.

BEGAN TO ORGANIZE.

NEW CENTRAL PRESBYTERIAN CHURCH MEETING.

Three Hundred and Sixty Members Enrolled—Elders and Deacons Chosen—Another Meeting Next Tuesday.

A meeting of people enrolled as mem-bers of the new Central Presbyterian Church was held last evening at Temper-ance Temple. Rev. Dr. W. R. Heuderson of Santa Monica, who had been selected

of Santa Monica, who had been selected to act as moderator, presided. The secretary reported 360 members enrolled.

It was decided to have nine elders. As a part of this number the following-named gentlemen were chosen: Dr. Harris, A. N. McBurney, W. B. Mayes, J. M. McPherron, Dr. Henderson and A. Polson. It was decided to authorize the elders elected to select by lot which two of their number are to serve one year, which two two years, and which two for three years. As deacons, C. E. Day, W. H. Tuthill,

two years, and which two for three years.
As descons, C. E. Day, W. H. Tuthill,
William Chambers, E. B. Rivers and J. M.
Guinn were chosen to serve for one year
or until their successors are appointed
and qualified.
The meeting was adjourned to meet at
the same place at 7:30 p.m. next Tuesday,
it being announced that those who have
not already enrolled as charter members
and desire to do so may until that time
only.

Against Annexation.

Against Annexation.

Ben Rayor writes The Times on the subject of the annexation by Los Angeles of the University district, and, speaking presumably as a resident of that section, asys: "If any one thinks for a moment that we want to go into the city they are away off in their calculations." He treats with quiet ridicule the promise of Los Angeles to give University district a sewer and a water system, for, as he says, they have already more windmills there to the square inch than any other community can trot out. The writer further says that their experience with policemen was not a happy one, and he does not think the inhabitants care about repeating it at present. He concludes his very interesting letter in saying that when they are ready to be annexed they will knock at the door of Los Angeles city for admittance with no uncertain sound.

For Perfection

41,000

Olive Lands, Alfalfa Lands,

Orange Lands,

Apple Lands, Apricot Lands,

Pear Lands, Sugar Beet Lands.

Perfection in growth of all the above products is illustrated on the Ohino Ranch. The Chino Valley Sugar Factory will pay to the 300 tenant farmers, owners and helpers \$400.000 for this year's product. Beet farmers make from \$50.00 to \$75.00 per acre each year, paying no tribute to transportation companies nor commission men. The investment of \$1,100,000 in the great Sugar Factory at Chino guarantees to the beet grower a permanent cash market. The remarkable richness of the soil guarantees a crop. The subdivision of 10 acres brings a home in Southern California within the reach of every honest, industrious citizen. No agricultural proposition ever offered is so attractive as the Chino Ranch. We invite a visit to Chino, or inquiries by letter. Write for our booklet, "How I Paid for My Farm in Chino."

THE NATIONAL BANK OF CALIFORNIA.

The National Bank of California is one of the few banks that successfully stood the shock of the late panic and maintained full coin payments right through.

The National Bank of California pays no interest on deposits in any form, offers no special inducements for business other than reliability when the customers exercise their right to demand their money.

In the matter of loans it looks more to reliability than high rates of into rest, and desires on case except from good and reliable parties, and then exacts good security, believing that as bank is better or more reliable than its loans.

PASADENA.

LECTURE WHICH SHOCKED ALI LADIES IN ATTENDANCE.

A Romantic Wedding-Young Boy Has His Fingers Dynamited— Street Car Tipped Over— Shakespeare Club.

PASADENA, May 16.—(Special Correspondence.) The W.C.T.U. held a "mothers" meeting in the First Methodist Episcopal Church this atternoon, which was largely attended by the ladies from the various city congregations, After the opening exercises, conducted by Mrs. Farrey, the evangelistic worker of the association, Dr. Rachael Reid and Mrs. Terpenium of feared presses and Misses Law Misses Misses Misses Misses Misses Misses Misses Misses on, Dr. Rachaes Rein and Misses James ling offered prayer, and Misses James Longfellow favored the audience with et. Then Prof. Leslie Mutch, who has been studying what he calls "child life and edity" in the public schools, addressed ladies, and it is safe to say no more usive an address was ever offered in offensive an address was ever offered in that racred place, or one which was a greater insult to the audience present. Prof. Mutch's subject was "Heredity," and when he was introduced by the president, the remark was made that he would shock some of the ladies, but that the president was aware of the exact nature of his remarks cannot be predicated. The women of Pasadena are as intelligent as any women in America, and for a man to appear before them and pretend to instruct them in matters of which he, from the very nature of the case, could have no knowledge except that obtained from books, and those books alony those usually found in medical libraries or in the private bookcases of mature personages, was certainly a "shock" to the delicacy of his hearers, who, if they desired medical advice, were perhaps able to consult a physician of established reputation and obtain it in privacy. As for the subject of heredity, there were some rambling and irrevelant remarks, bearing some faint relation to the subject, but they were the cheapest and most ordinary facts, and those patent to any woman of average inballect. The lecturer professed to be able to delineate perfectly the character of a child of 14 months by siraply looking at its head, and to reveal to mothers and fathers the hidden faults in the infant's that sacred place, or one which was a to delineate perfectly the character of a child of 14 months by simply looking at its head, and to reveal to mothers and fathers the hidden faults in the infant's disposition. That this thing is possible to omnipotence, no one will deny, but one parent of whose ten-year-old child the professor gave a delineation, and such a delineation, too, as would flatter a less guillible individual, can assert positively that it was so wide of the mark that it formed a basis of total infaelity in the power of that scientific individual to ferret out secret traits and tell accurately human character. To illustrate his points he brought a large number of the children of the public schools out and told from the configuration of their heads what their character was. Of course it was of a remarkable kind, and the mountains will probably have to be moved back to give them room in the community. They were bright children, beyond a doubt, and it was clever of the professor to bring them up for a public examination, but what they had to do with heredity is not yet clear to the benighted mind. The professor up for a public examination, but what they had to do with heredity is not yet clear to the benighted mind. The professor modestly asserted that he "sold nothing but his skill," but this test of it was given free of charge, and it is a matter of surprise that the W.C.T.U. permitted the dis-

prise that the W.C.T.U. permitted the dis-play in such a place.

Those who went to the church for the purpose of hearing Dr. Reid, a woman of scientific experience, clear insight and lucid expression, talk of "Our Girls,"—and a large part of the audience did so—were greatly disappointed, for Mrs. Reid's time was wholly consumed by Prof. Mutch, and after a two hours' session the audi-ence, which had ebbed considerably; dis-persed.

A ROMANTIC WEDDING.

Perhaps Pasadena, now that the electric cars are running all the way through, will be the Gretna Green of romantic Los Angeles couples who desire to make a cheap elopement, and combine the ceremony and the wedding tour. This morning there was a wedding in the parior of the Cariton Hotel, which created a flutter in the society of the City Hall. Mine Host Chase telephoned to the City Attorney that he must straightway tie the marital knot for two eager, waiting hearts, but the City Attorney, consulting the statutes, found therein no power to do as required, and called upon the bachelor magistrate, Recorder Rossiter, and told him the situation. That individual hastily donned a lavender tle, which is never in use except be the Gretna Green of romantic Los Ancorder Rossiter, and told num the setun-tion. That individual hastily donned a lavender tie, which is never in use except upon the most solemn-occasions, and, arm-ing himself with a law book, proceeded to the tryst. It was his first ceremony, el-though it was not the first of the kind in which the waiting couple had been the actors. The magistrate was flushed and nervous, but the groom and bride, aged respectively 61 and 60, were calm and cool. The City Marshal, two relatives of the bride and groom, the City Attorney, a bank messenger, and the local newspaper representatives, were the witnesses of the ceremony. The contracting parties were Job G. Sheldon and Mrs. Lizzie A. Gray of Los Angeles, and they departed on an afternoon electric car for their home.

DYNAMITED HIS FINGER.

DYNAMITED HIS FINGER.

A ten-year-old boy named Frank Macadam, living on a ranch in the arroyo, had a painful experience this afternoon. The lad found a piece of dynamite cartridge that had been mislaid by some men who had been engaged in blasting stumps, and, ignorant of the dangerous character of his find, he set it off with a match. The dynamite exploded in his hand, blowing off the right thumb and first two fingers. The little fellow walked a couple of miles to the Baptist Church where he found his sister, and took the little sufferer to Dr. Hodge, who amputated the shattered members.

PASADENIA BREVITIES. PASADENA BREVITIES.

Car No. 3 on the Fair Oaks-avenue line, with eight passengers on board and a careless driver holding the lines, tipped over at the newly-laid switch, between Villa and Chestnut streets, this morning, and for a few minutes there was much excitament in that neighborhood. A lady und child were badly shaken up, and it eccums the passengers have grounds for complaint against the driver, but so far no action has been taken.

A crazy woman was found wendering

complaint against the driver, but so far no action has been taken.

A crazy woman was found wandering about the streets this morning, soliciting alms. She gave her name as Mrs. Frances thickness to be gave her name as Mrs. Frances that of Portland, Or., and said that she was looking for her husband and little liby. She ecemed conscious of the fact that her mind was unbalamed, and asked the officers to send her back to Los Augeles. She was accordingly put on board an electric car and returned to the city.

At the meeting of the Shakespeare Club Friday afternoon, a local newspaper representative will talk of "Current Events" and papers will be read by Mrs. Coleman and Mrs. Jones. The former will treat of "Popular Amusements in the Middle Ages" and the latter of "The Character of the Drama of Our Time, and How it May be Improved."

Mr. and Mrs. W. W. Collins of Ocofr. and Mrs. W. W. Collins of Occ-move, who have been spending some as at the Carlton Hotel, will leave in a Company, No. 22 South Spring street.

few days for the East. Their con, W. G. Collina, who is general superincendent of the Chicago, Milwaukee and St. Paul Railway, is now on bis sway here in his private car, and they will return with him. F. A. Foote and Miss Julia de Long were married at 6 o'clock Wednesday evening at the residence of Mr. Hall, on Summit avenue, in the presence of a few intimate avenue, in the presence of a few intimate triends, H. Elilott Ward performing the caremony. Mr. and Mrs. Foote went directly to their new home on South Los Robles avenue.

Robles avenue.

Dr. G. Roscoe Thomas and wife left Wednesday evening for their former home, betroit, to be absent for the summer, their objective point being Cornell University, where they will witness the graduation of their son Carl from the engineering department.

The State circuit wheelmen expect to be in Passadana next Monday, on the Painter track. There is anxiety that there should be a bayele track constructed here at an early day, and two sites for the same are already under advisement.

POMONA.

The Large Amount on Deposit in the

Banks.

POMONA, May 16.—(Special Correspondence.) The official report of the two national banks in Pomona, as published in the Progress today, show that the people of this place have on deposit in them over \$400,000. The People's (State) Bank has on hand about \$30,000 more due depositors.

The public sentiment in Paradena and San Bernardino and other places in Southern California, as shown in the correspondence of The Times, against the solicitation of a consumptive population to come to this region, is shared in Pomona. Statistics show that the death rate in Pomona is consumption come here to die.

The newspapers of Pomona have been called upon for bids on the city advertising and printing for the next fiscal year, and it will, no doubt, engender some lively but good-natured competition among our local printers and publishers.

There are positive indications that Pomona will have at least five notable weddings in the month of June. One posted tells us he has thee occasions on hand for himself.

Nathan Cohn is preparing for building a residence on the correspondence of White over

SANTA MONICA.

Chamber of Commerce—Early Sum mer by the Sea.

SANTA MONICA, May 16.—(Special Cor-respondence.) The Chamber of Commerce directors met Wednesday evening and held a short business session. A resolution passed, changing the admission fee to the a short business session. A resolution passed, changing the admission fee to the chamber to \$3 for all comers, irrespective of their former connection with the old Board of Trade. It was also agreed to extend a formal invitation to the Town Trustees to accompany the chamber to Passadens on Thursday. An amendment was offered changing the regular meetings to once a month, on the second Wednesday evening, which went over under the rules. Today the chamber is not much in evidence here. It went forth pretty much in a body to inspect the Passadena electric line, and at this writing it is lost, individually and collectively, in the wilderness of new buildings and improvements along the banks of the Arroyo Seco and at the "Crown of the Valley."

A. L. Most and family, who have been at the Jackson for the past six weeks, have returned to their home in Springfield, Mo. They came here for the benefit of Mrs. Most's health, and she returns home much better. Mr. Most is an old-time Santa Fe conductor, who has been in active duty on the St. Louis and Santa Fe branch for the last fifteen years.

Master Bennett Miles is one of the victims of the rusty-iron accident, of whom there have been several heresbouts of late. The young man punctured his knee with a piece of wire, and has been seriously ill in consequence, but is now convalezent.

valescent.

A new jewelry store is to be started in the new Neptune building.

Joseph Bonty, who recently sold most of this real estate on the South Side, has no intention of deserting that quarter. He has, instead, opened a grocery store there.

The wreckage from the Crown of England—that is, the last of it—comprising the iron and debris of the hulk, has been sold to a Los Angeles firm, and will be landed by boat at the wharf here.

ORANGE COUNTY.

A BOY WHO OUGHT TO GO TO BAN QUENTIN.

City of Santa Ana vs. Railway Com-pany Trial—Social Gathering at Tustin—Sheriff's Sale of Dry Goods.

BANTA ANA, May 16.—(Special Correspondence.) Two young lads, aged 13 and 14 years, respectively, the former a son of Robert English, who resides in the western portion of the city, and the latter a boy named Doke, who is visiting with the Kuffels, on Bast Third street, became involved in a serimmaze last evening the Kuffels, on Hast Third street, evaluated involved in a scrimmage last evening about 7 o'clock, which resulted disastreusly. The boys met in a vacant lot cast of the county offices, and, after some words, elimched. The souffle was of short duration, for the Doke boy struck his additional for the Doke boy struck his additional for the box sides with the second sack. duration, for the boke oby tertex his ac-versary a severe blow with an open jack-knife on the back of the head, cutting an ugly gash, and ending the fight. The in-jured boy broke loose and ran, and the Doke lad elinched his victory by hurling a piece of a shovel-handle after him, which also took effect on some portion of his body.

body.

It was at first thought that the wound inflicted was a very dangerous one. The gish was about two inches in length, following the seam of the skull downward from a point near the top to a level with his right ear, and the blood poured from the cut at an alarming rate. He was taken home and is reported today as out of sell dayser.

taken home and is reported today as outof all danger.

The Doke lad is a comparative stranger
here, being on a visit to Southern California with his mother and sister, who
were in Lis Angeles, having left him with
their friends, the Kuffels. No formal complaint has been filed against him as yet, as
the termination of the injuries of young
English will determine attogether just
what charge, if any, will be lodged against
him. It is bradly probable, however, that
he will escape without punishment, even
though the wound is not at all serious.
The exact cause of the trouble is not
known, but whatever it might have been
there can be no excuse for so savage a
deed.

THE STREET RAILWAY CASE.

Judge J. S. Noyes of Riverside arrived this morning to occupy the judge's chair in this county in the case of the City of Santa Ana vs. the S. A., O. and T. Street Railway Company, Judge Towner being disqualified. The defendant, represented by Victor Montgomery, Esq. was allowed three days to file its brief on demurrer, and the plaintiff, represented by City Attorney Z. B. West, was given two days to answer and defendant then two days additional to reply. At the end of these seven days the street railway track will have been paved, and there seems to be considerable doubt if the case ever occues to trial. Judge Noyes's calendar is filled to June 18, so the earliest date to be reached for the trial of the case is June 19. In the meantime, Superintendent Bundy wears the says paving, even with "addbe and gravel" is awful expensive.

SOCIAL AT TUSTIN. One of the most pleasant and largely-attended socials of the season was the one of the most pleasant and targetyattended socials of the season was the
musicale given by the Ladies' Guild of the
Church of the Messiah of Santa Ana,
Wednesday evening, at the residence of
Mr. and Mrs. J. S. Rice, in Tustin, at
which the cantata of the "Crystal Slipper"
was given by a chorus of ladies, the solo
parts being as follows: Cinderella, Mrs.
A. J. Padgham; prince, Miss Rosa Boyd;
proud sisters, Mrs. Fred Rafferty and Mrs.
C. M. Holmes; fairy god-mother, Mrs. Mit
Phillips; flower girls, Mrs. A. B. Harris
and Miss Rose Wilson.

Before the cantata a short musical programme was rendered, including songs
by the Misses Happy Smith and Anna
Kernodle of Santa Ana; a dust by Messrs.
Smith and Harrison, and a violin solo by
Merle Rice.

Miss Blossom Smith presided at the
plano as accompanist for the cantata and
solos.

Refreshments of lose cream and cable

solos.

Refreshments of ice cream and cake were served by the ladies at the conclusion of the programme. The attendance was very large for an entertainment at a private residence, it being estimated that fully two hundred were present from Santa Ana, Orange and Tustin.

SANTA ANA BREVITIES.

The stock of dry goods, etc., of Beatty Bros. will be sold by Sheriff Lacy next Thursday, May 23, to satisfy two executions, one held by the First National Bank of this city for \$262.65, and the other by Richard Beatty for \$5927.89. The trade fixtures, notes and accounts of the firm are valued at \$1500, aside from the regular stock of goods.

Mrs. Stella Harding of Los Angeles, who has been visiting her aunt, Mrs. C. C. Shaw, for several days, returned home this morning. SANTA ANA BREVITIES.

RIVERSIDE COUNTY.

Newerf Beats the Record for the Cen-

tury Run.

RIVERSIDE, May 16.—(Special Correspondence.) This morning W. D. Newerf, James Patterson, Burt Moulton and James R. Cheatham left Perris to beat the century run on their wheels. The time of starting was at 6:45 a.m. Rivenside was reached at 7:56, the turning point this side of Pomona, via South Riverside, at 12:03. Returning, Newerf reached Riverside at 12:45 and Patterson at 1:02, and Perris at 2:37. Newerf being about two lengths ahead on the final spurt. The time in making the one-hundred-mile run was 7h. 53 m., beating the record by about half an hour. Cheatham fell out on the down trip at Riverside, because of a broken wheel, and Moulton on Magnolla avenue for the same reason.

Miss Ethel O'Brien celebrated her tenth birthday Wednesday afternoon and evening at the home of her mother on Seventh street by entertaining a score or more of playmates at tea. There were present Masters Chester Lawrence. Harry Doollittle, Harry Phelps, Harry Anderson; Misses Alice Mitchell. Louise Dunbar, Marie Mann, Laraina, Cadwell, Addie Mae Peck, Helen Packard, Ella Packard, Nelle Palmer, May Fabb, Evie Jumper, Rena Phillips, Tina Cout, Allie Stites, Vera Lawrence, Elsie Shields, Jessie Doak and Mrs. J. H. D. Cox, the young hostery's Sunday-school teacher.

Col. J. T. Ritchey says that his first season in the hotel business in Riverside has been so encouraging that he intends making some extensive improvements in the Arlington in the near future.

The half-mile race between Waring's Winder and Bettiner's Mermaid on Wednesday afternoon at Hall's track resulted in Wonder winning in 0:55 by two lengths.

Rev. A. Fleitoher of South Riverside attended the annual convention of the Episcopal church, in session in Los Angeles this week. tury Run.
RIVERSIDE, May 16.—(Special Corre-

this week.

The musical event to be given by the "Tone Weavers," which was to have been given on the evening of the 21st inst., goes over for one week because of a church convention meeting on the first date. This organization is a social club of sixteen or

more young ladies, and the character of the music they are studying, and the suc-cess which attends their rendering leads to the belief that their proposed concert will be something agreeable to music-lov-

to the belief that their proposed concert will be something agreeable to music-lovers.

Mrs. Gus Bauman, mother of Mrs. J. F. Tibbit and Mrs. E. Michelbacher, who has been the guest of her daughter here for the past year, left for her home in Oshkosh, Wis., Thursday morning. She announces that she will return to Southern California before snow flies.

A. P. Woolverton of Chicago, and who comes from a city which he says has forced its way to the front by public-spiritedness, has purchased the Whittler ranch of twenty acres through Seger & Tettey. Mr. Woolverton hopes the bonds for improvement of streets and electric lighting will carry in Riverside. He is not a silurian, and will not join the ranks of the few of those found in Riverside.

C. W. Filkins and A. W. Bogge returned Thursday from a week at the hot springs of Elsinore. They are greatly in praise of the waters of these springs.

SANTA BARBARA COUNTY.

Fourth of July Preparations-Gold

Discovery—Electric Franchise.
SANTA BARBARA, May 16.—(Special
Correspondence.) The Fourth of July
Committee has decided to request all the school districts of this county to take part, and make the school children a spe-cial feature of the celebration. Each school district is to be provided with a school district is to be provided with a bacer, and each child with a badge. The citizens of the towns of Ventura and Santa Paula have been invited to unite with the Santa Baser senso in honoring Independence day, Burton Mound has been designated as the place for holding the exercises. The sale of intoxicants on the grounds is to be prohibited, and the committee is determined, so far as lies in its power, to have an orderly observance of the day.

power, to have an orderly observance the day.

Those who intend to decorate are requested to use only the national colors. Both of the noted bands of the city are to be engaged, and that is a sufficient assurance of good music. The celebration here will be a meritorious affair.

Busides the usual exercises, there will be running races at the Santa Barbara racecourse, the races being four in num-

GOLD DISCOVERY.

It has long been a prevalent opinion that the Coast range of mountains was destitute of mineral formation, but recent discoverof mineral formation, but recent discoveries in the region of the Lomas de la Purificacion ranch, near Santa Ynez, in this county, has tended to overthrow this belief. On the south boundary of the Purificacion ranch, near the summit of the coast range, and on its north stope, has been discovered a quartz ledge about ten feet bread, and between well defined inclosures in slate has been found a quartz rock that assays from \$\$ to \$\$14 in gold and small quantities of silver. This locality is about five miles due north of El Capitan on the coast.

Prospectors, for a month past, have been scouring this region very thoroughly, and have traced the ledge for a considerable distance. T. R. Moore, W. M. Bddy, John R. Hill and Jarrett T. Richards have secured an option on a portion of the Purificacion ranch, and are now engaged in running a tunnel into the ledge. They have already penetrated to a distance of thirty feet and find well-defined walls of size and a border of serpentine.

feet and find well-defined walls of state and a border of serpertine.

The assays show uniform gold throughout the ledge from 38 to \$10, with a tendency to improve as the tunnel grows deeper. Of course, thus far the work has been entirely in the line of exploiting, but the discoveries thus far made warrant the prospectors in the hope that they have a very valuable property. The region of quartz rock in this locality is quite limited, as the fedge runs into the mountain, where it is soon covered by slate and topped by a sandstone of great depth. The ledge runs northwest and southeast.

OVER-DRIVING. Am officer of the Santa Barbara Hu-mane Society arrested on Wednesday Rob-berto Ruiz of Montecito for over-driving his horse. Ruiz plead guity to the charge and was fired \$5. This is the first arrest made since the organization of the society some six months ago.

TEMPEST IN A TEAPOT. TEMPEST IN A TEAPOT.

The matter of William La Vies against Charles Lyne for threatening to shoot the former, has been amicably adjusted. The case was dismissed on the motion of the District Attorney after consultation with the complaining witness and the attorney of the defendant. It is unknown why the matter was brought to such an abrupt termination, as there were all sorts of rumors in the air concerning the matter. Some binted at rich and racy disclosures, but it now transpires that it was only a "tempest in a teapot."

NO ELECTRIC FRANCHISE.

No ELECTRIC FRANCHISE.

The citizens of Santa Barbara are very much disappointed that no bids were tendered at the meeting of the City Council today (Thursday.) It was supposed that there would at least be one bid, as Mr. Reed of Los Angeles and Mr. Ashton of Santa Barbara were actively engaged in trying to secure a franchise from the city. Mr. Reed was present at the Council meeting today, and stated that he had endeavored to interest Eastern capitalists in the matter, but on account of the delay on the part of the Council and the refusal of the latter to grant a short-time franchise, he had been unable to do anything. He said that now he was trying to induce local capital to become interested, and that he had confidence in eventually bringing the matter to a successful termination. Mr. Reed asked for a further extension of time, which was unanimously granted, the time for the reception of bids being extended to June 20. NO ELECTRIC FRANCHISE.

SANTA BARBARA BREVITIES.

Hon. E. J. Hill, Congressman-elect from the Fourth Connecticut District, is spending a few days in Santa Barbara. Mr. Hill has visited other sections in Southern California and speaks in somplimentary terms of what he has seen. During his visit in this section he went to San Fedro and Santa Monica for the purpose of investigating the question of the deepwater harbor at those points. Mr. Hill goes from here to San Francisco and may continue his trip to Honoidiu.

Miss Bard and Miss Malden leave tonight (Thursday) for New York via the Santa Fe. en route for Europe.

J. H. Stewart, freight agent of the Pennsylvania Railroad, is in the city.

The following-named persons left today (Thursday) via the Southern Pacific, for the East: William Fisher, for Ellsworth, Kan.; W. H. Baldwin, for Chicago; Mrs. Lindsey and two children, for St. Paul. SANTA BARBARA BREVITIES.

(Riverside Enterprise:) Judge Ross has rendered a decision in the United States Circuit Court which will be hailed with delight by many settlers who for a long time have had the shadow of confiscation Southern Pacific cast over their The case was one of many in oy the Southern Factor case least least over their homes. The case was one of many involving the alternate sections granted to the Southern Pacific wheat that company contracted to connect with the Atlantic and Factor road. These lands will aggregate over thirty thousand acres, and are in Bakersfield, Kern, Los Angeles and San Bernardino counties. The effect of the decision is to voucheste to all settlers of the lands under government patents, immunity from being custed by the Southern Pacific Company. The decision was a knock-out blow for the Southern Pacific. But this was not all. In another case, one in which the earne corporation sought to oust the occupants of a large amount of land on the Rancho Jurupa, the same Judge ruled against the company. Altogether, yesterday was a chilly one for the Southern Pacific in this part of the State.

SAN BERNARDING COUNTY.

CRIMINAL'S LITTLE GAME IS NIPPED IN THE BUD.

Fight in the Board of Education-First Anniversary of Wednes-day Club—Case Against Emilio Garcia.

SAN BERNARDINO, May 16 .- (Special

Correspondence.) Juan Ferra, the accomplice of Emilo Garcia, for the murder of Guilminot at Colton last October, was taken up to San Quentin this week by Sheriff Holcomb and safely lodged behin the bars for a thirty years' sentence. Just before he started Juan confided to a friend in jail that he had secreted a lot of pepper, and with it would blind the Sheriff and make his escape. After the Sheriff had taken his man down to the depot the friend of Ferra, who was in the jail and knew the circumstances. the jail and knew the circumstances, thinking Ferra was safe on his way, made a remark to a comrade that Ferra would escape, and gave the particulars of his having the pepper concealed on his person. This fact was communicated to the officials, and a swift horse was sent at his best speed to the depot where about to take the train and the former informed of the startling fact. A thorough search was made of the prisoner, the pepper discovered, and on the journey to the morth Ferra received a little extra attention from his keeper and was landed in safety.

A SCHOOL SQUABBLE.

A SCHOOL SQUABBLE.

The fight in the Board of Education came to a climax last night when three members forced the chairman to call a special meeting, when the plan deviced and decided upon by Messrs. Colliver, Davidson and Vale was carried through in spite of all opposition. The first move was to seeparate the High School from the grammar grades and place T. H. Kirk as principal of all the latter at a salary of \$1600. Then the fight began on chosing the principal for the High School, the three voting for W. A. Richardson, and the two for the incumbent, W. Scott Thomas, who has given excellent extingation in the position. D. B. Sturges, for many years principal of the Sturges Academy in this city, was elected vice-principal of the High School. The fight over the office of principal has been a bitter one, and already two of the faculty have announced their intention to resign under the present estilement of the matter, and it is though others may follow suit.

PLEASANT OCCURRENCE.

PLEASANT OCCURRENCE. The Wednesday Club celebrated their first anniversary yesterday at the resi-dence of Mrs. A. F. Willard with the fol-

dence of Mrs. A. F. Willard with the following persons present: Mmes. D. R.
Stephens, Willard, West, M. S. Stephens,
Dunscomb, Smith, Gazzola, Grovenor,
Dunszzo, Gwin, Bemish, Philbrook, A. G.
Pierce, Marchant, Hadden; Misses
McCaivy, Damron and Grosvenor.
The day was filled in by a dinner, musical and literary programme, and report of
the work of the past year. They hold their
weekly meetings at the residence of Mrs.
R. V. Hadden, and use for their principal
textbooks, the Forum and Arena, although
all magazines contribute to their work
and enjoyment.

APPRALIED TO MEXICO.

APPRALIED TO MEXICO.

Emilo Garcia, under sentence of death, to be executed the first week in June, has appealed to the Mexican Consul at San Francisco, claiming that as he is a subject to that country he must be protected from an unjust trial and sentence. The Consul has written to Attorney Daley in regard to the matter for information, and the latter will go up and show him the proofs in the case and endeavor to settle his doubts as to the guilt of Garcia. He will also take with him a confession written by Garcia after his sentence before he thought of applying to the Mexican Consul.

· ELECTED OFFICERS The county convention of the W. C. T. U. met here Tuesday and Wednesday of this week, and yesterday elected their officers for the coming year as follows President, Mrs. S. A. Barrett, Highland vice-president, Mrs. Moore, Cucamongs secretary, Mrs. Moffitt, Riakto; treasures Mrs. S. B. Colvin, San Bernardino.

INDECENT-EXPOSURE CASE. INDECENT-EXPOSURE CASE.

In the case of some boys in swimming, who were fined \$10 cuch for indecent exposure, by Justice Martin of Highland, much to the indigniation of the parents and through them the public, the facts seem to bear out the Justice in his decision. The place where the boys have their "swimming hole." instead of being concealed from the view of passers-by, is right in the middle of the road, where the creek crozecs, and a dam, just at the side of the road, that turns part of the water into an irrigating flume, is a favorite perch for boys and men who go in bathing ut this place. Gentleunen and laddes driving along this road have had to pass fullfor thys and men who go in bathing ut this place. Gentlemen and lades driving along this road have had to pass full-grown men, as well as boys, standing upright on this dam, only a few feet from the carriage wheels, and often boys would run out in front of coming terms, especially if ladies were driving, and stand there until the horses were almost upon thom, and then run and jump into the water. This indecent exposure has been a source of great annoyance to the people living in the neighborhood, and to those who have to pass the spot, and when these boys were arrested it was the endeavor to catch some of the men who go there to bathe, but the oldest one caught was 16 years of age, and they were all old enough to know better, and had been repeatedly warned not to bathe there. The boys were taken first to their parents and one mother said she would pay the fine, and the boy was left. At another place the fasher of the boys ran the Constable off his place with a pitchfork, and at the other he was received with such a string of oaths and threats that he was glad to get away, and brought the children, all but one, in here and left them at the fail. They are now out on bail, and the Superior Judge will be called upon to pass upon the sentence of the Justice.

DEAD COMRADES' DAY.

Meneral day exercises this year will

DEAD COMRADES' DAY.

DEAD COMRADES' DAY.

Memorial day exercises this year will depart a little from the usual path. Religious services will be held at the pavilion Sunday evening, May 26, in which all the chirches will join. On Memorial day the children from the schools will be invited to participate and assist the members of the G.A.R. and W.R.C., who will meet at their hall at 3 o'clock in the afternoon and proceed quietly to the cemetery, where the ritual exercises will be given for the "unknown dead," two recretations will be given, two numbers sung by a male quartette, when each member of the corps will take a boy from the public schools and proceed to a grove, bearing a flag and bouquet, and at the firing of a gun all the graves will be decorated at the same instant. This will close the ceremonies for the day.

SAN BERNARDINO BREVITIES. Ex-Sheriff Dr. Booth has been invited by Co. E of this city to be their guest during the coming Fourth of July festivities. The doctor was always a favorite with the boys and will be given an ovation should he accept the invitation.

Prof. E. D. Wyckoff sings in concert at Santa Ana tomorrow night.

REDLANDS.

REDLANDS, May 16.— (Special Correspondence.) The Society for the Prevention of Cruelty to Animals has a membership at the present time of minety-two,

including twelve honorary members and two life members. An advisory board of twelve has recently been elected, and is composed of the following named citizens:
F. P. Morrison, Curtis Wells, E. G. Judson, A. B. Raggles, C. R. Paine, A. E. Sterling, Mrs. George Otis, Mrs. Frank Farwell, Mrs. Dr. Sanborn, Mrs. J. S. Edwards, Mrs. F. P. Morrison, Mrs. Harry Moore.

REDONDO.

REDONDO, May 16 .- (Special Corre spondence.) The steam schooner Rival arrived last night from Fort Bragg with 160,000 feet of lumber for Dennison & Griffin.

Considerable excitement was occasione here this morning when the fact was an-nounced that every sailor on board the schooner Webfoot, now unloading at the wharf, had disappeared with the exception of one man who slept in the captain's cabin. As they were all non-union sailors, it is supposed they were taken off by the union men who came over from San Pedro, but nothing definite will be known until some of them show up and report as will probably be done. Today the work of unloading was continued, however, by a pick-up crew from Redondo. The hardest thing to find in Redondo just now in a furnished house, as everything in that line has been engaged much earlier than usual this year.

H. D. Smith, manager of the Redondo Lumber Co., expects his family soon from the North and has rented S. P. Rees's house on Guadalupe avenue for the season.

Mrs. P. B. Elderkin and maid of Los wharf, had disappeared with the excep

Potato Culture

The California Cultivator for April pr lished interviews with two of the m successful potator-misers in this section, which they told of their methods. One is white man and the other a Chinaman, if former Frank Schiedler of Burbank a the latter Jim Kie of Los Angeles. MR. SCHIEDLER'S METHOD.

What time of year do you plant pota-

Do you plant more than one crop a year?

No. What is the nature of your soil, depth What is the nature of your soil, depth o water, etc.?
Sandy, chocolate loam. From five to teneet to water,
What varieties do you plant?
Oregon or Salinas, Burbanks and Early
Rose.

Rose.

Manner of planting, depth, etc.?

Cut seed two to three eyes, put one pit in a hill, about 1½ feet spart. Furrow or row with eight-shovel plow and cor four to six inches.

per sack?
One hundred and fifty to two hundred sacks of marketable potatoes to the acre. In 1893 the average price was 85 cents; in 1894, \$1 per sack.
Do not irrigate.
In addition, Mr. Shiedler writes as follows:

In addition, Mr. Shiedler writes as follows:

In reference to time of planting, would
ray that it depends largely upon the season, as, after having been in California
ten years, I have come to the conclusion
that no two are alike. Then, again, the
reason for late planting is because I am
able to get as much again for a late cropsay, harvested in November and December—as I can for an earlier one, harvested
in June or July, when the market is flooded
with Chinese potatoes. I usually plant as
late as the season will warrant-cometimes as late as June 15. I could get two
crops of potatoes by planting very early,
but prefer to raise one good crop and be
sure of it.

Of course all the land at Burbank and
vicinity will not raise 150 sacks of potatoes per acre, or anywhere near that
amount. In fact, there are but a few
hundred acres in this vicinity that I would
call potato land. My land is a rich, sandy
loam, which stays moist within a few
inches of the ion the year round. The res-

loam, which stays moist within a few inches of the top the year round. The reason why potatoes rot in the ground is because the soil dries out below them. If the ground is damp where the potato is it will very seldom rot. I am plowing up potatoes now that are as sound and dry when cooked as potatoes can be, that I planted last May, but the ground where they are never dries out over two inches deep, beink gept damp by water from below, about six or eight feet.

I usually buy Northern potatoes for seed, as all kinds of seed run out very soon in a warm climate.

I do not like plowing potatoes in, as is the custom in this country, that is, dropping them in the furrow when plowing and covering with naxt furrow. This mode of planting accounts for much of the seed not coming up, as the horse walking in the furrow when covering mashes many pieces and some of them are covered by heavy clods, through which it is impossible for them to grow. I use two horses and a cultivator for covering, the horses walking one on each side of row.

The yield varies with the season. Last year was the poorest I ever had and I got about 125 sacks per acre. Have had as high as 300 sacks per acre.

The reason why Northern potatoes

ing one on each side of row.

The yield varies with the season. Last year was the poorest I ever had and I got about 125 sacks per acre.

The reason why Northern potatoes bring better prices in our market than heme-grown potatoes, is because 90 percent, of our potatoes that are marketed after September 1 are irrigated, and of an inferior quality to those raised in the North without irrigation. But we poor fellows who happen to be able to raise as fine potatoes as any one in the North, are confronted by the question from the produce men and grocers, "Are your potatoes local?" If we answer in the affirmative the chances are they will not look at our potatoes at all. This is very aggravating to people who are always being advised to patronize home industry. Other times we have had the pleasure of seeing eur own local-grown potatoes after they pass into ithe hands of dealers or commission men at reduced rates labeled "Best Northern Burbanks!!!" and selling at fancy prices. Of course this is business, but sometimes our local growers of good potatoes feel a little inclined to be weary of such business.

Curing Lemons.

Curing Lemons.

(California Cultivator:) Here is another process of curing lemons. It does not differ much from a half dozen other methods we have published. All are governed by the same principles. This process is said to be that used on the Mediterranean and seems to be all right:

Pick your lemons, the regular size, put them in boxes lined with heavy brown paper. Put in a layer of lemons, then a layer of paper, and so on until the box is full; then cover with heavy paper. Let them set under the trees three days and nights—but don't let them get in the sun. Then take them to the curing house. a soft linen cloth or some other soft cloth, to take the sweat off. If this is not cloth, to take the sweat off. If this is not done they will cure hard and rot. Then put them back in the box as before, only with clean paper. Care must be taken at all times to handle carefully. Now let the lemons stay in the boxes from fifteen to twenty days, then take out of the boxes the same as before, only wrapped in tissue paper, and wipe them off well. Put them back in the boxes with nice clean paper; then you have a lemon that will carry anywhere and will keep for a year.

The curing house or cellar should have an air clemney in the center.

The boxes when put up should have a two-inch stick between them.

ABSOLUTELY PURE

MAY BORE FOR OIL.

CASES AGAINST WELL-DRILLERS
ARE DISMISSED.

The Ordinance Under Which They Were Prosecuted Declared Un-constitutional by Justices Morrison and Owens.

Justice Morrison yesterday filed his pinion in what are known as the oil-oring misdemeanor cases, in which he inds that a portion of the ordinance un prosecution is brought is der which the prosecution is brought is unconstitutional, and dismisses the com-plaints against the defendants, W. H. Clark, F. C. Olmstead and A. and B. Secor, who have been repeatedly arrested for operating oil-boring machinery on the

Belmont Hall grounds.

The ordinance alleged to have been violated by the defendants is No. 2421 (new

lated by the defendants is No. 2421 (new series.) entitled, "An ordinance regulating the erection, operation and use of boilers and engines within that territory of the city of Los Angeles lying outside of the general fire limits of said city."

The prosecution was under sec. 1 of said ordinance, which reads as follows: "It shall be unlawful for any person, firm or corporation to erect, operate or use a boiler or engine for drilling, pumping or operating a well within that territory of the city of Los Angeles lying outside of the general fire limits of said city, without having obtained a permit to do so from the Board of Fire Commissioners of said city."

city." Justice Morrison in his opinion says: "I think that portion of said ordinance above quoted is unconstitutional and void, for the following reasons:
"First—it deprives the owners of property in this district of the right to develop the natural resources of their property, and makes the enjoyment depend upon the arbitrary will of the governing authorities of the city.

eriy, and makes the enjoyment depend upon the arbitrary will of the governing unthorities of the city.

"Second—it discriminates against the business of drilling a well—an occupation which is, in itself, lawful—while persona may erect and operate boilers and engines for any other purpose, no matter how objectionable, either upon the ground of danger from fire or from the character of the business carried on, without being required to obtain a permit.

"I do not question the power of the City Council to regulate the erection, operation or use of a boiler or engine for drilling, pumping or operating a well, but I do question the power of the governing authorities of the city to grant one man a permit to drill a well upon his property and to refuse the man upon the lot adjoining the same privilege.

"For the reasons heretofore given, the motion of the defendants in each case will be sustained, the complaint dismissed and the defendants discharged."

There are three of these cases before Justice Morrison and two before Justice Owens, who concurs in Justice Morrison's opinion.

An appeal will be taken.

An appeal will be taken.

POLICE COURT NOTES. Penalties Were Imposed for Various Petty Offenses.

Petty Offenses.

In the Police Court resterday Fritz Wanntke, a salcon-keeper, pleaded guilty to the charge of interfering with an officer in the discharge of his duty, and was fined \$10. L. Broze, the prisoner that Wanntke assisted to escape, was fined \$5 for violating the hitching ordinance. Policeman Ritch arrested Broze for letting his horse stand in front of Wanntke's salcon unlitched, while he was inside drinking. While the officer was using Wanntke's telephone to call the patrol wagon, the salcon-keeper assisted Brose to make his escape. He was, however, recaptured and Wanntke was taken into tustedy, size, for his interference in the matter. He tried to run a great bluff on the officers and newspaper reporters on how he "didn't do nothing" and was brutally outraged by the policeman that he was going to have discharged from the force, but in court he westened and humbly pleaded guilty to unwarranted interference.

THE EYE IS A SEER, But not a Prophet, nor are we Prophets, but we can tell you now that, if you neglect your eyes, your sight will become injured and you will be the loser by it. Your intelligence cautions you to correct existing defects now—not when it is too late. Our ability to do so, and our various departments for executing your orders accurately and promptly, are at your disposal; the former gratis, the latter at moderate charges. Our reputation is established since 1898.
